

## Here Comes Kelly's Heroes

By Michael Kurilla

Sad to say dear reader, inematech will not be showing y films this week. It will turn next week, however, with night of Orson Welles, cluding one of the most mous American films, *Citizen Kane*.

This week ASCIT is presenting Kelly's *Heroes*. This film brings gether some of the regulars of lm and television. In the cast e people like Clint Eastwood, onald Sutherland, Telly Savalas, arroll O'Connor, and Don ickles. From the csat, it sounds ke a comedy, but from the plot one is sure. There's a war going on and these guys learn at the Germans have stored old in a town. These guys decide to steal the gold from hind the lines and the fun just begins.

Sutherland plays a hippie tank rive, O'Connor is a general, and ickles is a black marketeer. bviously, the action is mplicated. The comedy is batable. Roger Greenspun of the New York Times says, Detailed and impressive in its umb bursts." If you're partial 'big heist' films and also rial to off-the-wall comedies, en this is just the film for you.

## Lions Beat Christians

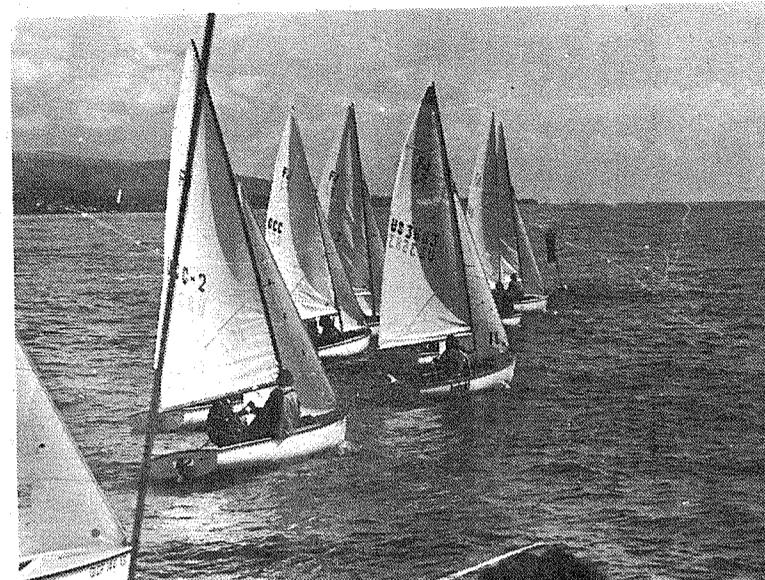

Tech has won two out of three games this week in baseball. We split a double header with Pomona last Saturday. Then, on Tuesday, we slaughtered Pacific Christian fourteen to nothing.

In the Pomona doubleheader, Tech lost the first game nine to eight. Pomona capitalized on a series of infield errors. Jim Abbot pitched, only giving up one earned run. Tech hit very well, with Fred Crimis hitting a 360 foot shot into the fence. Paul Guterrez was the leading scorer, hitting five runs in with a double and a triple.

Caltech won the second game two to nothing. Neither team hit well. All the Tech scoring took place when the Pomona pitcher walked two men with the bases oaded. Doug Roundtree pitched a shutout, allowing only two hits. Rich Gayle picked off a Pomona runner attempting to steal home, after an overthrow from left field.

On Tuesday, the ions(Caltech) beat the Christians(Pacific Christian College) fourteen to nothing. Pacific played very sloppily, and Tech took advantage at every opportunity. Jim Abbot, in additton to pitching a shutout, cored a 'home run' when his single led to three errors, which resulted in 3 runs.

The next game is tommorrow, ut on the field at 3pm. It is gainst Occidental.

'Kobold' sails on as the Caltech sailors press on in their relentless quest for victory.

## Kaplan to Discuss

### Middle East

"The Middle East from Within," a lecture by Dr. Abraham Kaplan, professor of philosophy at Haifa University, Israel, who is currently Mellon Visiting Professor of Philosophy at Caltech, will be given Thursday, March 2, at 8 pm in Ramo Auditorium on the Caltech campus. The program, sponsored by the Caltech Y, is free and open to the public.

Kaplan will present a view of the problems of Israel and its arab neighbors from the perspective of an American who has lived in Israel and holds dual citizenship in the two countries.

Born in Odessa, USSR, in 1918, Kaplan came to this country when he was 5 and became a citizen at 12. He attended the College of St.

Thomas, Minnesota, where he majored in chemistry. He earned his PhD at UCLA in philosophy in 1942. Kaplan taught in American universities for 26 years before accepting his present position in Haifa in 1972.

A longtime advocate of Zionism, Kaplan teaches social, political, and religious philosophy, and in the past ten years has been a leader in humanistic psychology educational programs.

Kaplan will teach at Caltech until March, when he will become resident scholar at the Annenberg Center for American Studies at USC for the spring term. Before returning to Haifa in September, Kaplan will be one of the invited speakers at the World Congress on Gerontology at its August meeting in Japan.

## Hockey Wins Again

By Grant T. Yew

The reputation of the Caltech hockey team is beginning to spread. Inquiries from aspiring high school players have been flooding in, predominantly from the Boston and Chicago areas. These young athletes are seeking a chance at the team tryouts and hoping for that most coveted of all earthly awards, a Caltech sports scholarship.

As the word of the Beavers' accomplishments spreads like wildfire across the nation, here in L.A. the team is increasingly intimidating its rivals. Last Sunday Occidental sent only two players to meet the Caltech skaters. Once seeing the Tech

## And Other Security Stories

## Techers Catch Calculator Thief

By Joel Rubinstein

Two observant techers recently helped apprehend a thief peddling stolen calculators. Alan Loh and Larry Seiler became suspicious of a man trying to sell two calculators on campus. They contacted the Security office, which in turn called the Pasadena Police. When the police came, the thief confessed having taken six calculators from the Pasadena office of the U.S. Forest Service, where he used to work. It was only through the presence of mind of these students that this thief was apprehended.

Lee Chapman, Manager of the Security Office, wants to make students more aware of the presence of Security. He suggests that students always call Security when they are suspicious of a crime (XI701). Security will be more effective in controlling crime if it has student cooperation. This includes obvious things like locking valuable property, and being watchful for suspicious persons. Locking things is a good idea in any case. Bicycle thefts run about one to three per month, and many calculators get ripped off. Car thefts average about four per year. Very simple precautions can greatly reduce the risks of theft. Mr. Chapman recommends locking your car.

### Parking

Parking on the Olive Walk has been a hot issue lately. Security has been the target of some criticism for what appears to some to be unilateral actions in putting up barriers blocking Olive Walk traffic. However, Lee Chapman sees his office as merely reflecting the wishes of faculty as well as students. He said that many students have complained about the Olive Walk

parking, both last year, and also after the beautification and new grass. Some students say that for groceries and other deliveries they like the convenience of parking near their rooms, but Mr. Chapman has noticed that the privilege was abused more often than not. He cites examples of cars parked one evening and remaining until mid-morning the next day. It is this kind of abuse of parking privileges which led to the current policy plans, which are slated to go into effect in the spring. These have been reported in the *Tech*. Briefly, except for the beginning and end of every term, the planters will return to prevent Olive Walk traffic at any time. Entrance to the area around Winnett will be restricted to non-business hours, and the 30-minute parking rule will be enforced. Mr. Chapman said that he didn't want to be mean, but those who violate the rules will get their cars ticketed. He points out that an ASCIT committee wanted to ban campus traffic entirely, so the current plan is if anything too lenient.

Mr. Chapman is interested in maintaining good relations with the students. Security will let you into a building after hours, if you have a reason for getting in. However, it is the policy to confiscate master keys when students are caught using them to get into places they do not belong. There is no need for master keys because Security will always let you in if you have a good reason. If you do have a master, then at least be careful to whom you lend it. It would be a mistake to lend it to someone not bound by the honor system, i.e., non-teachers. In any case, the one you lend it to can always be let into buildings by Security, so there is no point in taking unnecessary risks and lending masters.

Some employment opportunities exist for students in Security. Security may hire some students as assistants to security officers to work evenings or nights. If you are interested, call ext. 1701 or visit Security at 367 S. Holliston.

major, *Opus* 59, No. 3. For information, call 825-2953.

Maffitt and Davies are back from their many tours with Glen Yarbrough and The Limelighters and are again headlining at the Ice House in Pasadena. The duo play precision matched guitars—but only for a week before they hit the road again. Very acceptable singing voices and wry wwt complement their finely coordinated stringed renditions. Comedian James Aleck and singer-comedian Eddy Kay round out this week's three-way act at 24 North Mentor Street. Call 681-9942 for reservations—a must.

David Ritchie

## Othello Comes to Beckman

The New York based National Shakespeare Company's production of *Othello* will be presented in Caltech's Beckman Auditorium, for one performance only, on Saturday, February 25, at 8 pm.

*Othello, The Moor of Venice*, is one of the four great tragedies written in what literary historians call Shakespeare's period of despair. The story centers around Iago's plot to destroy the Moor's love for his Caucasian wife, Desdemona. Iago is passed over for promotion, and succeeds in turning friend against friend, and husband against wife, in seeking his bitter revenge. For ticket information, call 793-7043.

The Los Angeles Philharmonic Orchestra, under the baton of guest conductor Erich Leinsdorf,

will give concerts this Friday and Saturday at 8:30 pm and Sunday at 2:30 pm in the Pavilion of the Music Center. The program will include: *Percussion Concerto* by Colgrass, various excerpts from the operas of Wagner, and the Sibelius Violin Concerto featuring soloist Igor Oistrakh. (Info, call 972-7211). The Albn Berg Quartet returns to UCLA's Schoenberg Hall with a new member, violinist Gerard Schulz, joining violinist Guenther Pichler, violinist Hatto Beyerle and cellist Valentin Erben on Sunday, February 26 at 4 pm. The program will consist of Mozart's *Quartet in B flat major, K. 458*, *The Hunt* by Mozart, *Quartet* by Lutoslawski, and Beethoven's "Rasumovsky" *Quartet in C*

Save Our Social Life

# Bring Back Exchanges

In past years, the Masters Office had sponsored frequent exchanges (dances, of course) with Scripts College (an all-female Claremont College). These exchanges were discontinued a few years ago (I'm not sure exactly when), under the pretext that since Caltech is coed, they are no longer necessary. Before you all jump on me for tearing down Tech women, let me say that my only complaint about them is their number.

These exchanges were, by most accounts, a big success. They were popular with both Techers and Scriptsies.

The exchange program should be restarted. They were an excellent idea then and they still are. They did, and would do wonders for Caltech social life (not almost dead).

The exchanges used to be run by the Masters Office. They received money for them from many sources. They are no longer getting any money for this. The sources that used to fund these dances should start funding them again. Supposedly, these sources included the student houses and the alumni association. They should start funding them again. Failing that, the institute should start funding it. It wouldn't even cost much money. \$10,000, less than one B & G workers salary, would be enough to fund biweekly dances for the whole year. Anywy, it is time that the institute took an interest in their undergraduates, and this would be a good (and inexpensive) way for them to show some interest.

In the event Caltech is too cheap to fund this vital program, the houses should start something like this on their own. True, they could not afford quite such a big program. But, monthly exchange dances should be well within all the house budgets, and would do wonders for their social programs.

Spencer Klein

## Health Center Schedule

The little t carries a fairly walk-in clinic; 2:30-3:30 up-to-date description of the appointments. Health Center services. A Monday and Thursday reminder of the clinic hours Surgeon and sports physicals, follows: 2:30-3:30 by appointment.

Mondays-11:30-12:30 If the Health Center is closed, appointments-women students a Health Center physician may only; 1:30-3:30 walk-in clinic. be contacted through the

Tuesdays-Fridays: 1:30-2:30 answering service at 796-0101.

**AS A NAVY ENGINEER, YOU COULD BUILD A HIGHWAY, A PIER, AND A HOSPITAL ALL IN YOUR FIRST YEAR.**

As a Navy Civil Engineer, you get responsibility the moment you get the stripes. Responsibility on a wide range of projects. Responsibility in every area of construction and engineering management. Responsibility all engineers dream about, but most spend their first few years waiting for.

You enter the Navy as an Ensign, with the option of either a three- or four-year obligation. You'll be a Navy officer and a Navy engineer and you'll get immediate, hands-on experience.

Speak to a Navy recruiter or contact your Professor of Naval Science on campus. They'll be glad to tell you how building for the Navy is the best way to build for yourself.

Contact Lt. Jay Munninghoff, 4727 Wilshire Blvd., Los Angeles, CA 90010; or, call collect (213) 468-3321

# Pierce College to Take on Pucksters

Continued from Page One

team, the two refused to go on the ice and forfeited the game.

Despite these signs of dominance, not everybody respects the Caltech image of athletic excellence. The most notable skeptic, Pierce J.C., is coming to Pasadena (the Ice Capades Chalet) Sunday, Feb. 26 at 10:45 pm to challenge Caltech's five-game winning streak. Caltech, the underdog in this contest, has already lost three games this season to Pierce and a bloody glare of revenge is in many a Tech's eye. The team's high priest and spiritual leader has read the omens and reports conflicting signs. He has interpreted this as indicating that it will be a hard fought contest and that even the gods are unwilling to pick a favorite. The high priest has also indicated that an overwhelming show of Caltech fans may sway the powerful god of scoring, "Puck-up". His favor will certainly be needed, so bring a friend.

## Name the Rose Parade Theme

For those of you who have lots of bright ideas, here is your chance to do something useful.

The Pasadena Tournament of Roses Association is looking for ideas for the theme of the 1979 Rose Parade, being staged in Pasadena on January 1. The way the theme is picked is as follows: people send in suggestions on postcards, and the president of the Association selects and announces the theme that sounds like the best idea for a Rose Parade. The person whose suggestion is picked gets to attend the Tournament of Roses,

the Distinguished Guest Luncheon, and the Rose Bowl Game, all as a guest of the Tournament.

Just write your suggested theme on a postcard and mail it to the Pasadena Tournament of Roses Association, 391 South Orange Grove Boulevard, Pasadena, California 91105.

Entries must be postmarked on or before February 28. Ideas are limited to one per postcard and letters are not accepted.

Arthur D. Welsh, president of the Association, says "Send as

many cards as you wish, but remember that it takes only one to win. During the past three years, two of our winners submitted only a single suggestion."

And anyway, it's about a good a chance as any of seeing the Rose Bowl game in person.

# All The News That Fits

## Update Yourself

Next Wednesday, March 1 at 2 noon, Dr. John D. Roberts, Professor of Chemistry, will give an Update noon discussion presentation on "An Application of Nuclear Magnetic Resonance to Bio-Organic Chemistry." The Caltech Y is sponsoring the event and encourages you to BRING YOUR LUNCH and rap with a real live professor.

## Sherut La'am

The American Zionist Youth Organization-Hillel is presenting slide presentation on Sherut La'am, the Jewish Peace Corps in February 28 at noon in Clubroom One of Winnett center. All are welcome. Information and booklets will be available on campus in the morning at Winnett patio (in the lounge if it rains).

### Renaissance Music

Anyone interested in playing medieval and renaissance music, please contact Janet Rice, ext 2188, or Vicki Edwards, Blacker 56, (449-8344). We are organizing a Promusica and need interested players and instruments.

### More Vegetables

The Caltech Produce Co-op seeks new members. We buy fresh fruits and vegetables weekly at wholesale prices. We also carry nuts, cheese, whole grains and other natural foods. Membership is open to anyone. For further

information contact Joel Rubinstein, 795-8983 (before 1 pm or from 6 pm to midnight).

### Israeli Film

The Caltech Hillel is presenting the Israeli film *Three Days and a Child* in Winnett Lounge at 7:30 pm on March 2nd, 1978. Admission free. All are welcome.

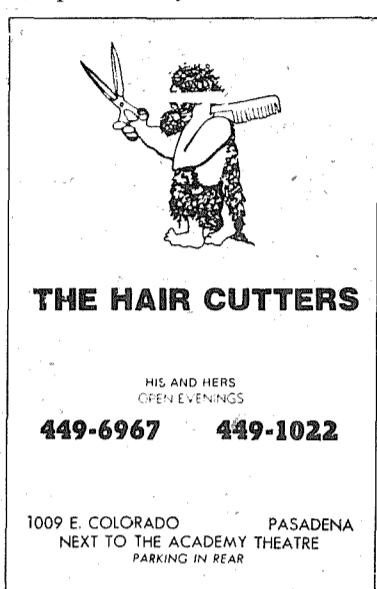

The film, 95 minutes long, Hebrew with English subtitles, is about a student, Eli, who is still obsessed with Noa, the girl he

loved years ago. Now living in Jerusalem with his girlfriend Yael, his routine is disrupted one day by a call from Noa, who is now married to someone else. It seems that she wants Eli to look after her child for several days to give Noa and her husband time to prepare for the university entrance exams. Grateful for the chance to even see her again, Eli agrees, and this is the story of those three days with the son of the woman he loves. Oded Kotler took first prize at Cannes for his portrayal of Eli.

### Discussion Group

The Women's Discussion Group will meet in Winnett Lounge from 4-5:30 pm on Thursday, March 2nd. These discussions are open to all women students.

The primary purpose of these meetings is to provide an opportunity to meet and talk with other women in a small informal setting. Further information may be obtained from Barbara Fass or Bev Pray at the Young Health Center, ext. 2394.

### Easy Rider

# CHEAP WHEELS.

Getting around town shouldn't cost a fortune. We have an answer for you. It's called the RTD Student Pass. For only \$12 a month, you can ride anywhere in Los Angeles County, not just to school and back. Use it weekdays and weekends, day and night. Use it for recreation and sightseeing. If you're a full-time student taking 8 semester hours or equivalent, you qualify for the Pass to make RTD your supersize economy car. Student Pass applications are available at most campus business offices or student unions. Once you get your annual student pass, you purchase a stamp each month for \$12. Monthly stamps go on sale the 25th of each month and are available until the 10th of the month for which they are valid. Stamps for student passes are easily purchased at most colleges, all Boys Markets, Automobile Club of Southern California, May Co. travel desks, and RTD ticket offices. You don't have to go far to find a cheaper way to get around.
