Here Comes Kelly’s Heroes

By Michael Kurilla

Sad can say dear reader, semitech will not be showing films this week. It will turn next week, however, with night of Orson Welles, including one of the most famous American films, Citizen Kane.

This week ASCIT is presenting Kelly’s Heroes. This film brings together some of the regulars of in and television. In the cast you people like Clint Eastwood, Kahl Sutherland, Telly Savalas, Irrel O’Conner, and Don Kikles. From the cast, it sounds like a comedy, but from the plot... one is sure. There’s a war going on and they go on and they all train in the Germans have stored Kik in a town. They are told to steal the gold from the town and the fun just starts.

Sutherland plays a hippie tank per, O’Connor is a general, and Kikles is a black marketeer, obviously, the action is complicated. The comedy is a mixture of Roger Green of a New York Times says, detailed and impressive in its unhurried way. If you participate in ‘big hit’ films and also to off-the-wall comedies, in this is just the film for you.

Lions Beat Christians

Tech has won two out of three games this week in baseball. We split a doubleheader against Stanford, Saturday. Then, on Tuesday, we laughed Pacific Christian four runs to one to win.

In the Ponoma doubleheader, Tech lost the first game nine to five. Then, Tech hit it very well, with Fred Kriss hitting a .400 foot shot into the fence, but Guiterres was the leading scorer, hitting five runs in with a double and a triple.

Caltech, however, won the second game 10 to nothing. Neither team hit well. All the Tech scoring took place when the Orona pitcher walked the men with the bases loaded. Doug Roundtree pitched sharply, allowing only two and one and a half. Rich Gayle picked off a runner attempting to steal third, but he was ruled out.

Hockey Wins Again

By Grant T. Yew

The reputation of the Caltech hockey team is beginning to spread. Inquiries from aspiring high school players have been flooding in, predominantly from the Boston and Chicago areas. These young athletes are seeking a chance at the next tryouts and hoping for that most coveted of all earthly awards, a Caltech sports scholarship.

As the word of the Beavers’ accomplishments spreads like wildfire across the nation, here in L.A. the team is increasingly intimidating its rivals. Last Sunday Occidental sent only two players to meet the Caltech skaters. Once seeing the Tech

Kaplan to Discuss Middle East

The Middle East from Within,” a lecture by Dr. Abraham Kaplan, professor of philosophy at Hafsa University, Israel, who is currently Mellon Visiting Professor of Philosophy at Caltech, will be given Tuesday, March 2, at 8 p.m. in Kano Auditorium on the Caltech campus. This program, sponsored by the Caltech Y, is free and open to the public.

Kaplan will present a view of the problems of Israel and its Arab neighbors from the perspective of an American who has lived in Israel and holds dual citizenship in the two countries. Born in Odessa, USSR, in 1918, Kaplan came to this country when he was five and became a citizen at 12. He attended the College of St. Thomas, Minnesota, where he majored in chemistry. He earned his PhD at UCLA in philosophy in 1946. He taught at American universities for 26 years before accepting his present position in Haifa in 1972.

A longtime advocate of Zionism, Kaplan teaches social, political, and religious philosophy, and in the past ten years has been a leader in humanistic psychology educational programs.

Kaplan will teach at Caltech until March, when he will become resident scholar at the American University in Jerusalem. He is author of major works on American Studies at USC for the spring term. Before returning to Hafsa in September, Kaplan will be one of the invited speakers at the World Congress on Gerontology at its August meeting in New York City.

Othello Comes to Beckman

The New York based National Shakespeare Company’s production of Othello will be presented in Caltech’s Beckman Auditorium, for one performance only, on Saturday, February 25, at 8 p.m.

Othello, The Moor of Venice, is one of the four great tragedies written in what literary historians call Shakespeare’s period of despair. The story centers around Iago’s plot to destroy the Moor’s love for his Caucasian wife, Desdemona. Iago is passed over for promotion, and succeeds in convincing Othello that his wife has been unfaithful. On February 26 at 4 p.m. the program will consist of Mozart’s Quartet in F flat major, K. 458; The Hunt by Mozart, Quartet, by Lutoslawski, and Beethoven’s “Razumovsky” Quartet in C major, Opus 59, No. 3. For information call 793-4095.

Maffitt and Davies are back from their many tours with Glen Yarbrough and working on their own as odd-links, and are again headlining at the Lee House in Pasadena. The duo plays piano and guitar—but only for a week before they hit the road again. Very acceptable jazz vocals and witty wittv complement their finely coordinated stringed arrangements. Also enjoying a break are Alec and singer-comedian Eddy Kay-Round this week’s headline act. Call 681-9942 for reservations—a must.

And Other Security Stories

Techers Catch Calculator Thief

By Joel Rubinstein

Two observant techers recently helped apprehend a thief peddling stolen calculators. Alan Loh and Larry Seiler became suspicious of a man trying to sell two calculators on campus. They contacted the Security office, which in turn called the Pasadena Police. When the police came, the chief confessed having taken six calculators from the Pasadena office of the U.S. Forest Service, where he used to work. It was only through the presence of mind of those students that this theft was apprehended.

Lee Chapman, Manager of the Security Office, wants to make students more aware of the presence of Security. He suggests that student’s recognize illegal activities when they’re suspicious of a crime (XI701). Security will be more effective in controlling crime if it has student cooperation. This includes reporting illegal activities, protecting valuable property, and being watchful for suspicious persons.

Locking things up is a good idea in any case. Bicycle thefts run about one to three per month, many of which go unreported. Car thefts average about four years. Very little precautions can greatly reduce the risks of theft. Mr. Chapman recommends locking your car.

Parking

Parking on the Olive Walk has been a hot issue lately. Security has been the target of some criticism for putting up barriers blocking Olive Walk traffic. However, Lee Maffitt sees his office as merely reflecting the wishes of faculty as well as students. He said that the only way to solve this problem is to get the students to vote on the parking, both last year, and also after the beautification and new grass. Security preparations in the spring. The current policy is to have a 30-minute parking rule. However, Mr. Chapman said that he didn’t want to do that. Those who violate the rules will get their cars ticketed. He points out that the University has a policy of confiscating master keys when students are caught using them to get into places they do not belong. There is no need for master keys because Security will always have a personnel on campus as a good reason. If you have a master key, then at least to be careful about it, and to not be bound by the honor system, i.e., non-techers.

In case, now you lend it to somebody, if you let into buildings by Security, so there is no point in taking unnecessary risks and lending master keys.

S o m e o t h e r 

Some other empty opportunities exist for students in Security. Security may hire some students as assistants to security officers to work evenings or weekends, interested, call ext. 1701 or visit Security at 367 S. Holliston.

The
Bring Back Exchange Dances

In past years, the Masters Office had sponsored frequent exchanges (dances, of course) with Scripts College (an all-female Claremont College). These exchanges were discontinued a few years ago (I'm not sure exactly when), and the pretext that since Caltech is coed, they are no longer necessary. Before you all jump on me for bringing down Tech women, let me say that my only complaint about them is their number.

These exchanges were, by most accounts, a big success. They were popular with both Techers and Scriptsies.

The exchange program should be restarted. They were an excellent idea then and they still are. They did, and would do wonders for Caltech social life (not almost dead).

The exchanges used to be run by the Masters Office. They received money for them from many sources. They are no longer getting any money for this. The sources that used to fund these dances should start funding them again.

Supposedly, these sources included the student housing and the alumni association. They should start funding them again. Failing that, the institute should start funding it. It wouldn't even cost much money. $10,000 would be enough to fund the dances for the whole year. Anyways, it is time that the institute took an interest in their undergraduates, and this would be a good (and inexpensive) way for them to show some interest.

In the event Caltech is too cheap to fund this vital program, the houses should start something like this on their own. True, they could not afford quite such a big program. But, monthly exchange dances should be well within all the house budgets, and would do wonders for their social programs.

Health Center Schedule

The little red carries a fairly walk-in clinic: 2:30–3:30 up-to-date description of the appointments. Health Center services. A Monday and Thursday: reminder of the clinic hours Surgery and sports physicals, follows: M o n d a y s – 11:30–12:30 2:30–3:30: appointment. If the Health Center is closed, appointments–women, students, a Health Center physician may only 1:30–3:30 walk-in clinic. be contacted through the Tuesdays–Fridays: 1:30–2:30 answering service at 796–0101.

Pierce College to Take on Bucksters

Continued from Page One

For those of you who have lots of bright ideas, here is your chance to do something useful.

The Tournament of Roses Association is looking for ideas for the theme of the 1979 Rose Parade, being staged in Pasadena on January 1. The way the theme is picked is as follows: people send in suggestions on postcards, and the president of the Tournament of Roses Association selects and announces the theme that sounds like the best idea for a Rose Parade. The author whose suggestion is picked gets to attend the Tournament of Roses, the Distinguished Guest Luncheon, and the Rose Bowl Game, all as a guest of the Tournament. Just write your suggested theme on a postcard and mail it to the Pasadena Tournament of Roses Association, 391 South Orange Grove Boulevard, Pasadena, California 91105. Entries must be postmarked on or before February 23. Ideas are limited to one per postcard and letters are not accepted. Arthur D. Walsh, president of the Association, says “Send as many cards as you wish, remember that it takes only one to win.” During the past three years, the.Tournament of Roses submitted only a single suggestion.

And anyway, it’s about a good chance as any of seeing the Rose Bowl game in...

All The News That Fits

Update Yourself
Next Wednesday, March 1 at 2 p.m., Dr. John D. Roberts, professor of Chemistry, will give a noon discussion presentation on "An Application of Nuclear Magnetic Resonance to Bio-Organic Chemistry." The Tech Y is sponsoring the event and encourages you to bring your lunch and enjoy this lecture with a visiting professor.

Renaisance Music
Anyone interested in playing medieval and renaissance music, please contact Janet Rice, ext 2188, or Vicki Edwards, Blacker 56, (449-8344). We are organizing a Promusica and need interested players and instruments.

More Vegetables
The Caltech Produce Co-op seeks new members. We buy fresh fruits and vegetables weekly at wholesale prices. We also carry nuts, cheese, whole grains and other natural foods. Membership is open to anyone. For further information contact Joel Rubenstein, 795-8983 (before 1 p.m. or from 5 p.m. to midnight).

Israeli Film
The Caltech Hillel is presenting the Israeli film Three Days and a Child in Winnett Lounge at 7:30 p.m. on March 2nd. Admission free. All are welcome.

The film, 95 minutes long, Hebrew with English subtitles, is about a student, Eli, who is still obsessed with Noa, the girl he loved years ago. Now living in Jerusalem with his girlfriend Yael, his routing is disrupted one day by a call from Noa, who is now married to someone else. It seems that she wants Eli to look after her child for several days to give Noa and her husband time to prepare for the university entrance exams. Grateful for the chance to even see her again, Eli agrees, and this is the story of those three days with the son of the woman he loves. Oded Kotler took first prize at Cannes for his portrayal of Eli.

Getting around town shouldn't cost a fortune. We have an answer for you. It's called the RTD Student Pass. For only $12 a month, you can ride anywhere in Los Angeles County, not just to school and back. Use it weekdays and weekends, day and night. Use it for recreation and sightseeing. If you're a full-time student taking 8 semester hours or equivalent, you qualify for the Pass to make RTD your supersize economy car. Student Pass applications are available at most campus business offices or student unions. Once you get your annual student pass, you purchase a stamp each month for $12. Monthly stamps go on sale the 25th of each month and are available until the 10th of the month for which they are valid. Use your RTD Student Pass to take you anywhere in Los Angeles County, not just to school and back. If you don't have to go far to find it, it's really a good way to get around.

Discussion Group
The Women's Discussion Group will meet in Winnett Lounge from 4-5:30 pm on Thursday, March 2nd. These discussions are open to all women students. The primary purpose of these meetings is to provide an opportunity to meet and talk with other women in a small informal setting. Further information may be obtained from Barbara Fass or Bev Pray at the Young Health Center, ext.2394.
ADVERTISING WANTED IMMEDIATELY. Work at home—no experience necessary—excellent pay. Write American Service, 8350 Park Lane, Suite 269, Dallas, TX 75231.

EUROPE, small student groups, flexible travel arrangements under $1000. I.C.A., 1171 Sharples St., La Habra, CA, 90631.

WANTED: USED BICYCLE. Unfortunately, the imminent death of my roommate, James R. Heckman, (caused: handlebars pushed up nose), prevents me from including him in trade as previously advertised. Am willing to include his personal effects (especially the two wind-up alarm clocks and the electric blanket) in any deal. Contact Mark J. Rosker, the 16-A Ricketts House single, 449-9414.

Note: the interest in a used bike is legitimate even if my late roommate was not.
