EPC Adopts
New TQFR Format
By Spencer Klein
At the Educational Policies Committee meeting Monday, the new TQFR format was the most discussed. Current plans are to issue several forms, each for a different type of class: i.e., lecture, seminar, lab, recitation, and pure lecture.

The lab questionnaire would ask questions such as workload, relevance of experiments, adequacy of lab notes, how available the equipment is, the instructors enthusiasm, etc.

Many questions would be common to all questionnaires. These would be: hours per week spent on the class, and grade, class attendance, one that would be to see who takes what classes, and how well they do in it. Whether or not the class was taken to fulfill a requirement would also asked. Jeff Copeland, the Academic Affairs, and committee advisor, would also like to get full summaries from the registrar's office, to prepare the average grades given with the range for each class. The QFR form, to get an idea of how to fill in forms.
Y Xerox Mauling, Again & Again

For not the first time, the Xerox machine in Winnie Center has been damaged. This most recent altercation resulted in the copy cover being torn off. The Caltech Y has been suspended and is charged by Xerox Corporation for all repairs of damage caused by inappropriate use.

On March 17, the main tray handle was broken. On February 5, it was broken again and the sides panels were torn off. In January, the locked front panel was broken.

Two Techers Receive Prizes

Two Caltech juniors, chemical engineering major Corin A. Hunter and science-engineering major Jack W. Kohn, have been awarded Achievement awards in the Consulting Engineers Association of California scholarship competition. Corin received $250 (the press release which said she received $250). Jack was not available for comment, but his press release also said $250.

They were among seven winners from the field of 115 competitors, from 15 colleges. They won, according to the press release, awards ranging from $250 to $1,000. The $1,000 first place award went to Alfredo F. Aygunan, a Loyola-Marymount sophomore.

Judging was based on GPA, class ranking, community activity, engineering work experience, personal evaluations, and an essay entitled, "Why I am interested in becoming a Consulting Engineer." All the winners had GPA's of 3.5 or better, with Corin A. Hunter ranking straight A, and all were in the top 10% of their classes.

Schwartz Wins Guggenheim Award

Dr. John H. Schwartz, a Research Associate in Theoretical Physics, has been awarded a Guggenheim Fellowship. He was one of 292 recipients chosen from among 1,073 applicants throughout the country. He will share a total of $4,569,500 in awards.

The recipients were chosen on the basis of demonstrated accomplishment and strong promise for the future. This was the fiftieth annual competition for these awards.

Letter to the Editor

Caltech Musical

To the Editors:

The recent confusion about the identity of the Caltech Musical, the 95th last week, was once again unnecessary. As the ASCIT Musical, ASCIT has not run on a monetary for two years. The Alumni Association, the FCOP and the Dean's Office each contributed more than this year's share of $500, and the GSC, Service League, and Robert's Office also contributed smaller amounts. Proper credit should be given to these organizations, which is why the staff decided to call the show the Caltech Musical.

Pamela Crane
Producer

(Actually, while it's true that the proceeds were not primarily funded by ASCIT, it was very much ASCIT that made the whole thing possible and least likely. Back in the days when persons were persons and lights were the earth, ASCIT turned an annual Talent Show into an original musical, "A Game of Chance Played in the Right," that was followed by another, and again original production the next year, in that time, that dance and music on campus separated into the Glee Club and the orchestra, so far as productions go. ASCIT helped organize and finance the musicals through a lot of troubles. So while the current incarnation of the Office also contributed an ASCIT production, please do not be too hard on them. Or us. ed.)

Golf Beats Occidental

By M. Eric Kiddie

Inspired by the obvious advantage at plush Annandale Country Club, the match improved the whole thing twenty-fold.

The second victory of the season didn't come easy for the Techers' Bob Chinn and Nelson Goldberg, whose opponent never points out of a possible eighteen, against stiff competition, leaving the Beavers with the hands of their teammates.

A valuable contribution was made by the freshman duo of Terry Thomason and J. J. Sidowich, who accounted for twelve big points.

The Beavers weren't out of trouble, however, until the back nine. When Charlie Curatolo and Andy Falls made their move.

When approached in the clubhouse afterward, Curatolo recalled the turning point of the match.

"It had to be the Par 5 Thirteenth. After letting two birdies get away on Eleven and Twelve, it finally came together when I rammed in a multibearing 15-foot winner."

Falls, whose opponent never really recovered from an earlier axe-haying eleven, complemented Curatolo's victory with several winners of his own.

The door slammed on the frustrated Oxy pair with Curatolo and Falls capturing fourteen points.

Local oddsmakers favor the Techers squad seven to five in next Monday's match with La Verne.

Motivating the team is coach Hal Curatolo's promise of a steak dinner for three season victories.

Health Center

Griffith Park Ride
Caltech Cycling Club is sponsoring a ride to Griffith Park. Wednesday, April 20, at 9:30 am. This is open to the Caltech community. Refreshments will be provided at Griffith Park. If you wish to come on the ride, please call Pat Haber (x2172) or Dave Swerison (x3175) and let them know. Information about the cycle workshop is also available.

Drum Majors: An evening of contemporary jazz is sponsored by the Caltech Y. This panel will consist of Professors Horowitz, Mcaulay, Myers, Segal, and Yin of the Departments of History, Chemistry, Biology, Physics, and Mathematics. The colloquium will focus on the sciences for young women and on the attitudes of, and toward, young women who are entering the sciences.

Outdoor Jazz: The Caltech Dixieland Band will be playing on the Quad from noon until one today, in a Noon Concert sponsored by the Caltech Y.

Home for a Day: If any student wishes to be in a private home for the first night of Seder, call Dorene Lefrere at 799-4450.

The Caltech Mixed Fourtime Bowling League is starting up for the season. Sign up by March 20, at 4:30 pm in the Morrison Reception Lounge, Occidental College. There will be a Lantern Light Dinner and a talk by Mr. Wilcox, 792-6634.

The Goldn Beer of Danish Kings.

CCSA Holds Soccer Tourney

In the midst of the rainy season, last Sunday happened to be a clear and sunny day when the Caltech Chinese Student Association (CCSA) held an intercollegiate soccer tournament at home. There were seven-man teams from UCLA, USC, CSLA, UCI, FCC and Caltech.

Being the sponsors of the tournament, the Tchers were very enthusiastic and had numerous practices. The Caltech team consisted of varsity players: Kwok Tung, Ed Chen, Stanley Chen, Paul Yu, Jinuny Wang; soccer studs David Wong (Sr.), L. H. Kwai (Grd) and other substitutes. The CCSA team started out strong, slaughtered UCLA 3–0 and hung on to tie CSLA 2–2. But the team lost to the strong PCC team 0–1 in the final championship game. The results of the tournament were: PCC took first, Caltech was second, USC was third, and in descending order were UCLA, UCI and CSLA.

A side feature of the tournament was that CSLA forfeited their last game and left for the championship game of the tournament were: UCLA, USC, CSLA, UCI, Caltech and Stanford.

There were seven-man teams from UCLA, USC, CSLA, UCI, FCC and Caltech. The CCSA team started out strong, slaughtered UCLA 3–0 and hung on to tie CSLA 2–2. But the team lost to the strong PCC team 0–1 in the final championship game. The results of the tournament were: PCC took first, Caltech was second, USC was third, and in descending order were UCLA, UCI and CSLA.

The award ceremony was conducted by Professor Yik Long Yang of Geology and Planetary Sciences.

**Juniors!!**

Need a summer job? Why work?

If you are a junior majoring in math, physics, or engineering, the Navy has a program you should know about.

It is called the Nuclear Propulsion Officer Candidate-Collegiate Program (NUPOC-C) and if you qualify, you can earn as much as $650 a month right through your senior year.

If selected, you have qualified for an elite engineering training program which will lead to unique hands-on qualification for jobs in private industry should you decide to leave the Navy later.

For more information, call (collect station-to-station) Lt. Tim Norrom at (213) 468-3321 or send your resume to Naval Officer Programs, 4727 Wilshire Blvd., Los Angeles, CA 90010.
