Tech Runners Win Big

by Thor Fest

Caltech’s cross-country team swept a four-way meet Saturday at Cal State Dominguez Hills, beating Biola 26-31 and clobbering L.A. Baptist and Cal State. Sophomore Glen George paced the Beavers, coming in second at 27:55. Then were Senior Rob Bouret, third at 27:57, Sophomore Rich Holmes, fifth at 28:55, Junior Bill Gould, sixth at 29:09, and Sophomore Erik Knowles, seventh at 30:45. This brings Tech’s record up to 5-2.

The course at Dominguez Hills was miles long and moderately hilly. Fast times were expected, but the hot sun made everyone down by more than a minute or two. George raced the entire race hard on the heels of Biola’s Willscots. Bouret was in third for almost the whole race, while Holmes and Gould started fast and passed runner after runner during the tough second and third miles to round out a nearly solid pack of Tech runners. Though feeling the heat, Kouvaar hung on to finish ahead everyone down by more than a minute and a half. It is of trained counselors.

The 1978 Frosh Camp occurred as usual. The frosh got oriented, the upperclassmen got blitzed, the faculty got soaked, the words got stepped on, the undergraduates got a standing ovation, Harry got applauded, and Merf got oceanted. The Talent Show was interesting.

Frosh Camp

by John Avery

Send a kid to Camp Fox. While it may not prepare him for survival in the woods, it will prepare him for arrival in the awesome wilderness of Caltech life. From the very beginning of his stay here, your kid will be exposed to the collected wisdom (T) of trained counselors. Faculty, staff, upperclassmen, all speakers at our many and varied assemblies receive their authority from the same source: the experience of having lived, studied, or worked at Caltech. Whether straight facts or just plain common sense, the words of the assembly speakers are intended to help smooth the transition to Caltech from the ”outside world.” Dealing with such subjects as Student Life, Rotation, extra-curricular activities, and the Honor System, their message is serious, their delivery is entertaining. Entertainment, advice, and plenty of time for meeting one’s fellow freshman in a casual atmosphere, all this is provided at Camp Fox for the benefit of our clients. And the message is clear—just try. Camp Fox needn’t end upon leaving Catalina.

Tech Undergrads Involved

New & Improved Asteroid Found

A Caltech astronomer has discovered an extraordinary near-earth asteroid—approx. 1.19 astronomical units in diameter, about 18 million miles from earth.

The asteroid, discovered by John Avery, was named the asteroid after an Egyptian solar deity. "Ra-Shalom" is the asteroid after an Egyptian solar deity.

The asteroid was discovered by John Avery, was named the asteroid after an Egyptian solar deity. Ra-Shalom is a near-earth asteroid under a grant from NASA’s Planetary Geology program, including the latest find, they have thus far discovered five earth-crossing asteroids, one “Aten-type” asteroid, whose orbit approaches but does not cross that of earth, and seven Mars-crossing asteroids, Another Caltech astronomer, Charles Kowal, has five earth-crossing asteroid discoveries to his credit. A total of 26 earth-crossing asteroids, more than half of which have been found at Palomar Mountain, and 21 Amor asteroids are now known.

The most recent asteroid discovered by Shoemaker and Helen was 1977 WQ, which is known as one of the near-earth asteroids under a grant from NASA’s Planetary Geology program, including the latest find, they have thus far discovered five earth-crossing asteroids, one “Aten-type” asteroid, whose orbit approaches but does not cross that of earth, and seven Mars-crossing asteroids, Another Caltech astronomer, Charles Kowal, has five earth-crossing asteroid discoveries to his credit. Use Some Money?
Scholarships are available to graduating seniors and undergraduate students of Hispanic American background through the National Hispanic Scholarship Fund. Applicants must have completed at least two quarters or one semester of college work prior to the submission of their applications. In addition, applicants must be U.S. citizens and presently enrolled as full-time students. Applications may be submitted between September 1 and October 31. Awards will range from $200 to $600. Applications are available in the Financial Aid Office, 208 Dabney Hall.

Move That Tuba!
This term, a great Caltech tradition will be revived, the Caltech Marching Band. Our first rehearsal will take place Tuesday, October 3rd, from 7:30 to 9:30 p.m. in Beckman basement. Attendance at this rehearsal by all Band members is vital, as our first performance will take place Saturday, October 7th. If you are interested in being a member of this facet of Caltech’s music program, either come to the first rehearsal, or contact Ken Shrum, 240 Ruddock, X2182.

Fresh Lobster!
When the lobster season opens on October 4, the Caltech Kelpers will be ready. At their recent club meeting, they viewed a film on catching the tasty crustaceans.

Selling Textbooks
Selling activities include beach dives October 7, 21 and 29. Divers are to meet at the Caltech gym at 8 am on the day of each dive to choose locations and form our teams.

The Kelpers will set out for San Clements Island on October 8, the first Sunday of the lobster season. Accommodations aboard the Scuba Queen will cost $26 a person.

The featured speaker at the October 5 general meeting will be Manny Parrot, Paradise, San Gabriel. Peters will discuss the setting up and maintaining of an artificial saltwater aquariums. The meeting will begin at 7:30 pm at 256 South Moulld Building, on campus just northeast of California and Wilson.

For more information, call Jim Marr at 794-9008. New divers are welcome at the monthly club meetings.

All The News

Be Secure!
The Campus Security Office would like to remind all students, staff, and faculty to register all vehicles (including motorcycles and bicycles) Pick up your parking decal in the Campus Security Office, room 204 of Beckman Building (South Holliston) between 8:00 a.m. and 10:00 p.m., Monday through Friday.

Update!
Earthquakes, Immunology, Quarks, White Dwarfs, Free Riders, Nomencla, and so forth will appear at 256 Tech, on Tuesday, October 3, beginning at 7:30 p.m.

Dragons Slain,
Lowest Rates...
The Sociological Gamers will be holding gaming sessions in Clubroom 1 of Winnett Center throughout the school year. Various fantasy and science fiction games are the primary events, primarily Dungeons and Dragons and other similar games. Beginners welcome. 7:30 pm both nights.

THE VIEW FROM OUTSIDE

Caltech Committee for Community Involvement
One of Caltech’s main concerns is community involvement. This isolation has two major effects: 1) Techers become unaware of society and their place in society; 2) Techers tend to have a bassey, self-centered attitude. In an attempt to facilitate greater participation of Caltech people in the real world of the local community, city, county, state, nation, and (i.e., the total human community); a new campus-wide organization is being formed called the Caltech Committee for Community Involvement (CCI). Although it is primarily a student group, committee membership is open to faculty, staff, alumni, and the public. The purpose is to seek out and publicize volunteer opportunities for a wide range of community involvement.

Book Exchange
Tired of old textbooks lying around? Want to make some money off those old books? Come to the Caltech Y and sell them. The Caltech Y has a book exchange open to all students. If you have any used text books or literary books you would like to sell, bring them in. You decide on a price, and when the book is sold, you receive the money.

Need Work?
Lithium for on and off-campus jobs as well as Campus Work-Study jobs are available in the Placement Office, Room 8, Dabney Hall. Stop by and take a look!

Need Summer Work?
Juniors and up in Material Science and Chemistry are invited to submit resumes for Summer employment at 3 M Company, St. Paul Minnesota. Students will be housed in the Placement Office no later than November 2, 1978. The Company can assist you if you need help in writing your resume. The Office is located on the first floor of Dabney Hall, Room 8.

That CCu! is to act as a switchboard operator between Techers and the outside world. The Committee will maintain a file on political issues although it may publicize information concerning political issues indirectly. Individual Committee members may express their opinions, but their opinions will be independent of the CCCI.

Thus, the CCCI is to act as a switchboard operator between Techers and the outside world. The Committee will maintain a file on political issues although it may publicize information concerning political issues indirectly. Individual Committee members may express their opinions, but their opinions will be independent of the CCCI.

An organizational meeting will be held on Tuesday, October 3, at 7:30 pm in the Y Lounge on the second floor in the Winnett Student Center. The nature of the Committee will be discussed in greater detail. I encourage anyone to come who is bored with Caltech society and wants to do something other than Caltech, yet doesn’t have the time and energy to search for it on his or her own initiative. Also, those who want to form activities should join, I’m all excited about CCCI, aren’t you?

NOTE: There was an error in my last week’s article. The fifth paragraph should read: I believe an integrated and complete community depends on Techers and the outside world.

‘ROID from Page 1
the two best candidates to date for the Russian exploratory mission. The asteroid, discovered last November, measures an orbit outside that of earth and at such a low angle of inclination that relatively little energy would be required to boost a space probe from the earth’s orbit to the asteroid’s.

The discovery of Ra-Shalom provides further evidence, said Helin, that there is probably a sizable population of near-earth asteroids, some of which might in the future be practical sources of materials for construction of solar power stations or other structures in space. It also indicates that a previously unsuspected class of asteroids may exist whose orbits are entirely inside that of earth.

Sing a Song of Gilbert & Sullivan

The Ambassador "POPS" continues with "The World of Gilbert and Sullivan," a potpourri of favorite arias, songs and patter from the great Savoy Operas, on Monday evening, October 9 at 8:30 pm at Ambassador Auditorium in Pasadena. The incomparable style of the D'Oyly Carte company is present in the exceptional performances of former leading members, Thomas Round, tenor, and Donald Adams, bass, in company with Evette Davis, soprano, and Anna Cooper, contralto and baritone John Carter. The program runs the gamut of the Gilbert and Sullivan repertoire and includes selections from such favorites as H.M.S. Pinafore, Patience, Iolanthe, as well as the more rarely performed Ruddigore, Princess Ida, The Yeoman of the Guard, The Gondoliers and The Sorcerer. Ian Kennedy is the Accompanist and Musical Director.

Ticket prices are $9.50, $8.50 and $7.50. The box office and Phone Charge (577-5511), are open Monday through Friday, 9 am to 5 pm; Sunday, noon to 5 pm.

BOOKS CAN BE YOUR
BEST FRIEND!

....NOT YOUR ENEMY....

DO YOU HAVE ENOUGH STUDY TIME? Are your grades dropping out of sight? Are you bored with reading? Do you day-dream more than you study? Or does it just take you too long to get through a page of print? - We can help you.

We are RAPID, READING & RETENTION, a professional speed reading company that has designed reading improvement programs for major corporations and universities for years. If you have any of the problems mentioned above; if you would just like to cut down your study time, we have a program that will work.

IT'S NO JOKE! The system really works! Speed reading is a physical skill that can be learned in a few weeks and used for the rest of your life. We do not promise you the Guinness Book of Records, but you can and will read 3 to 6 times faster — with better comprehension and retention!

TAKE A FREE LOOK! We are offering free presentations, right on campus, to acquaint you with our techniques and the program. No hassles, no hard-sell. You owe it to yourself to evaluate our program and decide.

ATTEND A FREE RAPID, READING DEMONSTRATION AND FIND OUT MORE

WHEN: Monday, Tuesday, Wednesday, Thursday
Oct. 2 Oct. 3 Oct. 4 Oct. 5

WHERE: Winnett Student Center
-Club Room 1-

TIMES: 7pm and 8pm
Evenings Only

A SPECIAL, STUDENT FEE BEING OFFERED!

RAPID READING & RETENTION
Professional Reading Techniques
Your Choice.

If you find yourself falling asleep when you are reading...
If you have poor comprehension because you daydream while you read...
If you can’t concentrate on the material you are reading...
If you can’t keep up with your assignments because you read too slowly...
If you can’t remember names, faces, numbers, appointments, etc.

Then you should plan to look into the famous Effective Reading Systems, Inc. Program. We can help you, as we have helped poor readers across the country, to read 3-10 times faster and with an average 14% increase in comprehension! Not only that, but Effective Reading Systems, Inc. is the only known speed reading school to include memory skills which will teach you to easily and rapidly memorize names, dates, faces, lists, digits, etc. (TRIAD LEARNING PROGRAM). We’re also the only known speed reading school to teach our students vocabulary, spelling, grammar and composition skills to complement their speed reading, comprehension, concentration and recall skills.

GUARANTEE:
Effective Reading Systems, Inc. guarantees to each student that he or she must at least triple their reading efficiency (reading efficiency is a combination of speed and comprehension, not just speed) or they will receive a full tuition refund.

The Caltech Beavers vs.

A Hewlett-Packard calculator this school year? Wish I could afford one.

 Been wanting an HP calculator for back-to-school? Here’s your chance. The new HP line of sophisticated calculators is more powerful than ever, but much less costly.

And if you buy your new HP calculator at Olympic Sales you’ll get double savings. Since we deal in volume, we will beat any other quoted price you can find as long as our competitor has the merchandise on hand for immediate delivery. As one of the world’s largest calculator distributors, we have a huge inventory of HP units, demonstrators for you to try out and the lowest prices anywhere. So before you give up on your HP calculator, call up or stop in at Olympic Sales.

Memorial Service

David Dewey, BS '77, was killed from a fall in Eaton Canyon. His body was found on Tuesday, Sept. 19. A memorial service will be held at Lake Avenue Congregational Church (393 N. Lake, 795-7227) on Sunday afternoon, October 1, at 3 pm.

The Truth Shall Make You...

New Institute President Marvin L. Goldberger will be in Winnett Lounge on Tuesday, October 3 at noon for an open discussion. Bring your lunch and your questions.

Down the Drain!

The annual Water Pollution Control Federation Conference from October 1–6 is in Anaheim this year. Conference registration is at the Anaheim Convention Center. During the conference, there will be an informal student luncheon planned for Wednesday, October 4, to give students an opportunity to discuss general employment prospects in water pollution control with representatives of firms and agencies in this field. Details will be available at the Anaheim Convention Center, Conference registration desk.

Post!

The belly dancers are here in the Quad today at noon. Pass it on.

Tee Kew What?

Copies of the '77-'78 Teaching Quality Feedback Report are available in the Dean's Office. (Faculty members should be getting theirs in the mail.)

Show It!

You, too, can be a projectionist for the ASCIT Movie. In addition to cash benefits, there is on-the-job training and instantaneous feedback on sub-standard performance. For more information contact Jimmy at X2171.

REQUIRED READING FOR SCIENCE, ENGINEERING AND BUSINESS.

HANDHELD CALCULATORS: WHAT YOU SHOULD KNOW BEFORE YOU BUY.

Your college work habits will surely influence your professional work habits. If you’re in science, engineering or business, a handheld calculator will be an essential element in molding those habits. That’s why it’s so important to make the correct choice of a calculator now.

Which is why we prepared a brochure entitled, “The Student’s Choice…The Professional’s Choice…The Logical Choice.” In it, you’ll read about everything you should consider before buying your college calculator. Things like calculator construction, ease-of-use, logic systems and more. Pick up a free copy at your bookstore or nearest Hewlett-Packard dealer. For the address, CALL TOLL-FREE 800-648-4711 except from Hawaii or Alaska. In Nevada call 800-992-5710. And do it soon. Because we think buying a calculator should be one of your most carefully calculated decisions.

BIG T from Page 1

Essentially, the problem centers around gross publishing errors and overall amateurish production on the volumes we have received. In addition, it appears that Walsworth has, without our permission, edited the actual text of the book. An action which is (to the best of our knowledge) expressly forbidden by our contract.

The BOD meeting will be held this Monday night at 10:30 in the Y Lounge. Students are invited to attend. A Big T and the corresponding originals will be made available there.
