New Health Policy for Techers

by Huy Cao

The Millikan elevators have always been a sticking point for students, but lately they've been even slower than usual. During the last two weeks, I've noticed a very noticeable difference. The elevators have been turned off each day to be repaired, but it isn't just that. Only one is available for use.

The specific problems that people have been experiencing are: 1) the first floor, the elevator door closes but doesn't go up, and 2) the elevator begins to go up, but doesn't make it, either stopping effectively at the tenth week with only half a house.
Food Is Good

To the Editors:

A few weeks ago a letter appeared in The Tech concerning Gary Hindooyan and the food service he provides Caltech. My intent is not to confirm or dispute the allegations made in that letter. I am not in a position to do so. However, as a Rickets House wailer I believe that I can offer reliable information concerning Gary's food service as far as the south houses are concerned.

Gary has been providing food to the students for four terms now. In this time Gary has done nearly everything he can to provide the best possible food and service to the students. He has listened to student recommendations and acted on them to the point that the menu is essentially student designed. The food quality has improved from last year and, in the words of one blacker senior, is much better than Servomation. I took the steaks for Rickets and can attest to their superior quality. Please understand that I agree there is better food. My grandmother cooks better food. I have eaten in restaurants where the food was excellent. But my grandmother cooks better food.

As far as the way Gary treats complaints. He is very receptive to complaints. He answered every complaint about the situation when told numerous times about it. When asked about it, the only answer given was that Mr. Hindooyan was separate from Caltech. Considering that the contract for Chandler is given out by Caltech, I find that hard to believe. Mr. Hindooyan took over, there was a contract in force that stated that all employees of Chandler were to have approximately the same benefits as before.

All of the employees were in fear of losing their jobs if they complained. Some of us did call Mrs. Carlton and Mr. Minges and complained to no avail. I would hope that Caltech would clear up these matters and do the just and right thing for all concerned.

Sincerely,
Darla Lena

Meet the Tech's New Bosses

by Peter Alfke and Josh Kurutz

As of this very issue you now hold in your hands, the Tech is under new management. While we are still the official elected Editors in Chief (hereafter), we are handing over the controls of the immensely powerful, precision-tuned machine that is the California Tech to a new team of apprentice editors whose names you may read in the staffbox (or at the bashhead)?

Why did we do this? Well, we cheerfully and guiltlessly admit to being busy, in need of time in order to work on classes (past and present) besides PA 15, and just plain burnt out on the job. It's been fun, and it's been real, and the rewards have been great (not that the salary couldn't be raised), but the Editorship has got to be the most continuously stressful undertaking we've ever had the chance to undertake.

But above and beyond that, this change of the guard enables us to make sure that a working and competent team will be around to run for future elections. Because we're not going to run.

As a former employee of Chandler, I would like to comment on this recent letter you published on "Food Abuse." Every one of the statements made is absolutely true. My only complaint about this situation was that nothing was done about it or is being done.

It is hard to believe that Mr. Jim Minges or Mrs. Nancy Carlton did not do anything about this situation when told numerous times about it. When asked about it, the only answer given was that Mr. Hindooyan was separate from Caltech. Considering that the contract for Chandler is given out by Caltech, I find that hard to believe.

Mr. Hindooyan took over, there was a contract in force that stated that all employees of Chandler were to have approximately the same benefits as before. Now, the answer given was that "minor benefits" were ever carried out.

All of the employees were in fear of losing their jobs if they complained. Some of us did call Mrs. Carlton and Mr. Minges and complained to no avail. I would hope that Caltech would clear up these matters and do the just and right thing for all concerned.

Sincerely,

The California Tech

MISS MARY
The job of being the ASCIT president is a challenging one and should not be taken too lightly. Over the last two years I have served as the ASCIT treasuerer and have been a member of the student body, and have helped to run the duties that the president has. This time has also given me valuable leadership experience in dealing with students and administration. These years have also made it evident that a goal of some kind will make ASCIT much more producive. My goal as ASCIT President would be to unify the campus to a greater extent than it currently is.

The experience factor should be one of the major concerns in electing the president. I think that the two years spent as ASCIT treasurer have given me a great deal of experience. During the last year especially, my job has entailed much contact with the Deans and also with the Vice-President for Student Affairs, Hal Jackman. This contact will make it much easier for me to accomplish tasks as I will already be familiar with terms "learning the ropes." A candidate without this experience would also be a hindrance when trying to know how the system works before they could really make use of the system.

As I previously stated, my goal as ASCIT President would be to increase the unity of the undergraduates here at Caltech. I believe that there are many ways this can be done.

One way is to have more informal social events. A house affiliation does not determine team assignment.

It might also be possible to gain more of a school spirit by enlivening intercollegiate athletics. We would try to have more games where food or drinks would be provided. We would also like to emphasize smaller parties instead of seven-house parties so that we could actually inform the student body. These are only a few of my plans for the next year.

I would ask you to consider your vote carefully. Do you want a vote for someone who has no goal and/or no experience or for someone who has already shown his commitment for two years and has a plan for the coming year? The choice is yours.

David Bruning

Jeff Tekanic

Hi! I'm Jeff Tekanic and you're not. But, I'll give it a try. As a second and a half year that I have been a student here I have met many others, have come to know this as both a strange and wonderful place. All in all, you have a control over social activities, certain liberties at our social events (i.e., alcohol), and more than adequate housing to cite just a couple examples. While we do have these advantages, it is clear that help to improve upon the quality of student life we have. If you do not know me and are unfamiliar with my past work, please ask a friend or contact me at 1170 E. Del Mar, 739-9489. I would greatly appreciate your support. Thank you and have a pleasant day.

Paul Brewer

As I previously stated, my goal as ASCIT President would be to increase the unity of the undergraduates here at Caltech. I believe this can be done in several ways. One way is to get more undergraduates to get together once or twice a year. Also, I would like to see division meetings in which faculty and undergraduates can get together on a regular basis. In addition, I would like to see more social events for faculty interested in having undergraduates work for them or who want to keep a summary of their ongoing research and possible future projects for the students. These meetings would give everyone a chance to talk and find compatible majors.

Another area of interest for me is the social life on campus. There are many different activities that make up the social life of students. A social event here is the house system severely lacking in the number of people. One remains to be in contact with campus level. Who knows, maybe it is the student faculty level activities and the student body. If this is the case, I would much rather see undergraduates and faculty talking about the issues that affect us all. Also, I would like to see more inter-collegiate activities that we have not reached a utopian state yet. There is always room for improvement and I have some ideas on how to best approach the situation. First, while I appreciate this is a subject that debating-faculty relationships can be improved. I will, of course, work thoroughly with any interested students such as the Student-Faculty Conferences to improve the current situation, but I do not think we need to stop there. We have an outstanding faculty who have, on every occasion, had to work with them, shown a genuine interest in wanting to talk to undergraduates about how to make their courses, counseling, and other activities into useful experiences. I do have enough opportunities to speak with students on more informal, one-on-one basis. Given the chance, I would like to see more student-faculty picnic, cocktail hours, and similar events. All help to make the social life on a day-to-day basis. I want to encourage others to become more "well rounded." Some people may also be prejudiced by the students or faculty. This is a choice to as to whether or not to join a club, but ASCIT is not a place to impose my own beliefs on others. The social activities that are "social" and which are not, and how to do this? Primarily through parties and clubs.

Sponsored social events should be numerous and various. This may mean reducing the number of clubs. A reception afterwards will give everyone involved a chance to talk and find compatible majors.

In the interests of brevity, I will state a few other proposals. 1) I would like to see a "Student Financial Opportunities Handbook" published by ASCIT which would include a comprehensive listing of all scholarships, fellowships, assistantships, etc. This might call for an additional ASCIT officer to assume the duties, but I feel the ends would justify the means. 2) Along these same lines, I would also like to see more opportunities for undergraduates to find more prestigious and better paying summer jobs, or for a summer political internship in Washington currently in the works. In many cases, all we need to do is ask. 3) Having attended ASCIT BOD meetings on a regular basis, I have noticed that many major decisions have been made by a regular meeting. At times, I do not feel any wrong decisions have been made, I know there are many people who feel there have been many good decisions because they have not had the time, patience or good humor to run meetings very efficiently, but still have positive contributions to make to improve the club. Undergraduates do not have to do this job, just all the others. I do not mind making decisions on my own, I would just like to see my proposals in writing and have others in deciding how we should spend ASCIT BOD money. This includes the use of "the California Tech or more committees, I will see that all options are heard.

While I, of course, cannot guarantee all these plans will be met, I do believe that they are necessary. Diversity is strength.}

While I, of course, cannot guarantee all these plans will be met, I do believe that they are necessary. Diversity is strength.
Jeff Larry Flint
The office of ASCIT Treasurer is deserving of an individual with a good sense of responsibility, as well as good organizational skills. Based upon my previous experience, I feel that I have the ability to perform this duty well. In three years of assisting in the manage­ment of a business, I obtained many accounting skills. My sense of commitment is evident in the large amount of time I have invested as a house officer this past year. I would like to employ these skills in a campus-wide office.

My foremost goal as ASCIT Treasurer would be to streamline the budget allocation process. Since last year’s budget meeting, the BOD has begun this task. I hope to have the opportunity to complete this endeavor.

I am very enthusiastic about the possibility of serving as ASCIT Treasurer. Thank you for your support.

Thu Le
My name is Thu Le, and I am running for the office of ASCIT Treasurer. The ASCIT Treasurer has many duties. These include disbursing ASCIT funds, handling ASCIT transactions, keeping ASCIT accounts and participating in the decision-making process of the ASCIT Board of Directors. This office carries numerous responsibilities, and therefore requires a definite commitment to the Caltech community. My commitment to the student body is evidenced in the positions that I have held in the past year. I have been on the social team of Raddock House and the Freshman Admissions Committee. Holding these positions has taught me how to allocate my time well and keep my priorities in order. I will have no difficulty in serving as an ASCIT officer.

Therefore, I believe I am well-qualified for the position of ASCIT Treasurer. I would appreciate your support on election day.

P.S. My signature is too complicated to forge, and that alone is a good reason to elect me.

SWE Scholarship

Women majoring in engineering are eligible to apply for the SWE Scholarship for Women Engineers Scholarship. Applicants must have an overall grade average of 3.5 or better. Scholarship amounts vary from $200 to $500. Application forms are available from the Financial Aid Office, 12-63. Deadline is April 30, 1987.

Money For Women

The College Women's Club of Pasadena is offering a scholarship for female full-time undergraduate and graduate students. Scholarships are for $500 and can be used for tuition, fees, and books. Application forms are available from the Financial Aid Office, 12-63. Applications and required items must be submitted to the Financial Aid Office by February 13.

Soroptimist Fellowship

The Soroptimist International of Los Angeles is offering a $3,000 fellowship to an outstanding woman graduate student for 1987-88. To apply you must be a U.S. citizen and a California resident. Consideration is given to the student's potential contribution to society. If you are interested, contact the Financial Aid Office (12-63) for more information. Deadline is February 15, 1987.

Attention Writers!

The Literature Facultv is proud to announce the 41st Annual McKinley Competition. The Mary and Robert McKinley Prize is awarded each year for excellence in writing. Only students who are currently enrolled at Caltech as undergraduates are eligible to enter. The competition is divided into eight categories: poetry, fiction, non-fiction, and drama. Each submission must be typed and double-spaced. The prize committee reserves the right to not award a prize in any category. All entries must be submitted by April 30, 1987. Each entry may be included in the competition for only one award. Winners will be announced by May 15, 1987. The winner's name will be published in the Caltech Review. Winners will receive a cash prize.

A new National Science Foundation program, titled "Creativity Awards in Graduate Education," is being offered to make graduate study more attractive and to improve the quality of graduate education through the encouragement of creative activities. These new creativity awards will support students based on their ideas as embodied in a plan of research.

Approximately 30 grants per year will be made competitively to graduate students, whether they are still undergraduates or have already graduated in the last three years. Applicants have not done graduate work. Grants will be for up to 12 months, up to $18,000 to support the student's graduate study. The grants will be paid to the student or institution of his choice. The student is responsible for the planning and execution of the research. The student must spend at least 20 hours per week on research and must devote full time for the academic year to the project. The student must also take at least one course per quarter. The program is open to students of any nationality.

Grants of $2,500 will be made to encourage students to pursue the academic year 1987-88. To apply you must be a U.S. citizen. Application forms and information are available from the Financial Aid Office, 12-63. Closing date is February 15, 1987.

Summer School at Weizmann

The Weizmann Institute of Science’s annual 10-day International Summer School is accepting a small number of science students (from second year) from overseas for the summer of 1987 in part for support from the National Science Foundations of the United States. Students will be offered a variety of courses in mathematics, physics, and chemistry. A modest stipend and dormitory-style accommodation near the campus is provided. Application forms may be obtained from the International Relations Office, Weizmann Institute of Science, Rehovot 76100, Israel. Completion of the application should be returned before February 15, 1987.

Naval Scholarship

The American Society of Naval Engineers is offering a $1,750 scholarship for 1987-88. To apply you must be a full-time student in junior or senior year, or a U.S. citizen, interested in a career in Naval Engineering. Application forms and information are available from the Financial Aid Office, 12-63. All application materials should be returned before February 15, 1987.

Engineering Scholarship

Consulting Engineers announces their 1987-88 Engineering Scholarship to outstanding engineering students. To be eligible, a candidate must be a junior or senior as of Fall 1987. The student must have a grade point average of 3.0 or better and must be currently enrolled in engineering. The Scholarship is open to students majoring in any field of engineering. The Scholarship is awarded on the basis of academic achievement, character, leadership qualities, and potential for contributing to the engineering profession.

SAMP Money

The College Women's Club of Pasadena is offering a scholarship for female full-time undergraduate and graduate students studying engineering, business administration, natural resources, and related fields. For the application further information contact the Financial Aid Office, 12-63. Closing date is February 15, 1987.

SPORTS

Hockey Ices Division II Rival

by Jason

The Battlin’ Beavers established their first winning streak of the season with an impressive 5-0 victory over Division II rival Cal State Northridge. Despite the fact that the puck almost never left the Northridge zone during the first period, Caltech was only able to score one goal in the period. That goal was scored by Jim Hutchinson with Mike Freeman and Jim Bower getting credit for assists. Despite almost total domination by Caltech it seemed for a long time that this would be the only score of the game.

The defense got another goal for the Beavers. Dwight Berg raced down the ice to score a break-away goal.

Marty Zimmerman then scored the most unusual goal of the game. He was behind and to the side of the goalie in the rear end but it still bounced into the net.

The big scoring spree came in the latter part of the third period. Jim Toth made an excellent cross-ice pass to Mike Freeman, who raced down the ice to score a break-away goal.

The first three goals came last. Martin Boulleau scored this goal with Lionel Laroche getting the assist.

The skaters’ Beavers return to action against Northridge’s Division I team at 9:45PM next Wednesday. It should be a really severe game since the league recently decreed that inter-divisonal games should be no-check. Come out and watch the game anyway; it will be a home game, so it’s nice and close.

Go Indoors For Kicks

by Konstantin

Techers can now play indoor soccer games just like the LA Lazers. Though they play only on weekday nights (usually dull for techers, anyways) in Mira Lorna, just 50 minutes away, you can play an all-night long game starting between 6:30PM and 10:30PM.

The first game is this Saturday at 10:30. We’re leaving from the Y at 8:30, so we have time to finish registering. Interested? Call captain Konstantin Othmer (x9796) if you want to play. Directions for fans will be posted outside the Yoffice. Fans—leave at 9:30PM.

Meet America’s Top-rated Aerospace Employer.

Talk with our representatives about why in 1985 The Almanac of American Employers rated Lockheed second overall among America’s largest, successful companies. Tops among aerospace firms. And talk about career opportunities at Lockheed. And about our famed “Skunk Works” facility where we developed the SR-71 Blackbird. And it’s advanced, it’s still the world’s fastest, highest flying airplane in sustained flight.

Announcements for What Goes On must be submitted; announcements from Caltech official sources are okay only if submitted to the Office of Student Activities. There is no charge for announcements from official sources; announcements from all others must be accompanied by a $5.00 check. All items must be submitted by 12:00 noon on the Tuesday prior to publication. Announcements must be received by the Tuesday prior to publication.

Guitar Classes

Guitar lessons for second term are meeting on Tuesdays in Winton-Bertram as follows: class 4, 10-11:30 A.M.; Intermediate class, 3:30-4:30 P.M.; Advanced class, 4:30-5:30 P.M. Classical and flamenco repertoires are explored but techniques transfer to other styles of guitar. The beginning class also includes the exploration of bluegrass systems. Classes are free to Caltech students (and other members of the CIT community, space permitting). Undergraduates can receive 2 credits of Music 12 for the class, with a pass or fail grade. You must notify the instructor, classical guitarist Barry Dinnick, by the end of second term to be held on the last Sunday of each month.

Jazz Buffs Take Note!

The annual awards of Jazz Appreciation and Donohue’s nightclub the new home of the IAOJA are presenting a special benefit performance by Music master Janney and his Provenos. Proceeds go to support IAOJA’s “Jazz Goes to School” program. The evening will feature a 9:00-11:30 p.m. performance at 7:30 p.m. at Donohue’s, 4266 Lankershim Blvd., Hollywood. Entrance fee is $5.00 for non-members of the IAOJA, and members (that is, those who have paid in a given year) receive a $1.00 discount. This benefit performance is part of a series of “Jazz Goes to School” events, this one to be held at Donohue’s on the last Sunday of each month.

Jazz At The Playhouse

The Playhouse, 118 N. Holly St. and the Blue Lantern-La Jolla, 2500 La Jolla Blvd., are run by the same superbrain, Joe Lasser, at the Pasadena Playhouse. The M.G.M. musical “Kiss Me, Kate” is running now. Feather. Performing will be Grammy Award winners Supratones, and the L.A. Voices. Call 449-1681 or 449-2342 for information.

SURF’s Up

SURF applications are now available in the SURF Office, Room 204 Dahley. The stip­end this term is $3,000, with a total possible maximum of $6,000. The application pro­posals are due at 5:00 p.m., Monday, March 2.

Another Cooking Class

On Monday, February 23, Alba and the Caltech-CIT Club will be making a special lunch for the Wednesday coffee meeting on Tuesdays in Winnett Basement and serving it for $3.00. Come on out! We play Saturday mornings at 9 a.m. on the parking lot north of Winton. Call James Murray at 449-2342 for more information.

Indian Movies

Indian movies on video tape will be shown on Saturday, January 24 at the Y Lounge in Winton Center. M. A. Call to 449-2342 after 7:00 p.m. for information.

Waltz Party

The Caltech-CIT Club is holding its annual Waltz Party on Monday, January 24th at 8 p.m. in Old Union on the Occidental campus, the Caltech-CIT Occidental Chapter will provide music for an evening of waltzing. Admission charge is $8; refreshments will be served. In preparation for the party, there will be a Waltz workshop at 22nd in Dahley Hall, beginning at 7:30 p.m. The classes will be free to all members of the Caltech chapter of the International Folk Dance Association.

Science and Philosophy

In a 60 p.m. on Thursday, February 5, Rabbi Alva J. Reines, Ph.D., a professor of Hebrew, Talmud, and Jewish Philosophy of Temple College in Cincinnati, Ohio will be coming to Caltech to present a seminar on the cultural and philosophical dimensions of Jewish life and thought, a seminar on A Philosophy of Liberal Religion. The talk will be open to all members of the Caltech community. The revised film schedule is as follows: January 26—Sierra de Tejel, directed by Alfonso Cuaron; and January 29—Good Fight, directed by Alain Resnais.

Morgan Ward Competition

This math competition is open to Caltech freshmen and sophomores. An entry may be individual or joint (sub­mitted by a group of two or more students). Each student is entitled to at most three entries, of which at most two may be individual.

Indian Movies

An entry to consist of a mathematical problem, together with a solution or signifi­cant contribution toward a solution. The pro­blem may have any source, but this source should be stated in the entry. The entries will be judged on the basis of the nature of the problem and originality and elegance of the presentation. The prize being $100. The contest will be open to all members of the CIT community. For further information call the Mathematics Department at 449-2342.

Road Hockey

California Technological Society is sponsoring Road Hockey again this term. Anyone who has played before or is interested in playing, start coming on out! We play Saturday evenings at 9 on the parking lot north of Winton. Call James Murray at 449-2342 for more information.

Y Composers

The Y Composers will present an evening of string quartets, brass ensembles, and woodwind quintets by Delius and Verdi, in late evening. For details, call Devan Kha, x6790, or 793-8632.

Free Band Concert

The Caltech Wind Ensemble, conducted by Bill Bing, will play a free concert tonight, January 23, at 8 p.m. in Ramo Auditorium. The two solos on this concert will be by Eric Borbon on oboe, and Karl Kwan on the bas­ tone trombone. Seats are on a first come, first seated basis, so plan to arrive a little early for the best seats.

Announcements must be received by the Tuesday prior to publication.
