Birdie Flies High

by Bradley Scott

Bye Bye Birdie is one of the most often produced musicals at high schools and colleges and for good reason. The score is filled with catchy, lighthearted songs and the script with its paper-thin plot and cardboard-like characters, TACIT's current production is far from amateurish and consequently very entertaining.

In general the cast is surprisingly good. David Stevens is excellent in the male lead as Albert Peterson, and Lisa Lyons is equally good opposite him as Rosie Alvarez. Ms. Lyons does an especially good job conveying Rosie's frustration about Lyons does an especially good job of portraying Albert as a likable schemer who is doomed to perpetual mediocrity.

Although the leads are very good, the best performances are turned in by the supporting actors. Yvonne Schneider is terrific as Kim MacAffe. Her singing is wonderful and she does a great job of balancing Kim's innocence with her desire to be a woman. Also excellent is Allen Corcorran as Kim's boyfriend Hugo. While Kim declares her love for him by singing 'One Boy', his gee-gee personna steals the scene which is one of the show's highlights. Although his singing is not as good as the other principals, Randy Brown looks and acts the part of Conrad Birdie very well. He is especially good in the scenes where Albert and Rosie are trying to hide Conrad's gargantuan shortcomings as a human being. The best performance, however, is turned in by Justin Mahly as Kim's dad. He completely captures Mr. MacAffe's pompous self-centered character and seems to really enjoy his part.

The leads, however, are not the only reason to see this show. Indeed, the most enjoyable part of the show is seeing your friends and professors on stage no matter how small their roles. In fact, the highlight of the show is the 'Telephone Hour' scene which features a dozen of the 'teenagers' in an extremely witty ensemble song. The teen and adult choruses and dancers are uniformly excellent. Additionally, Ann Vedro is excellent in a brief but saucy role as Albert's tap-dancing secretary MacAffe's pompous self-centered character and seems to really enjoy his part.

For me, the biggest disappointment of the evening was definitely the lack of undergraduates in the audience. Although tacht is in no means a professional organization, they have put together an extremely enjoyable show that is made even more enjoyable by the fact that most of the undergraduates know a significant portion of the cast. Go see your friends in a lighthearted show that provides a much-needed break from the rigors of Caltech.

Tickets are still available for the final three shows—tonight and Saturday at 8:00 pm and Sunday at 2:00 pm. All shows are in Ramo Auditorium. Tickets can be purchased at the door or in advance by calling the Ticket Office.

Bye Bye Birdie sees how many people can fit in its small phone booths.

CRIME BEAT

Incidents:

2-16-89 6:00 PM. Two staff members about to cross South Wilson Ave at San Pasqual when one of them was hit by a paint gun shot from passing vehicle heading north on Wilson. Victim described his part.

2-17-89 Cushions reported missing from the lounge area of Sloan Laboratory. Cushions are made of black vinyl leather and are about the size that would fit into a love seat.

2-17-89 1987 Metallic Brown Toyota MR2 valued at approximately $15,000 stolen from Chester lot.

2-17-89 Backpack missing from Dabney House courtyard. Pack contained three Physics 78 textbooks and six Physics 3 notebooks.

2-18-89 Sony Discman was taken from Room 24, Bridge Annex, sometime between 5:00 PM and 2:00 PM the following day.

2-18-89 Three males, age 10, 13, and 14, broke into the coin box of an arcade machine in the SAC game room.

2-20-89 Two "street people" were reportedly seen on the third floor of the Claremont-Mudd building with a 9 mm. Male: light skinned, dyed shirt and blue jeans. Female: white shirt, red skirt, long blond hair. Apparently, the two were in process of filling up eight water jugs when they were seen.

Harold Ginder's Crime Tip: Lock your office or bicycle when you leave; twice as many items are stolen when left unlocked as are items which are locked.

An escort is available from the Caltech Security Office. An officer will escort you to and from any building or from your building to your car during the hours of darkness. To obtain an escort call extension 470. It is suggested that you call 15-20 minutes prior to the time you wish to leave your building.

Swimming Studs Slosh

by Lee Burrows

This was not like any other weekend. The Caltech men's and women's swimming teams approached the Cerritos aquatic center; their mission: an overwhelming desire to kick some ass. Clint Dodd turned and said in a loud voice, "You know what, ladies, this is our year to rage!!" As we approached the other teams, they seemed to bow their heads out of respect. Jordon Holt and Mark Hause were almost choking on their fresh fish, gazing at the swimming, pants girls of Pomona.

Right away, we could tell that this meet would be like no other. Clint said some words to the other coaches as we began to warm up. The first relay was about to start, panting girls of Pomona. The first relay was about to start, panting girls of Pomona. 

Upcoming Events from the Y

NOON CONCERT TODAY - The Caltech Y presents sam (four feet) for your listening pleasure. Bring your lunch and your suntan lotion and enjoy some music. Forget all your worries and sing along with the band as they do their tribute to Battling Beavers' last home basketball game, so come out and help cheer them on. Go out and enjoy the victory sock hop in the gym! There will be free refreshments, door prizes for those of you who don't have time to shop! So come and join us. 

HORSEING AROUND - this Saturday - very early in the morning (check with the Y for exact sign-ups) are in the Y office, transportation is provided.

COMMUNITY SERVICE - students interested in helping the homeless. More information about session ever should come by the Y for more information. Upcoming events being planned include trips to the Union Station to serve meals for the homeless.

MARGARET ROSISTER will be here to present The History of the Movement of Women in Science. 1940s to 1970s on Thursday, March 2, at 1 pm in the Winnett lounge. Margaret Rosister is Professor of the History of Science at Cornell, and a well-known author.

SAIL MAMMOTH FOR SPRING BREAK, from March 19 to 24, cost $100. Sign up in the Y space. Is limited.

Next Week The Breakfast Club

Night Journeys with Brad Scott

by Bradley Scott

Eugene O'Neill's extremely au­

thentic play, Long Day's Journey into Night, is cur­

rently being staged at the Skylight Theatre in Hollywood. Although O'Neill finished this play in 1941, it did not allow it to be published or produced during his lifetime, and consequently the play was not published until 1956—three years after O'Neill's death.

This production offers a rare op­

portunity to see one of O'Neill's masterpieces as a small (seats 850) theater. Especially attractive is the fact that Long Day's Journey into Night sheds so much light on O'Neill's other plays. For anybody who values O'Neill's work and has the oppor­

portunity to see one of his finest productions, this is a must see.

Long Day's Journey into Night continues at the Skylight Theatre Saturday evenings at 8 and Sundays at 7:00 PM until February 26. Tickets are $12.00 for the general public, $6.00 for students, and $10.00 for ASCIT members. For reservations call (213) 466-6777.

The Beckman Internship

by Jeff Flint

The Beckman Internship is an annual award designed to encourage Caltech students to explore a field that is often overlooked by Techers—the field of politics. The internship offers a $2,600 stipend to a student working for the summer in a politically related job. Any student who will be attending Caltech in the fall is eligible to apply. The student may find his own job, or may obtain assistance from the school in locating a suitable job. The job may be located just about anywhere, be it in Washington, D.C., locally, or in your hometown.

I received the Beckman Internship for the summer of 1988, and worked about thirty-five hours per week in the District Office of State Assemblyman Patrick J. Nolan. Nolan represents Glendale, La Canada Flintridge, Altadena, Eagle Rock, and parts of Pasadena (including Caltech). At the time of my internship, he was also Republican Floor Leader of the State Assembly.

My primary responsibility during the internship was constituent casework. You may have heard of people writing or calling their Congressman when they have a problem with a federal agency, or if they wish to express a position on a bill or issue. My job involved dealing with these constituents when they contacted the office with problems related to state agencies. I served as a liaison between the constituent and the state agency, identifying the problem or concern, deciding which agency was appropriate to contact, cutting through bureaucratic red tape, and solving the problem. For example, I helped ASCIT regain its corporate authority, as it had been suspended, by contacting the California Secretary of State's office and the Franchise Tax Board. This sort of work is especially important to elected representatives, as they can use these services to aid people in a non-partisan way. Since the people aided happen to also be voters in the district, the electoral advantages of constituent casework are clear.

In addition to my duties as a caseworker, I also performed tasks such as writing press releases, attending local meetings and events as the Assemblyman's representative, tracking legislation, and campaign-related tasks. These tasks all serve to aid both the Assemblyman and his constituency by letting them know his concerns and letting them know what he's doing for them in Sacramento. By the end of the summer, I had collected a large stack of business cards from important people I'd dined and mingled with, and could tell you the status and general idea of many of the bills before the State Legislature.

The important skills I learned during my internship were communication skills. My ability to gather information from people over the phone has increased tremendously. My letter-writing skills have also considerably improved, and my person-to-person verbal skills have benefited most of all. Most important, I discovered a whole new field that I'd always thought I would be interested in, but was never sure. Since my internship ended, I've been hired at Nolan's office as a part-time legislative assistant, so call me there if you've got any problems.

The Beckman Internship offers a chance to explore what's probably a new field for most Caltech students. If you ever thought you'd be interested in a politically-related job, you should think about the Beckman Internship. You can feel free to call me (795-8606) or the Dean's Office (x6531) for more information.

If interested, submit a brief proposal describing where and how you would use the stipend, to the Dean's Office, 102 Parsons-Gates, by Monday, April 10th.

The Caltech Y presents

Margaret Rossiter

to speak on

Lessons from the History of the Movement of Women in Science: 1940s to 1970s

Margaret Rossiter is Professor of the History of Science at Cornell University. She is also author of the critically-acclaimed book: Women Scientists in America: Struggle and Strategies to 1940.

Thursday, March 2, noon - 1 p.m., Winnett Lounge

Refreshments will be served

Sponsored by:
The Caltech Y,
The Organization of Women at Caltech,
The Administrative Committee on Affirmative Action.
Fleming

This edition of the Inside World is in honor of the fossil-freest random senior in Caltech history, John Bob.

Another wasted night in upper crutch... (I don’t know, Jack, it’s kind of unclear)

Cast of Players:

The TV Triumvirate (me, Doug, and Paul): The Body, Fuller, Storm, Curbyf Wolfroit, Iron Mike, The Ideal Gassy, other random extras, and of course the star of our show, John Bob.

SC of the TV: Hey Doug, did you get a little bonus Batman action today?

DP of the TV: It was the bonus Catwoman without the mask.

JH: (Bitch!) So true, Doug, so true. Good call.

Fuller: Would you guys just shut up?

CBWR: Good call, good call.

Nature Boy (Buttons walkin): So, Gass, what did you get on the Phys quiz?

The Ideal Gassy: None of your damn business...

Nature Boy: Oh, you cutthroat! I can’t believe you guys, just sitting up here. I’ve got so much work to do. (Tests) But then again, you guys are on pass/flu.

PS of the TV (Random siren noise): Code blue, code blue! Heading 210, freshly risen!

P.S. Hey kids, don’t forget to tune in next week for Randy Stevenson’s “Kavalkade of Fun!”

The Injury

Then Tim sez th’ best news I ever heard.

Yes, it’s true, R-Dawg just got his pass/fail last semester.

I’m afraid you might have to change your plans, like, 210 times.

Then when I got back from class that day, there it was, just like magic.

The Mole, walks upstairs: What’s that, Storm?

Storm, from the corner: Nuthin’ ..

Yvonne Lung (Bonus walkthru): I’m sooo tired!

Joe Hall, in his room, turns up the stereo (“Welcome to the Jungle”).

SAC Services
If you're interested in receiving a room in the SAC or Winnett, you must apply to AS­UCD central, want to register to vote, want a refund list for the vending machines located in the cafeteria, need to buy a student card, want to register to vote, or need to buy an AS­UCD copycard, want to register to vote, or need to buy an AS­UCD copycard.

SAC Hours
Coffeehouse hours are 8 PM-1 PM, M- F and 12 noon-2 PM, Sat-Sun. If you have an idea for a special series, write Manager Barry. Like Mary Thames, SAC, also, those interested in wait­ ing at the Coffeehouse should see Barry.

Business Today Essay Contest
Business Today, the largest student-run magazine in the nation, is sponsoring an au­ tonomy essay contest. It is their hope that this contest can bring students to share their ideas with influential people who can help make the Nation's problems. The first place win­ ners will be awarded $100 in cash.

Free Flying
Did you ever want to learn how to fly a kite? Then come to the Caltech/KQED kite festival! The Caltech/QED Flying Club has a limited amount of funding available to cover the costs of flying free demo kites by graduate students who are interested in learning more about flying kites. During this short (15 minutes) event you will have the opportunity to fly kites and other nearby activities. You will also see first hand what is involved in planting a small aircraft. For more information contact Jim Kalman, 234-963, x3807.

T. E. Bell Competition
Juniors and seniors interested in finance, economics, and related fields should fall in to the T. E. Bell Undergraduate Mathematics Re­ search Competition. Entries are due by the end of the 4th week of the term.

Coffeehouse Branches Out
IBM Latin America is seeking candidates to fill the positions of Marketing Represen­ tatives and Sales Engineers to work in selected Latin American countries. (Open­ ings are for citizens of Argentina, Brazil, Chile, Colombia, Mexico, Peru and Venezuela.)

Sonsa National Laboratories sponsors the "One Year on Campus" Masters Degree Program. The program provides an opport­ unity for highly competitive minority-bachelor level students to continue their education for a masters degree. Candidates normally work at Sonsa for several months to become familiar with the laboratory's environment before beginning the program. Operation Conservation is sponsoring a cross-cultural exchange project in Africa and the Middle East.

Red Cross Disaster Training
Red Cross Disaster Services volunteers are trained and ready to assist the victims of any man-made or natural dis­ aster every day of the year. Emergency food, shelter, medical attention, and other assistance is provided to disaster victims in order that they regain self-sufficiency as quickly as possible.

Citizens interested in helping their friends and neighbors may volunteer for American Red Cross and sign up for free Disaster Training courses and work­ shops on various facets of disaster work. Call the Pasadena Chapter (at (818) 796-8041) for information.

Women's Trip To Scandinavia
San Jose State University is sponsoring a trip to Scandinavia this summer. The trip will be July 19-29, focusing on women's issues. For more information, call (408) 984-8000. Women's Trip to Scandinavia will be July 19-29, focusing on women's issues. For more information, call (408) 984-8000.

Free AIDS Speakers Available
Call for speakers! Members of the Amer­ ican Red Cross AIDS Speakers Bureau will come to speak to groups of six people or more and present the facts about Acquired Immune Deficiency Syndrome - AIDS.

The presentations stress the methods of transmission of the disease, as well as providing information about the disease, prevention, and treatment. For further information, call the American Red Cross at (818) 796-8041.

More Scholarships for Gals
The American Council of Independent Laboratories is offering scholarships to one woman in each of its 25 chapters in the fields of Physics, Chemistry, En­ gineering, Math, and Biology. For more information call the Financial Aid Office. This deadline is March 21.

Play With Money  
Call for Student Investment Fund meetings every Wednesday in Millikan Building Room 116-24, 5:15-6:15 p.m. We use to buy and sell stocks and bonds. Profits pay bills and save for every meeting, and pay for dinner at year’s end.

Join A Computer Club  
Want to meet other computer enthusiasts? Want to help others with your growing library and knowledgeable members? We can help you with your upper computer problems, and even teach you how to computerize your house. Come to our meetings Mondays at 5:15 p.m. in Room 515 SAC. New discussion topics every week.

Research Seminar  
Prof. Eileen Kammen has announced a research program open to juniors and seniors interested in biomedicine, chemistry, computer science, engineering, physics, atmospheric sciences, and psychology. The seminar, which will be conducted in the physics building, will meet twice a week and will focus on the strategies of women scientists. The seminar is designed to encourage students to pursue careers in science.

Sperm Bank  
California Cryobank, Inc. (818) 449-6967. Apologies for the confusion caused by the recent move of its location. The bank now offers one of the largest sperm banks in the country. For more information and application forms, please write to Dr. Eric Grotzinger, Department of Biological Sciences, California Institute of Technology, Pasadena, CA 91125.

 Aerobics  
The American Petroleum Institute will offer aerobics classes to students. The classes will be held in the Multipurpose Room of the Student Union. The classes are free to all students and will be held on Wednesdays and Fridays from 6:00-7:00 p.m. The classes are taught by certified aerobics instructors.
