

# Frosh and Sophs In Muddy Meet

Loser Will Pay Expenses of  
Annual Frosh-Soph Dance Nov. 10

Preparations are in full swing for the annual Mudeo Tuesday at 2:30 p.m. in the traditional mud wallow in Tournament Park. Eligible members of the two classes will compete in two feet of well-cultivated mud to see who is going to pay for the frosh-soph dance on Friday, Nov. 10, in the Dabney Hall Lounge.

By Friday evening both sides should have the mud cleaned out of their ears, so that they can gather in Dabney Hall lounge with their dates from 8:30 to 12:30. So-called "dressy" sport clothes are in order for the evening. This dance is truly unusual in that it will be a program dance. The men will get program booklets several days before Friday, so that they can arrange to exchange partners for about half of the evening's dances.

**Professional Magician**  
Dick Hyde and His Rhythm Men will be on hand to provide the music for the evening. Art Franke, a professional magician, will entertain attending couples with a 45-minute show of sleight-of-hand and mental tricks. Nothing has been said about refreshments, but the sophomore committee is determined to come up with something better than the cookies and punch served last year.

**Mill and Mire in Mud**  
On Nov. 7, all freshmen and sophomores who aren't out for sports will assemble in Tournament Park to compete against each other in the sack race, wheelbarrow race, tug of war, tire spree, and horse and rider events.

The side winning either of the latter two receives two points. One point is awarded for a victory in any of the other three.

**Tire Rules Changed**  
The committee in charge of the Mudeo has announced a change in the rules governing the tire spree. Henceforth, there will be no fighting for the tires outside of the pit.

As soon as a tire is in the end zone it becomes private property and cannot be taken by the other side. As before, any eligible Techman can enter three events if there are fewer than 125 men on his side. If there are more than this, he can enter the tug of war and any other three events.

**Both Classes Confident**  
Both sides are confident of victory, although the sophomores have the odds in their favor, having lost only two engagements in the history of the Mudeo.

The freshmen are not so easily daunted, however, and, as usual, expect to win. Both classes undoubtedly look forward to giving the referees mud baths at the conclusion of the Mudeo.

## Big T Pictures

Off-campus men who have not yet made their appointments for Big T individual pictures must do so today or tomorrow noon in front of Dabney Hall, or their pictures will be left out of the annual. When you keep your appointment be sure to wear a coat, tie, and white shirt, and bring \$1.25.

Friday, Nov. 3, is positively the last day off-campus appointments will be made.

## Campus Calendar

**THURSDAY, NOVEMBER 2**  
12:00 Upperclass Luncheon Club  
12:10 Throop Club Meeting  
7:15 Board of Directors Meeting—Lower Fleming

**FRIDAY, NOVEMBER 3**  
4:30 Water Polo: Varsity vs. UCLA  
J. V. at PCC Pool

**SATURDAY, NOVEMBER 4**  
10:00 Cross Country: Varsity and Frosh vs. Whittier at Tech  
2:00 Soccer at Thacher  
8:00 Interhouse Dance in all houses and Throop Club

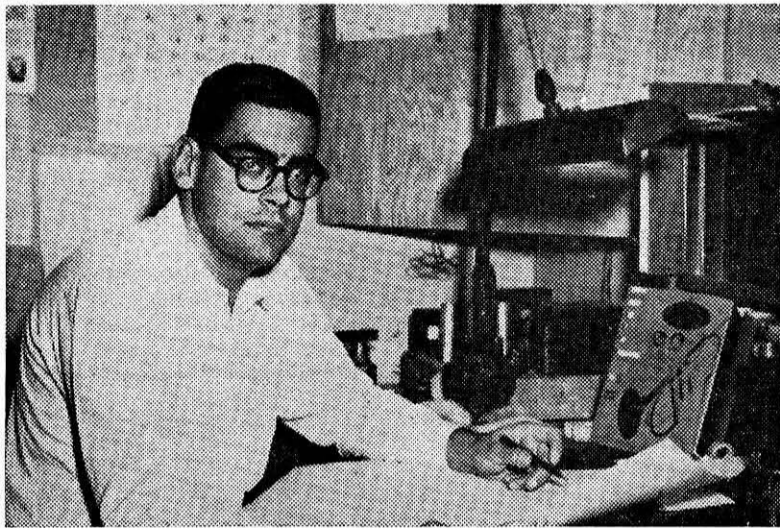

**SUNDAY, NOVEMBER 5**  
7:30 Film Classics Assembly, Culbertson

**MONDAY, NOVEMBER 6**  
7:30 Film Classics Assembly, Culbertson

**TUESDAY, NOVEMBER 7**  
National Election Day  
12:00 Frosh Luncheon Club  
2:30 —. Mudeo.

## FROSH-SOPHS

Get your dates now for the annual Frosh-Soph dance, to be held in Dabney lounge Friday, Nov. 10. Music will be by Dick Hyde's Rhythm Men; dress will be sport. As an innovation, this year it will include a program dance.

Art Cuse, New First Representative

# Cuse Wins Election 2 to 1; Poll on Dance Plans Soon

Art Cuse, newly elected first rep, has scheduled the first ASCIT dance for Nov. 18, 9 to 1, in the Elks' hall, 400 W. Colorado. Dress will be formal (suit or tux). Music will be furnished by LaVerne Boyer and his nine-piece band with a femme fatale vocalist.

An interhouse apple-bobbing contest and a coeducational apple-eating spree will furnish the entertainment.

**Preference Poll**  
In order to find out what kind of dances are preferred, Cuse plans to conduct a poll of Techmen during meal time some time this term. The results of the poll will be published and

## Y Programs Get Underway

Dr. Earl Cranston, dean of the USC School of Religion, will address the Upperclass luncheon club today to inaugurate a new and very promising series of talks on the subject "Great Religions of the World." Dr. Cranston's first topic will be "man's historic search for religious understanding." Other presentations of the series will be made by members of the various religions of the world including Hinduism, Mohammedanism, Buddhism, and the major sects of Christianity.

**Elections Today**  
The Upperclass luncheon club meets every Thursday at noon in the training table dining room. Today, elections will be held for president, vice-president, and secretary. Jack McEwing will step down as prexy after a very successful term in office. All upperclassmen are invited to enjoy these meetings.

**New Feature**  
A new activity will be added this year to top off the wide and varied program. Barney Engholm and John Boppert are organizing a church visitation group for all those interested in objectively comparing the various churches in the Pasadena area.

**Fireside Sunday**  
The first Y fireside will be this Sunday, at the home of Dr. Lindvall. The firesides will continue as in the past with informal discussion groups at the home of various members of the faculty each Sunday evening from 7 until 9:30. Meetings have been arranged at the homes of Drs. Bacher, Pauling, Sharp, and Eagleson for the future. Sign-up lists are available in the student houses and in the Y office.

**Frosh Lunch Club**  
The Frosh luncheon club featured Dr. Clark Millikan this week, who gave a talk on Caltech's wind tunnels. Next Tuesday an organizational meeting will be held to elect a president and other officers.

will formulate the decision on future types of dances.

**259-137 Vote**  
A senior, Art was victorious at the polls, 259 to 137, over Bob Perpall. He will now take over all the duties of the first rep, which include, besides being ASCIT social chairman, serving on the honor point committee and on the Board of Directors, and attending the SCIAC meetings.

In the SCIAC, he is our representative, planning, with the reps of the other four schools, such activities as the five-school dance and play.

## One Year After--

# Bacher, Smith Review First Year

by Bob Cobb

### Bacher

"I've had a very fine time here the past year. I've enjoyed it very much. This is not only a nice institution to be in, but the people are so friendly." So said Dr. Robert F. Bacher, head of the Caltech division of physics, mathematics and astronomy, who has now finished his first year at Tech. Dr. Bacher was on the Atomic Energy Commission for two and a half years before coming to Tech.

**Little Contact With Undergrads**  
Dr. Bacher is sorry that he has such a small amount of contact with undergraduates. His main contact with this group has been by means of lecture groups, etc., but he enjoys this contact "very much." Asked of his impressions of the Tech student, undergrad and grad, Dr. Bacher replied at some length:

"I had some previous conception of what Tech students were like because I had been here before as a research fellow. But I had not fully realized the wide variety of interests they have—that is, extra-curricular activities.

**Over 100 Physicists**  
"I am amazed at the large number of undergraduate physicists. There are over 100 physics majors in the sophomore, junior, and senior classes. I am both amazed and pleased. They seem for the most part to be very able men."

"I have had more contact with the graduate students. However, there are 75 of them, so I still don't know them all. I find it very interesting to have grad students who represent such a carefully selected group. It is especially enjoyable to have such a fine graduate research program."

After being a part of the Tech educational system for a year, Dr. Bacher has "... learned a lot more about how the Institute is put together." Asked if he liked the way it was put together, Dr. Bacher replied, "I think it is fine. There are many differences between Tech and other similar places, and I like the differences. The outstanding ones are the small student body, with a very large staff, and the fact that the Institute was designed partly for research. This is a very fine thing."

**Enthusiastic About Advisers**  
Dr. Bacher was extremely enthusiastic over the new adviser system. He remarked, "In physics, almost everyone in the department is advising. There are two reasons for this: we want to keep away from a few men being 'professional' advisers, and we also want to promote the exchange of views between the faculty and the students. It is my hope that the undergraduates find the system useful and helpful."

### Smith

"The Tech students are just as good humanities students as the boys at Williams." This is the opinion of Dr. Hallett Smith, chairman of the humanities division, after one year of observing the Techman in his English classes. Dr. Smith has been favorably impressed by all aspects of Caltech and particularly by its undergraduates.

When Dr. Smith came to Tech last year from Williams College, he expressed interest in determining the differences between men chosen for their abilities in the humanities and men chosen for their ability in the sciences.

In addition to the above partial answer to this question, Dr. Smith added, "... The interesting thing about Caltech undergrads is that they are so very hard working. They have a serious motive toward education. It is my main job to disabuse their ideas about aptitude, and to keep pointing out that their biggest handicap in the humanities is their erroneous idea of their abilities. It is a sort of inferiority complex."

**Many Plans for Department**  
Dr. Smith has made many plans for the humanities division, some of which are already in effect. A study is being made of the humanities curriculum, especially in regard to history and economics. Also, "We are doing all we can to encourage humanistic pursuits outside of the curriculum, such as encouraging music on campus, and you have probably heard about the new art class we are starting. In addition, the treasure room is being converted to a public affairs room, which will be available to students."

**Enthusiastic**  
After watching the educational policies of the Institute operate at first hand for a year, Dr. Smith was "very enthusiastic about it all." Dr. Smith likes the size of the classes, the distribution of the studies to include a large share of the humanities, and is especially pleased with the emphasis of the "tradition of the importance of the man in engineering and science."

Speaking of the general policies of the Institute, Dr. Smith remarked, "There are ways to improve, of course. But Caltech is in an excellent relative position, for we have a great head start. The big reason for this head start is that the engineering and science faculty is composed of men who have a great interest in the humanities. It is when you get people in engineering and science who are humanists that you get a system such as ours, and it is a good system."

When asked about his recent trip around the country to visit other educational institutions, Dr. Smith summed up his attitude toward Tech when he said, "I visited many other institutions, some of them technical and scientific institutions like Tech, and every place I went made me more glad to be here."

# Houses Combine to Throw Annual Fall Hop Saturday

## Macrocosmos, Circus, Menagerie, Gambling, Moon--Dance Themes

## Election Day

Next Tuesday is election day, so all who are eligible to vote are urged to go to the polls and cast their ballots.

Saturday night Techmen will venture into the realm of powerful imaginations when they bring their dates to the Interhouse dance, featuring curiosities from mechanical monstrosities to the solitudes of space.

Dabney claims the mechanical monstrosity that will do everything but wink at the women—and they're working on that. Their caged masterpiece is only part of the menagerie that will

"walk, talk, and crawl on their bellies" to develop the theme "Circus." "There is a sucker born every minute," and all are invited to Dabney and dancing to Eddie Jackson's band.

**Moonshine in Ricketts**  
Dancing in Ricketts will be to "Music out of the Moon" with decorations presenting a lunar landscape, and a romantic "full earth" is guaranteed by Rowdies' specialists in the field of moon meteorology. Eddie Charles will supply plenty of smooth dance music for the curious investigators.

**Showboat in Fleming**  
"Tarry a moment—you'll be satisfied" — if sideburns don't tickle while you're in the Fleming "Showboat." Cliff Holland and his colored combo will sup-

(Continued on Page 4)

## Full of ...

# Politics Spiel At Assembly

## ... Sound and Fury

Are you for Douglas or for Nixon? Whatever your political preferences in the coming Senatorial race may be, tomorrow's Assembly in Culbertson will give Caltech political wizards ample food for thought, with a Democrat and a Republican opposing each other on the platform.

**15-Minute Speeches**  
Each speaker's talk will last 15 minutes, after which there will be five more minutes allowed for questions from the floor and rebuttals.

Willis Sargent, representing the Republicans, is a graduate of Harvard and Yale Law Schools, and has been a practicing lawyer for 20 years. During the war he was in the Naval Diplomatic Service, and was instrumental in writing the surrender terms for Germany.

**Democrat Anti-Trust Man**  
The spokesman for the Democrats, Richard Rogan, is a graduate of UCLA and Yale. During his career he has been connected with the anti-trust division of Department of Justice and the Rockefeller Foundation.

# Plans Set for Charity Drive

A dinner was held yesterday in the Athenaeum in order to formulate plans for this year's ASCIT charity drive to be held the week of Nov. 13-19.

Representatives from the World Student Service Fund, the Pasadena Community Chest, and the March of Dimes, were at the dinner to tell of the goals and functions of those organizations.

It was decided that contributions would be collected by sending cards to each student who will mark down the amount and distribution of his contribution. If preferred, the amount can be billed through the office.

**Only Drive**  
The ASCIT drive is the only one which will be held during the school year except for the YMCA one in the spring.

The goal for the drive is \$2750, which will be split up as follows: \$1250 for the World Student Service Fund, which helps needy students in other lands, and \$750 each for the Community Chest and the March of Dimes.

### Spirit of the Honor System

For the past four weeks members of the student houses have enjoyed the privilege of buying ice cream from the unattended deep-freeze unit in Ricketts House. There was no question of the integrity of the students when John Noble, who owns this concession, decided to leave a glass in the kitchenette beside the freezer so that students who wanted evening refreshment could take their ice cream and leave the money without disturbing him. But during the past three weeks Noble's records have shown that out of 753 pints taken from the freezer, 21 were not paid for. Even though the Caltech Honor System does not officially extend to the student houses, those few students who have been taking advantage of this generous service should realize that this is just plain stealing, and by doing so they are probably depriving the rest of the students of their just desserts, since Noble has seriously considered discontinuing his concession if any more such events occur.

### Secretary's Report

With the election of Art Cuse as the new first rep last Thursday, the Board of Directors was brought to its full complement of nine members. Bob Perpall was given a unanimous vote of thanks from the Board for serving with Art as co-social chairman for the ASCIT until now. The new first rep's first job will be running the Thanksgiving dance on Nov. 18.

#### Grad Student Cards

You may have noticed grad students flashing special student body cards at the last two football games. Under a new arrangement, grad students are being sold special student cards which will admit them to all athletic events and ASCIT dances. This is an experimental plan designed to enable grad students to participate in more campus activities and bring about a closer relationship between the two student bodies.

#### Gardner Charity Boss

As a result of Al Marshall's induction (into you know what), the chairmanship of the combined charities drive has fallen on the broad shoulders of the ASCIT veep Oly Gardner. The drive is scheduled to be conducted during the week of Nov. 13-19.

Once again I want to remind all of you that the Board meetings are open to all members of the student body; they are held at 7:15 p.m. on Thursday night in Lower Fleming.

Respectfully submitted,

Stan Groner

### Root Mean Square

#### Who, Oh Who, Knows Our Beloved Tech Alma Mater?

For this week's poll the method of October 19th's tabulation was repeated; 25 students were quizzed at random from each house.

We should like to invite com-

ments and suggestions concerning this column from the undergraduate body, and shall welcome ideas for pertinent and interesting questions.

The queries for this week are as follows:

On the average, how many dates do you have during one month at Caltech? (A date is defined as two hours or more with a girl in the evening.)

No dates	14
One	14
Two	22

## CAMPUS BREWINS

Beauty, truth, and rarity,  
Grace in all simplicity  
Here enclosed in cinders lie.  
—Shakespeare.

Many are the disparagements that have fallen upon our ears in regard to this column, and, especially now that our countenance is gazing upon the reader from above, we can no longer bear the reproachful stare of so many oxen.

It is thus that the reader will be glad to hear we are shedding our much-harried cloak of subtlety, and even though we might never attain the homey pinnacle of monosyllabism which would be commensurate with the reader's vocabulary, we shall do our best to please the populace.

Those who might escape the Beak's ever-seeking eye are

Yes	36
No	64

strongly urged to drop the Editor a note, and we shall do all to boost their ego. To the devil with art, to the devil with English. Hope you like it, bub.

#### Peck Presides

News was made in Fleming dining room when the headwaiter, amidst boos, announced that one would henceforth have to behave like a gentleman in order to enjoy the peerless cuisine prepared below. The legal aspects had already been discussed and no money would be refunded. Cheers were heard from the waiters' union, and the rest boomed.

The week's choke came from "smiling" Mel Katz, who picked his girl's ex-lover (Cagle) to drive him and aforesaid girl back to Oxy after Friday night's ex-

change. The conversation on the way was pointed, we understand.

### How About Klarfeld?

The exchange was fruitless otherwise, though, and amidst the operators present were Bjerklie, Cassidy, Daily, Forgy, Haire, Janssens, Joyner (briefly), Keswick, LeTourneau, Libbey, Lynam, Matzner, Morrison, Piton, Sampson, Scruggs, Smith, Smith, Starr, Willens, and Wood. The rest were absent. The house amplifier broke down. The couples walked over to Dabney.

### Brewer Conducts

There, they found folk dancing again being perpetrated on the innocent guests, whose faces betrayed looks ranging from bewilderment to helplessness before imperturbable fate. Among those tripping a light polka fantastically were Avere, Billings, Corbin, Davison, Einwohner, . . . Vreugde, Wood, Zentner. Shreve may have been there, but he escaped the Beak's attention.

### Neverman Not Mentioned

However, finding everywhere his presence derided and scorned,

COPIR. THE AMERICAN TOBACCO COMPANY

# Soccer Team to Thacher Saturday; Bruins Win

This Saturday the Tech booters journey to Ojai for a return engagement with the Thacher eleven. Two weeks ago Caltech's booters downed the Thacherites 4-2 and this weekend they hope to repeat their previous performance.

## Bruins Drop Tech

Last Saturday saw the Tech eleven downed by a fast, hard playing Bruin team. The rather decisive score of four to one doesn't do the Tech team justice, as the ball was well in Bruin territory for almost the entire second half, as well as a good part of the first one.

Special honors go to the forward line whose precise teamwork kept the UCLAN goalie on his toes almost every minute of the game. Countless shots just missed pay dirt, as forwards Weber, Gutierrez, and Bhanj Deo kept peppering at the goal. However, Gutierrez was the only member who succeeded in pushing one through the up-rights. Much credit is also due to wings, Wood and Schlinger, who kept feeding the ball into the forementioned trio.

## Defense Weak

Unfortunately, the defensive play showed a few weak spots. However, Carel Otte very ably held the team together whenever UCLA approached, and without his playing, the score would be a little more lopsided.

## BUTTIN' IN

—By BUTLER

When we all went to the Bowl Saturday night, I guess everyone had high hopes of the Beavers bringing home the bacon. But sloppy tackling on the Engineers' part, paired with a couple of slippery Bulldog backs, was enough to give the Beavers their fifth straight defeat.

The only two really bright spots in an otherwise black picture were the bang-up games played by Jack Walker and Randy Moore.

## How Much Longer?

Defeat, defeat, and more defeats seem to be the habit for Tech teams for the last n years. And, after reading the editorial in the Tech last week, I am sure the habitual losing string will continue.

The writer typifies the majority attitude on campus that the academic load is sufficient excuse for just giving intercollegiate sports token support.

The real injury comes when this attitude infiltrates into the men on any of the many team sports participated in here at Tech. There is more to playing competitive athletics than fielding

## Coach Shy Opens PCC Falls in Casaba Practice Monday in Armory Cross Country

For all those basketball hopefuls who have been running up and down on dirt courts, the time for official practice has finally come. Varsity Coach Carl Shy will meet his charges at the National Guard Armory at 4:15 p.m. Monday, Nov. 6. The Armory is on North Raymond next to the Crown Theater.

The Frosh will still have a little wait. They will meet Coach Priesler on Nov. 20 at the McKinley Junior High School at 4:15 p.m.

Aided by the return of Bill Pilkington with a medical OK, the Caltech cross-country team took the PCC team by the decisive score of 23-32 last Thursday. Bill won the meet in 11m. 14.9s., closely followed by Pete Mason.

The meet was started as usual with most of the PCC team well out in front. Pilkington soon moved out in front, however, and only Schmidt of PCC was able to hang on for a while.

# Bulldogs Show Style, Power to Down Tech

## Walker, Moore Spark Beavers in Spotty Attack; Injured Lamar OK

The game that was slated to be a close contest all the way got derailed in the first half by a powerful Redlands eleven. Redmen slapped a 34-13 defeat in the face of the Engineers in Saturday night's tussle at the Rose Bowl.

Dominating most of the first half action, the Bulldogs rolled up 27 points while the Beavers were having trouble getting under way. The visitors displayed most of their power on the ground, tucking away 298 yards net rushing before guntime.

## Groundwise

Tech's comeback began early in the third period when Sophomore Jack Walker took a punt on his 35 yard line and with a beautiful display of running, raced down the sideline for first blood.

By means of Babe Karasawa's right fist, Tech lashed out 199 yards through the crisp October eve to out pass the Bulldogs by 38 yards. One pass in particular from the Babe to end Randy Moore counted for Caltech's second score.

With just one game left, Tech's Frosh gridders are still looking for their first win. In Saturday night's prelim to the varsity game, they dropped a 26-7 decision to Pomona's Frosh.

Down 20-0 till the end of the third quarter, they put across their first score of the season when Brose, playing right half, took the ball on a reverse and went for 6 from the 25-yard line. Fullback Stryker chalked up the extra point on a push through the center of the line.

Moose Henderson got off some long punts during the first half to get the Frosh out of some tough situations. Bruce Kaiser at safety, and center Saliba, acting co-captains, turned in good performances.

## Cross-Country

Cross-country fans will find sport coming up this Saturday morning when Tech's marathoners take on Whittier in the first conference meet. The Frosh two-mile run will precede the varsity, and that'll be about 9:30 a.m.

## Statisticwise

Redlands managed 21 first downs against local troops while Tech grabbed 15. The Engineers' display of 378 net yards is very impressive although the Bulldogs netted 459.

With undeterminable LaVerne next on the Beaver list for a week from next Saturday, we should have rest enough to roll over the team that lost 40-19 to Redlands.

# Campus Interviews on Cigarette Tests

## Number 5...THE GNU

"I gnu the answers...but I wasn't talking!"

The debating team couldn't make much use of this non-talkative baby...but one look at his "literary leanings" tells you that tests don't buffalo *him*. 'Specially those tricky cigarette tests! As a smoker, you probably know, too, that one puff or one sniff—or a mere one-inhale comparison can't prove very much about a cigarette!

Why not make the *sensible* test—the 30-Day Camel Mildness Test. You judge Camel mildness and flavor in your own "T-Zone" (T for Throat, T for Taste) ...for 30 days. Yes, test Camels as a steady smoke and you'll see why...

BUTTIN' IN

(Continued from Page 3) a squad and putting time in at practice.

The men on the squad have to live like a team on and off the practice field.

If one man breaks training, he is not being fair to the other team members who are depending on him to do his job when game time rolls around.

Let's face it, men, unless the attitude changes we can look forward to mediocre teams from here to doom's-day.

Loyalty Oath

Glancing through the Oxy scandal sheet the other day, I ran across a new twist on the "loyalty" oath.

Camp Cook; Almost

The Hustler passed out the glad word today that Shy's basketballers will again use the Armory for practice.

Frosh Basketball

Ed Priesler should be very happy when Fred Anson reports for basketball practice.

Cross-Country

Rookie Coach Jack Marshall and his leather lungers are again headed for another fine year.

I guess this is a good spot to close on, the only really bright corner in the Beaver athletic picture.

CAMPUS BREWINS

(Continued from Page 2) (Club), where it was at least dark, and thus promised a good place to escape the slings and arrows of outraged readers.

While puttering around casually in the darkness, he was struck with sheer amazement as he saw the unmistakable glow of two cigarettes in the corner.

Recovering his savoir faire, the Beak was nearly stricken again with the same sight, but recovered immediately when he realized it was only a simple light atop Sokol's ghost costume.

Nuff Said

Chuck Miller, Slobovian connoisseur of femininity, wondrous alchemist, and next president-to-be-after-Norman-Thomas, Chuck Miller, we repeat, was observed to have communion with the elements.

With a giant size display of sal Atticus, he proceeded to enthrall Throopers with a geologic display, the likes of which the world has never seen.

In Dabney, J. T. Billings, T. Hamilton, R. Stanaway, and Oxy\* dates came to dinner again Wednesday night (it happens often.)

in an effort to lure Oxicoeds to the exchange.

Head Singer Hedrick (also showers, lounge—anywhere, in fact) trained his small choral group\*\*, which hustled itself over to Oxy the same evening to sing original ditties to the prospects.

All went well until the watchman notified the normally calm, serene, local boys that Whittier fellows were about.

There was solace, however, in the Friday mails: notes of admiration from Orr and Erdmann.

\*Names unknown, but one bright red blouse incited cries of "Inspection."

\*\*All those present obtain signed affidavits from Hedrick affirming that you were there, if you want recognition.

"Where Was —"

One of the more ironic touches of the week was inaugurated when Rally Commissioner Ludwig appended a spurious sign-up list for the Oxy-Whittier game to the Caltech-Redlands sheet in Dabney lounge.

By Saturday night, however, inexorable patriotic fervor seemed to have gained possession of the Darbs.

In short order, the contents of the R. C.'s single were trans-

ferred out to the middle of Dabney Court, genial host to many another room in its day.

Kurland Misses Game

Sports fans will be interested to hear that Scripps, although not favored, won the football game against Pomona 18 to 12.

Fritz Thurstone is rumored to have brought a whole harem to the Redlands game.

An event which may yet threaten the serenity (!) of the

Attention Radio Club Members

The spending of last year's treasury on a big splurge for new radio equipment will be discussed at the coming meeting of the Radio club.

ASME-SAE Joint Tour to Kaiser Steel

A combined group from the ASME and SAE will journey to Fontana tomorrow to see the only blast furnaces on the Pacific coast and other facilities of the Kaiser steel works.

Student House food lifeline is to be perceived with extreme interest. It seems that the milk-and-breadmen, on their daily deliveries, raised much ruckus every morning.

So they got up early last Friday. And when the milkman came, they hurled buckets of water at him.

HOUSES COMBINE

(Continued from Page 1) ply music in keeping with the theme—and since the pilot has to see where he is heading, illumination in the pilot room will be an absolute minimum.

Bugs in Blacker

"The place will be crawling," Blacker men claim in the snatches of time they take from the twenty-five-foot high project developing in their court.

A deep, dark, and damp tunnel will develop Throop's "Carnival" theme, but only men willing to gamble will be invited to the dance.

PCC FALLS

(Continued from Page 3) The finish of the two-mile meet saw Schmidt, Gibson and Cobb bunched in that order, while the surprise from the Frosh team, Francis Scott, took the second place behind Cobb.
