Stoicism and practicality are not emotionless, and still relevant

KSHITI GROVER
Contributing Writer

Google the definition of “stoic,” and you’ll see that a stoic is simply “a person who can endure pain or hardship without showing their feelings or complaining.”

Indeed, this is how being a stoic is usually thought of, at least in popular culture — a way to live without emotion. It’s a way to insulate oneself and live sternly. Perhaps this sentiment is why stoicism is regarded as impractical, overly simplistic and easy to dismiss. Isn’t having emotion what makes our lives worthwhile?

Perhaps this sentiment is why Stoicism originated in Greece, founded in the early third century. In all ways, it is a normative and practical philosophy: stoics such as Seneca, Marcus Aurelius and Epictetus were very much concerned with how we should live our lives and spend our time.

A stoic is one who introspects carefully and thoughtfully about emotions. Though it may not be easy to rid ourselves of negative thoughts like jealousy, greed and anger, a stoic is able to separate oneself from these passions. It is easy to fall into the trap of thinking that a stoic is one who is apathetic. This is not the case — stoicism urges you to be in control of how these thoughts influence you and having the command to “withdraw your assent.” A stoic realizes the difference between what is under one’s control and what stems from external influences.

In the stoic philosophy, what is most treasured is one’s “virtue,” a kind of moral standard that we can abstractly identify with a state of the soul that corresponds to “perfect reason.” In some sense, “virtue” consists of wisdom, justice, courage and moderation, but these are not components that one can possess separately. A virtuous person simultaneously holds all “virtuous” qualities by holding one. With some context on “virtue,” stoics do not hesitate to make extreme statements. Happiness is implied by only virtue, and so things like money, sex, work and even life (our own and those of our loved ones) are simply “preferred.” The only deterrents to our happiness are special forms of vices that break down our “virtue.”

I claimed before that stoicism was practical — so where does this line of thought get us?

One of the more well-known modern day stoic scholars is Massimo Pigliucci, who sheds some light on this. He would spend time thinking about how our virtue might be tested over the course of the day. For example, what experiences will test our courage or compel us out of moderation? We should consistently reflect on how we plan to deal with unfavorable outcomes — the loss of the “preferred” entities. Here, Massimo mentions “it is not wrong to think of a visualizable death.”

I want to leave off with one of my personal favorite sayings from Seneca’s letters, in which he is concerned about the shortness of life. His argument here is once again about mindfulness about how we spend our time:

“It is no use pouring any amount of liquid into a container without a bottom to catch and hold it, so it does not matter how much time we are given if there is nowhere for it to settle; it escapes through the cracks and holes of the mind.”

By all means, being a stoic is not easy or this simple. Stoicism is a subtle and complex philosophy, with branches extending outside of morals and meditation. Yet, one thing is certain: stoicism is as relevant as it was thousands of years ago.

Women’s tennis team sweeps LeTourneau, win streak at five

GOCALTECH.COM: Actual Sports Content Editor

LONGVIEW, Texas. (Mar. 25, 2016) – Freshman Elise Cutts made 26 saves while allowing just 18 goals and freshman Brittany Percin fired home nine goals as Caltech knocked off a program record win in a season with a 10-7 victory over Macalester College and a narrow 11-10 overtime loss to Connecticut College on Saturday.

Caltech 10, Macalester 7

Head Coach Jon Bonafede’s squad started out better than he ever could have hoped, amassing a 3-0 lead after the first five-and-a-half minutes. The Scots’ Lucille Morrow went off for a pair of goals to pull Macalester back into the game, but Percin completed her first quarter hat trick on Caltech’s final possession to carry a 4-2 lead into the first break.

After another two scoreless minutes in the second quarter, senior Soumya Kannan took the Beavers out to a three-goal lead again. The Scots rallied immediately, however, with back-to-back scorers making it a one-goal game with 3:02 left in the first half. This time, it was senior Stephanie Wong’s turn to take control, firing in two long-range efforts to regain the three-goal edge at halftime. 7-4.

A tough defensive battle ensued in the third quarter, with three exclusions in the first five minutes and only one goal scored, which junior Mary Boyajian notched for the 8-4 lead. Cutts was integral in building the four-goal margin as she made several incredible saves and nine total over the quarter.

Kannan converted on Caltech’s first possession of the fourth quarter and, although Macalester threatened to claw back into the game, the Beavers held on for the decisive 12-7 victory.

Caltech 10, Conn. College 11

Both teams took some time to test each other’s defenses over a scoreless opening five minutes in the final game of the day. Conn. College got on the board at the 3:01 mark, but Percin responded with her sixth goal of the day just a minute later. The Camels retook the lead as the clock ticked under a minute and Caltech was unable to capitalize on an extramman opportunity, leaving the score 2-1 after the first quarter.

Conn. College had better luck after a Beavers exclusion, taking a two-goal lead within the first minute of the second quarter. Percin took over at that point, scoring the final three goals of the quarter to hand Caltech the 4-3 lead at halftime.

Conn. College benefited from another extramman goal with 6:13 on the clock in the third quarter, but Caltech answered with strikes from Boyajian and freshman Katie Johnston to move ahead by two goals. The Camels were awarded a penalty just 12 seconds later and converted, but Caltech retained the lead heading to the fourth quarter.

Boyajian atoned for the penalty call with her second goal of the game early in the fourth quarter, but three straight Camels goals on as many possessions, including two quick counters, flipped the score line to 8-7 in Conn. College’s favor. Percin stepped up when needed with a 2:03 left to play, tying the game at 8-8 and following a handful of fruitless possessions for each team, the foes headed to overtime.

Caltech took the lead on the first possession as Kannan blasted a deep shot into the net, but the Camels tied it up two possessions later and the second overtime period soon followed.

Once again, the Beavers went ahead on a deep score by Wong with 1:52 remaining, but Conn. College’s Kelsey Millward went unmarked and scored with 1:10 and just 28 seconds left to steal the game for the Camels.

Macalester 11, Augsburg 6

The Beavers opened their trip with a come-from-behind victory thanks to a five-run fifth inning. Kirk struck out three batters in the top of the first inning and went on to punch out a career-high 10, although Augsburg pushed across a pair of runs in the top of the second to take the early lead.

Both pitchers retired the next six batters they faced before Caltech put runners on first and second with a pair of two-out singles, but a deep fly out to centerfield erased the danger. Kirk ran his streak of retired batters to nine through the fifth inning, when the Beavers had runners on the corners with none out but once again were unable to score thanks to a strikeout and double play. Augsburg picked up a third run in the top of the sixth on a two-out RBI double.

The Beavers’ bats finally clicked in the bottom of the sixth, which quickly saw the bases loaded with no outs, including a strikeout and an error. Freshman Tucker Reese and sophomore Garrett Levine each sl rape two RBI singles to clear the bases and give Caltech the one-run lead, after which sophomore David Watson brought Levine home on a sacrifice fly. The Beavers would go on to put runners back at the corners before another fly out to centerfield ended the inning.

Looking to finish what he started, Kirk put away the first two batters of the seventh inning on a pair of fortunate lineouts. A two-out double and single put runners on the corners and a passed ball made it a one-run game, at which point Head Coach Matt Mark called for Levine, who last year became the first Beaver since 2000 to record a save, to put out the fire. Levine brought the tension to a maximum as he walked the bases loaded, but then got a groundout to second base to seal the victory. Kirk turned in his first career quality start, allowing three earned runs on seven hits and two walks over 6 2/3 innings pitched.

Kirk spins quality start, baseball picks up win on Arizona trip

GOCALTECH.COM: Actual Sports Content Editor

TUCSON, Ariz. (Mar. 29, 2016) – Junior Kai Kirk tossed a quality start in a 5-4 victory over Augustsburg College and a trio of hitters batted .500 or above during Caltech baseball’s four-game Spring road trip to Arizona.

Caltech 7, Augsburg 4

The Beavers opened their trip with a come-from-behind victory thanks to a five-run fifth inning. Kirk struck out three batters in the top of the first inning and went on to punch out a career-high 10, although Augsburg pushed across a pair of runs in the top of the second to take the early lead.

Kirk turned in his first career quality start, allowing three earned runs on seven hits and two walks over 6 2/3 innings pitched.

Kirk spins quality start, baseball picks up win on Arizona trip

Caltech 1, Augsburg 6

Caltech began the nightcap with back-to-back fly outs followed by a trip from freshman Connor Moffatt, but a third fly out ended the frame. Drawing the start in Game Two, Levine gave up a leadoff single but came up with a double play groundout and got some help from junior Tim Menninger after a hit-by-pitch, with the catcher running down the runner at second on a steal attempt.

Augsburg came up with two RBI singles in the bottom of the second to take the lead, but Menninger led off the top of the third with his first career home run, joining Levine and Watson as the only active Beavers to have recorded a round-tripper. Junior Harrison Jacobs followed immediately with a double, and was advanced to third on a groundout, but a strikeout and lineout ended the inning.

I don’t know what they did, but that other team is gettin’ some serious side-eye... Photo Courtesy of Bob Pallermini
