letter *from* the editors

We hope that you, the Caltech community, enjoy the 2013-2014 *Big T* yearbook. **By the numbers**, this year was impressive. We have made new advances, set records, and solved crucial **problems**. It is hard to **quantify** the **multiple** events and experiences from this year. However, we tried to **sum** up all of the memories, **divide** the year, and **integrate** the amazing Caltech spirit in this yearbook. We have put in a lot of **work** and tried to **differentiate** this great year from the rest. Cherish the memories!

Sincerely,

Meghana Pagadala, Class of 2016

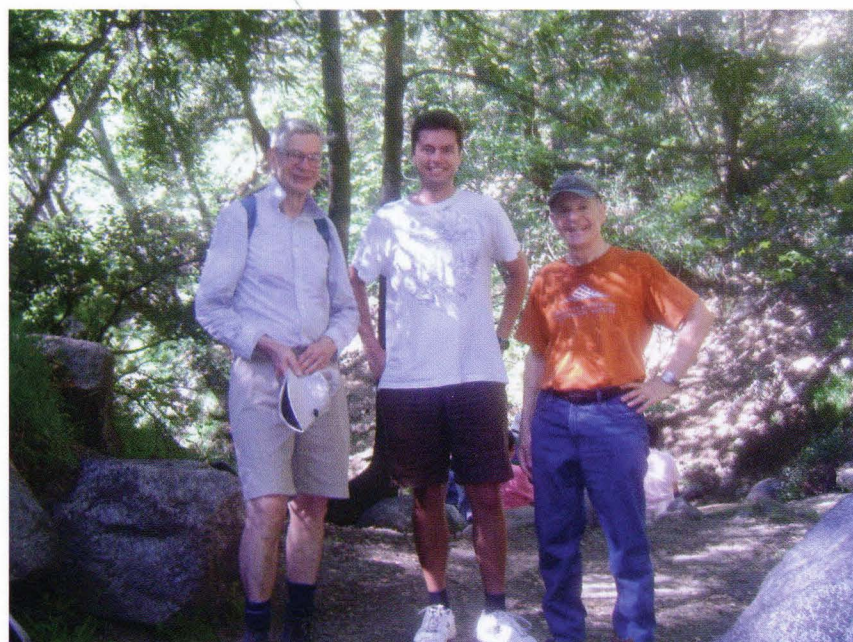

Harinee Maiyuran, Class of 2016

By the Numbers
Big T 2013-14

Dedication

Steven Frautschi is a renowned professor of theoretical physics in the Division of Physics, Mathematics, and Astronomy. Frautschi grew up in Madison, Wisconsin, and began his impressive and inspiring string of accomplishments as the first scientist in his family. After matriculating to Harvard at the age of 16, Frautschi graduated in 1954 with a degree in Physics. He then spent an exciting year bicycling around Europe and later received a PhD from Stanford. He spent his first postdoctoral years in Japan at Hideki Yukawa's Institute for Theoretical Physics in Kyoto, and then spent two more years at UC Berkeley. These were perhaps his most important years, when he developed the "bootstrap" theory of strongly interacting particles and further used his brilliant mind to study Regge Poles. In 1962, Caltech was fortunate enough to gain Frautschi as part of its faculty.

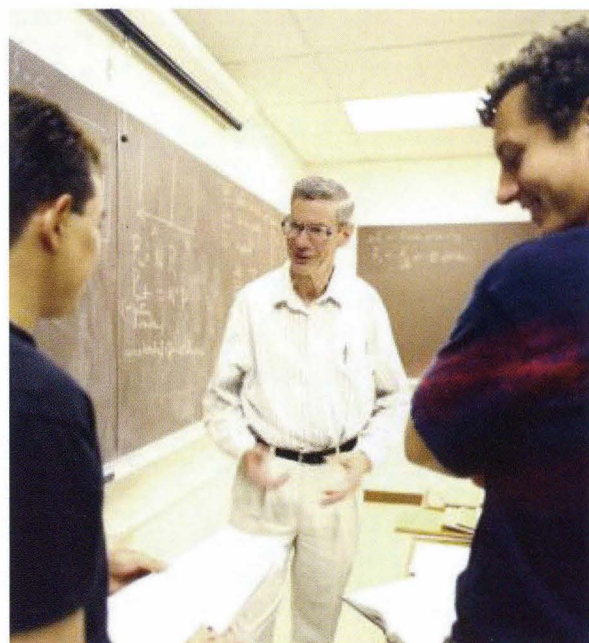

People lucky enough to be Frautschi's student can attest to his great teaching skills, a direct effect of his worldliness, ingenuity, and great personality. From his incredible sense of style to his great instruction, Frautschi is easily a favorite of all undergraduates. Some even think he is singlehandedly responsible for starting the Converse trend in the United States. Frautschi is also a great proponent of performing arts at Caltech, donating generous sums of money to ensure that Caltech students have great musical resources. He has contributed to Caltech in every way, even serving as Master of Student Houses in his time here. Steven Frautschi is truly an inspiration.

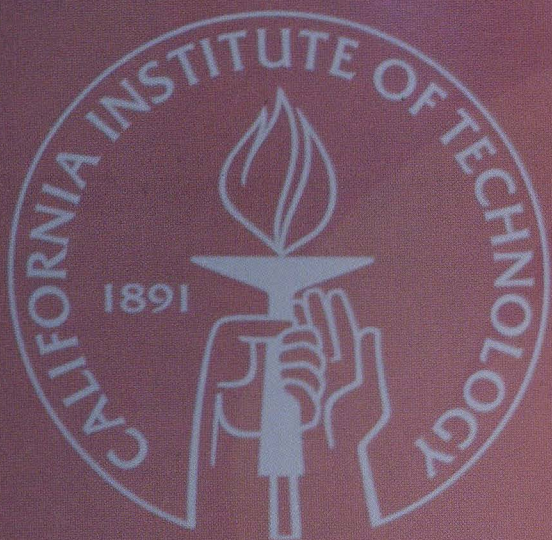

He really made physics come alive, and a question never went unanswered. He found creative ways to teach us everything!
Heather Gold '16

He always has a smile on his face, and being his student was truly a pleasure.
Meera Reghunathan '15

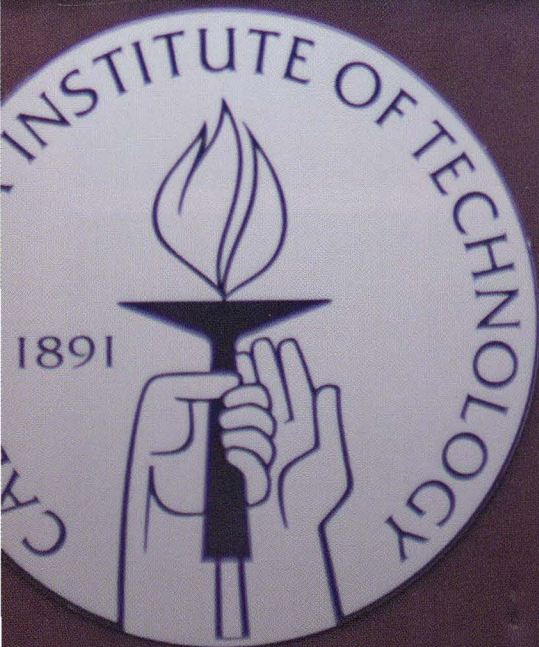

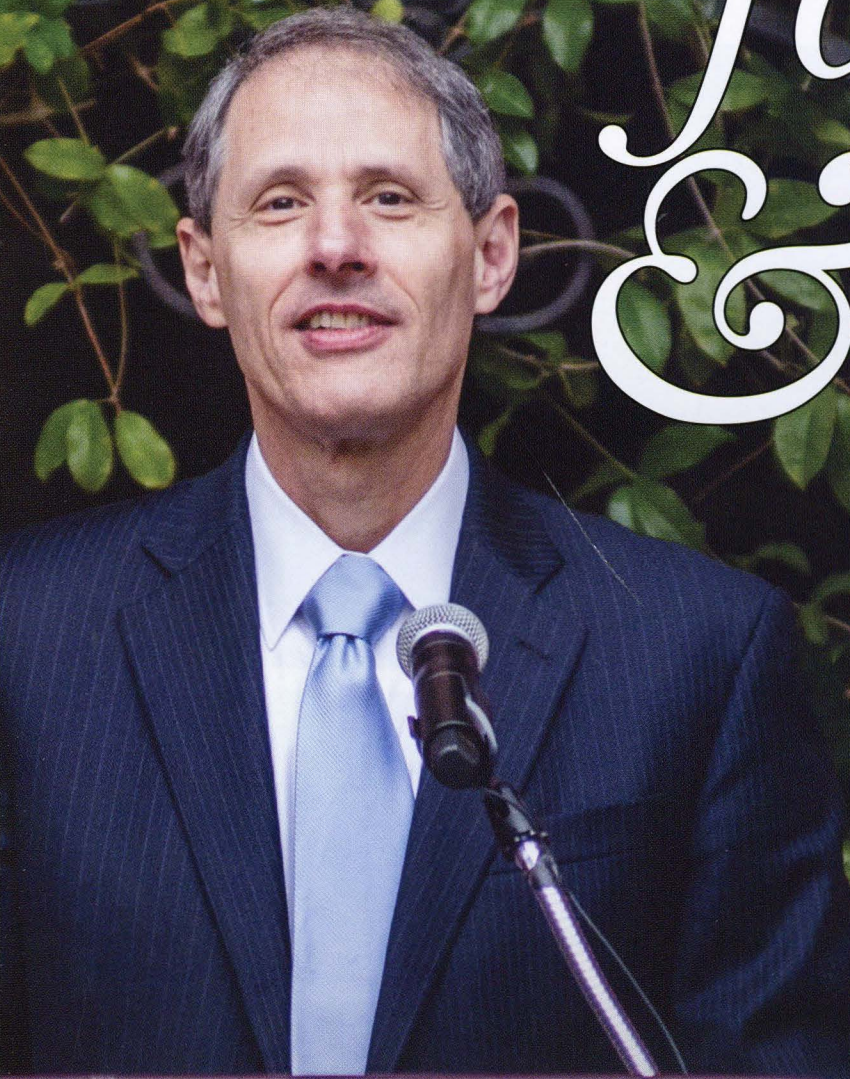

California Institute *of* Technology

faculty & staff

1

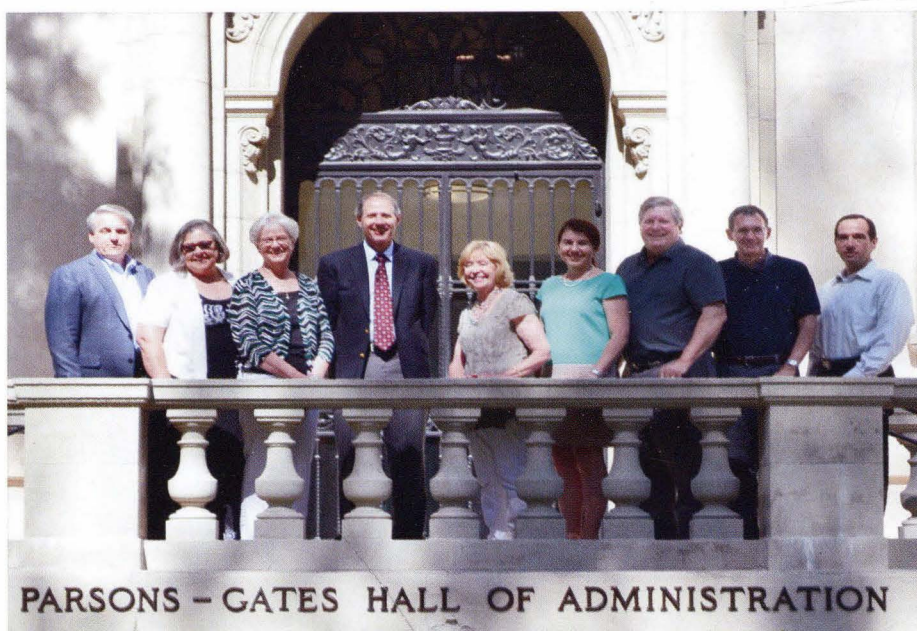

BOARD OF TRUSTEES

The Caltech Board of Trustees is responsible for overseeing the activities and affairs of the school. The current chairman of the board is David Lee.

ADMINISTRATION

FRONT ROW: Brian K. Lee, Victoria D. Stratman, Mary Webster, Thomas F. Rosenbaum, Anneila Sargent, Diana Jergovic, Dean Currie, Ed Stolper, Scott Richland.

DEVELOPMENT & INSTITUTE RELATIONS

The Development and Institute Relations supervises a wide variety of tasks including communications, marketing, donor relations, and campus programs (just to name a few).

STUDY ABROAD

FRONT ROW: Katherine Montgomery, Lauren Stolper, Diana Garcia.

CALTECH Y

FRONT ROW: Amy Choi, Liz Jackman, Athena Castro, Greg Fletcher, Christopher Kealey.

SURF

FRONT ROW: Andrea Arias, Stefanie Garcia, Candace Rypisi, Carol Casey.

ADMISSIONS

FRONT ROW: Jann Lacoss, Christine Waldor, Erin Gore, Karly Brockett. **SECOND ROW:** Matt Ybarra, Jarriid Whitney. **THIRD ROW:** Johanna Araujo, Mackenzie Brown, Marta Chang. **BACK ROW:** Tiffanie Love, Scott Jung.

FINANCIAL AID

FRONT ROW: Cullen O'Neil, Isabel Cobos Houser. **SECOND ROW:** Marta Michel, Don Crewell, Malina Chang. **BACK ROW:** Stephanie Follis.

LIBRARY

Caltech's library staff are always willing to help students gain the best resources to succeed at Caltech. From textbooks to study rooms, the help these individuals offer is truly valuable.

HEALTH CENTER

Caltech students are well cared for by the wonderful staff of the Health Center. Getting a checkup, some medical help, or a kind word is just a quick stop away.

COUNSELING CENTER

The Caltech Counseling Center will turn your frown upside-down. The capable staff help students with any emotional or mental problems they may experience.

CALTECH DINING SERVICES

Don't be scared, Caltech Dining Services is there! These kind and talented individuals add a little spice to the day of every Caltech student. Their limitless patience, cooking abilities, and warm smile do not go unnoticed.

academics

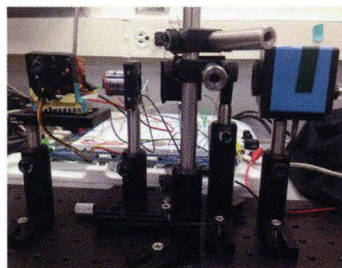

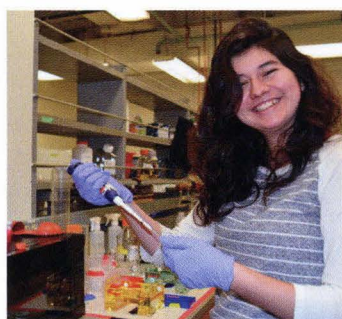

50 Research Labs BIO+BIOE

9 Faculty and Alumni Nobel Prizes

Caltech's Biology and Biological Engineering (BBE) department focuses on the discovery of the nature of life by combining innovation and biological principles.

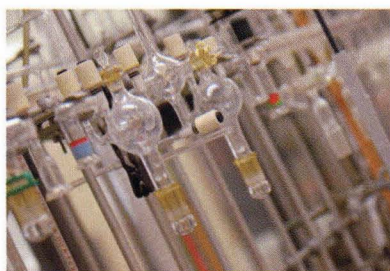

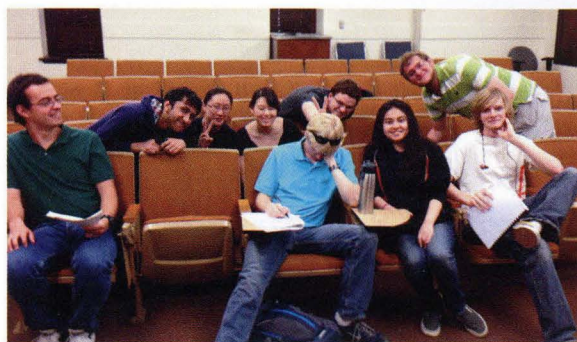

This department has made leaps and bounds this year. A new course, Bi/Ge 105, travelled to the Galapagos to understand evolution firsthand. Students continued their adventure in biology by attending a symposium to honor Paul Patterson's life in science. Vivana Gradinaru and Elaine Hsiao received Director's Awards from the NIH, and Niles Pierce was named 2014 Guggenheim Fellow. ■

10 National Medals of Science

4 Nobel Laureates

US News No. 1 Chemistry Department

CHEM+CHEME

Accomplishment and success have defined this department in the past year. Harry B. Gray was the recipient of the Othmer Gold Medal, Sarah Reisman received the Tetrahedron Young Investigator Award, and

William Goddard received the 7th World Congress on Oxidation Catalysis Award. These are few of over a dozen awards given to various faculty throughout the year. This department has no lack of fantastic teachers, with professors such as Greg Fu elected

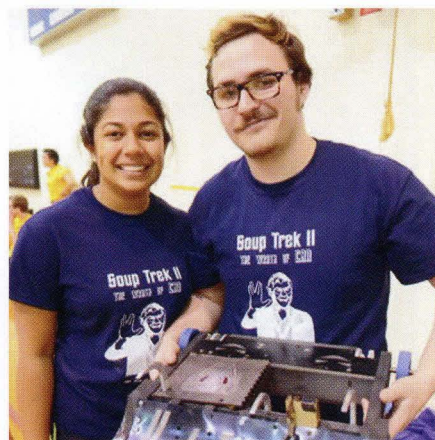

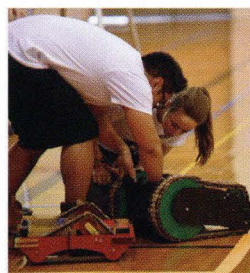

to the National Academy of Sciences and Frances H. Arnold induced into the National Inventors Hall of Fame. Amazing advances in ultrasound imaging by the Shapiro lab and in solar fuels by JCAP show a bright future for this department. ■

ENGINEERING & APPLIED SCIENCES

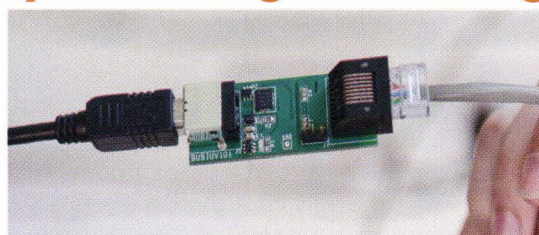

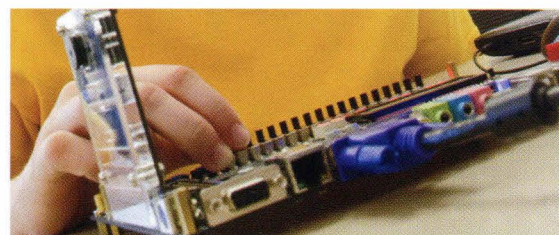

6 National Medal of Science Recipients

7 departments

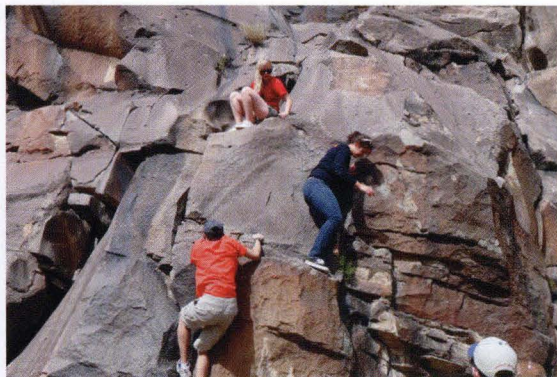

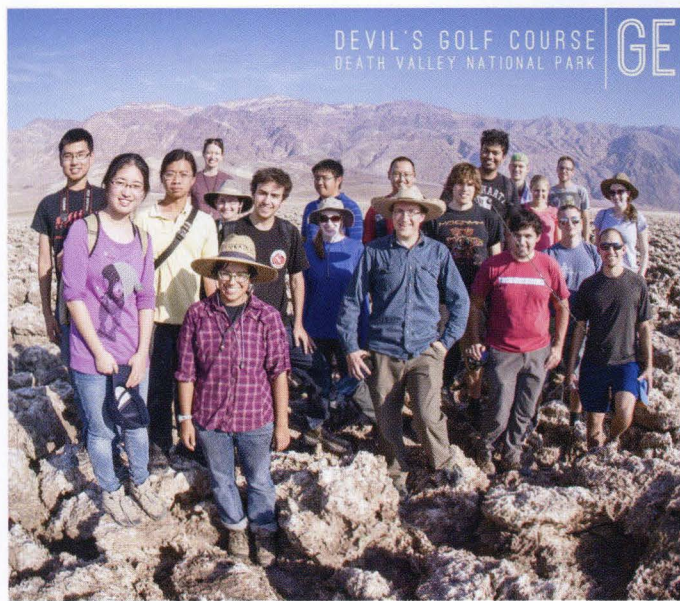

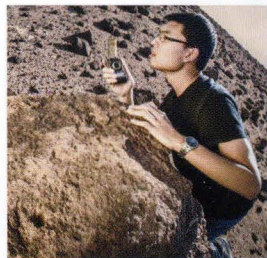

29 Members of the National Academy of Engineering

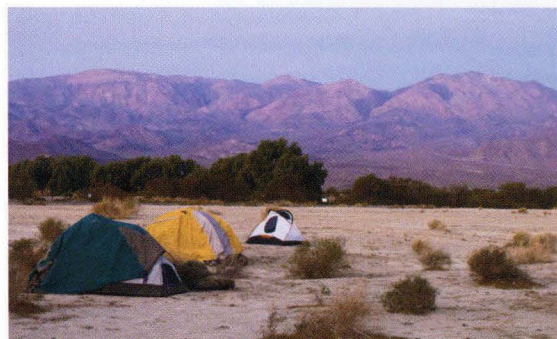

The EAS department uses interdisciplinary methods to investigate fundamental problems in science and technology. The subdepartments include Aerospace, Applied Physics & Material Science, Computing & Mathematical Sciences, Electrical Engineering, Environmental Science & Engineering, Mechanical & Civil Engineering, and the new Medical Engineering department. This year was no exception to the rising success of the department, with K. Mani Chandu winning the Hall of Fame award, the Jorgensen Laboratory winning the SCDF Science and Technology Award, Paul Dimotakis receiving the AIAA Fluid Dynamics Award, Julia Greer being named Young Global Leader by the World Economic Forum, and more. ■

US News and World Report No. 1 Earth Science Program in the Nation

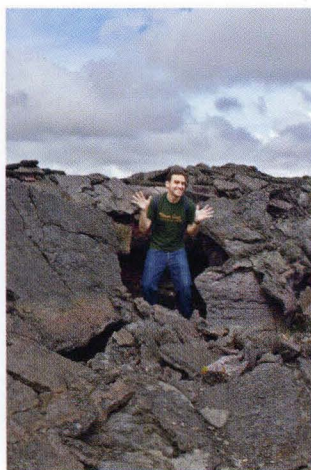

Established in
1926

In the GPS department, students and faculty discover new things about the origin and development of earth and other planetary objects. This department collaborates with JPL, NASA, and

other institutions, doing things like confirming a subsurface ocean on Enceladus (one of Saturn's moons), celebrating Earth week, developing a geothermometer for methane formation, and detecting water vapor in

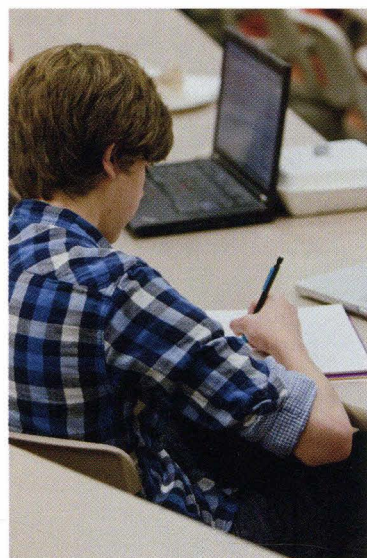

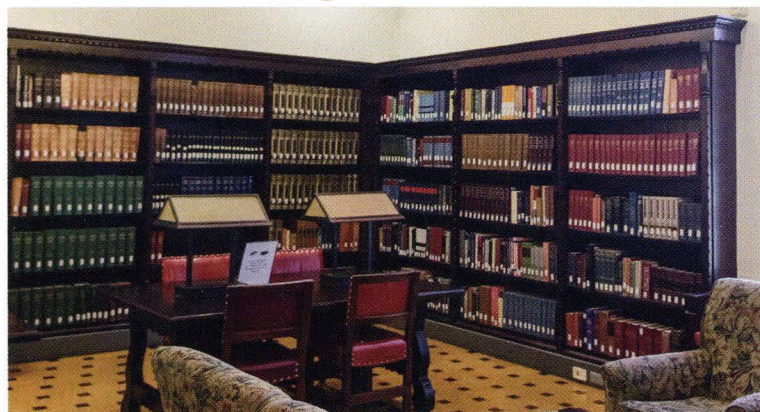

Jupiter's atmosphere. The American Association of Petroleum Geologists (AAPG) honored Michael Gurnis, and new Curiosity papers were published, marking a successful year for the department. ■

GEOLOGY & PLANETARY SCIENCES

HUMANITIES & SOCIAL SCIENCES

49 Faculty Members

6 American Academy of Arts and Sciences Fellows

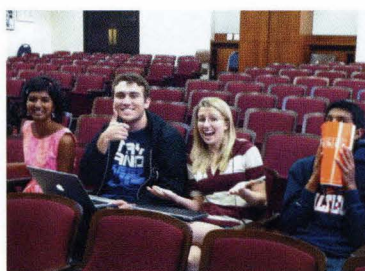

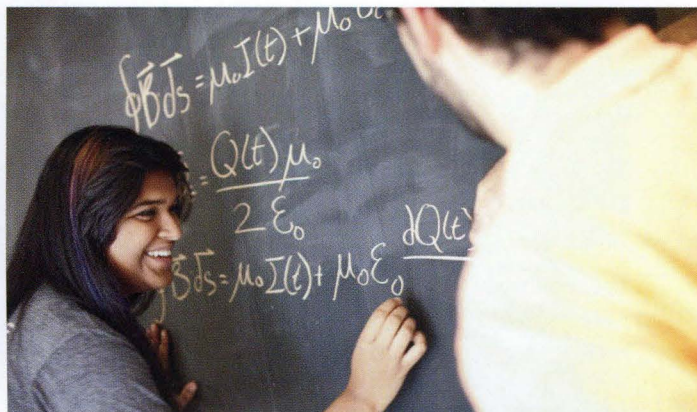

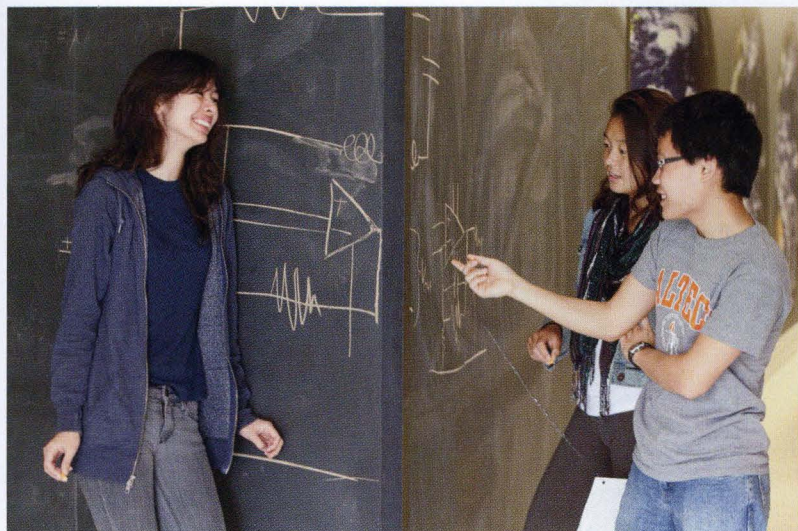

HSS uses various different venues to essentially study the same thing--the human experience. With almost half the faculty of this department being active lecturers, students are especially connected to the HSS department. This department engages the same rigorous scientific methods and in-depth analysis that other departments use to understand the world and human behavior better. Throughout the year, various individuals were recognized for their excellence in this pursuit of knowledge, such as Colin Camerer, who was named a MacArthur Fellow. The department will see development in the future with Jean-Laurent Rosenthal named the new chair of the Division of Humanities and Social Sciences. ■

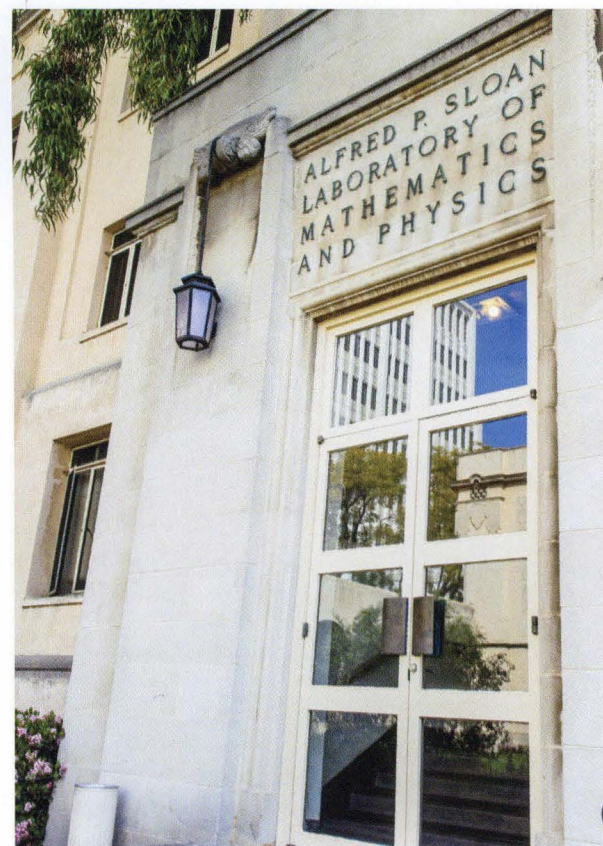

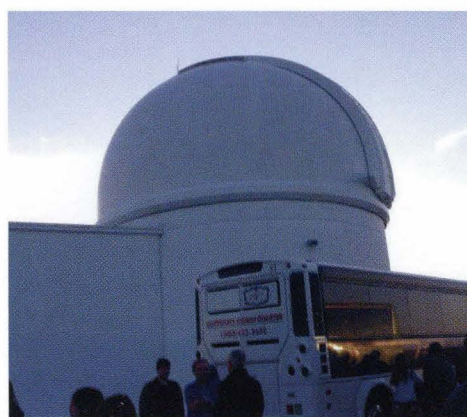

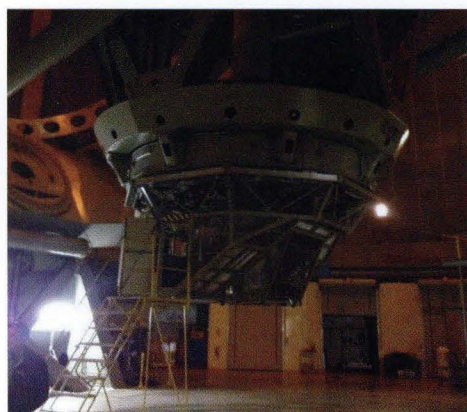

PHYSICS, MATH, & ASTRONOMY

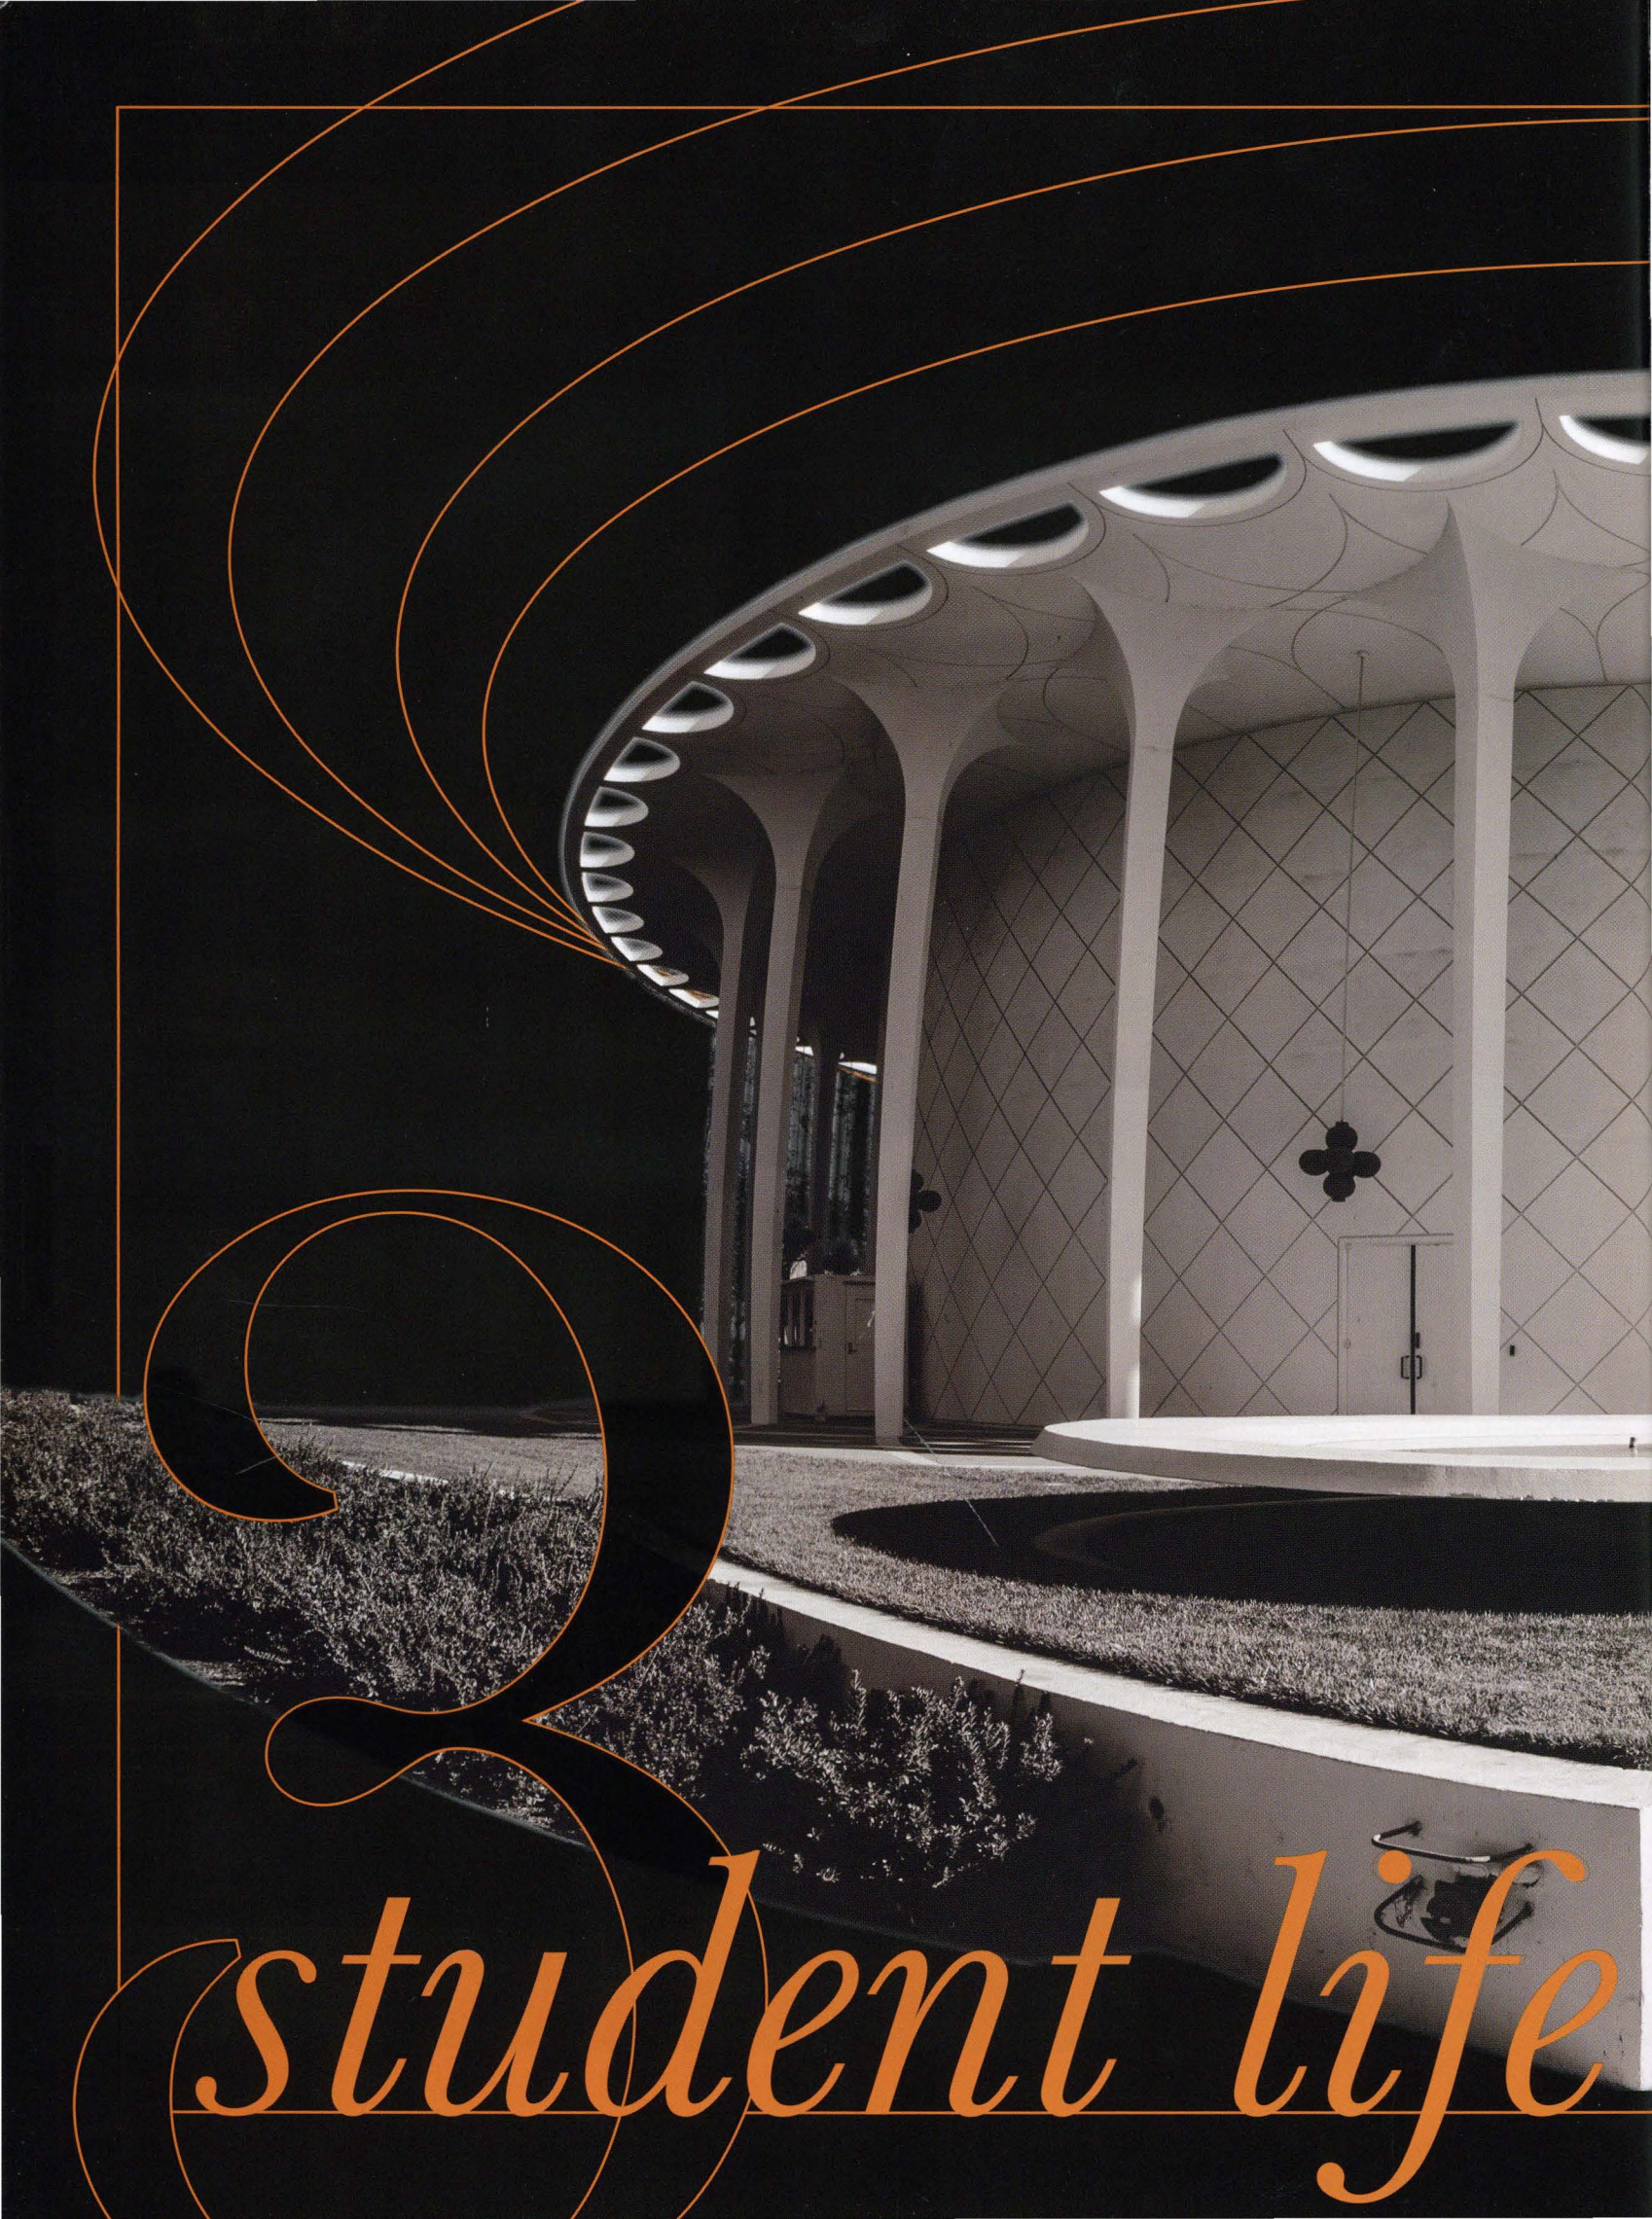

US News and World Report No. 2

Physics Department in the World

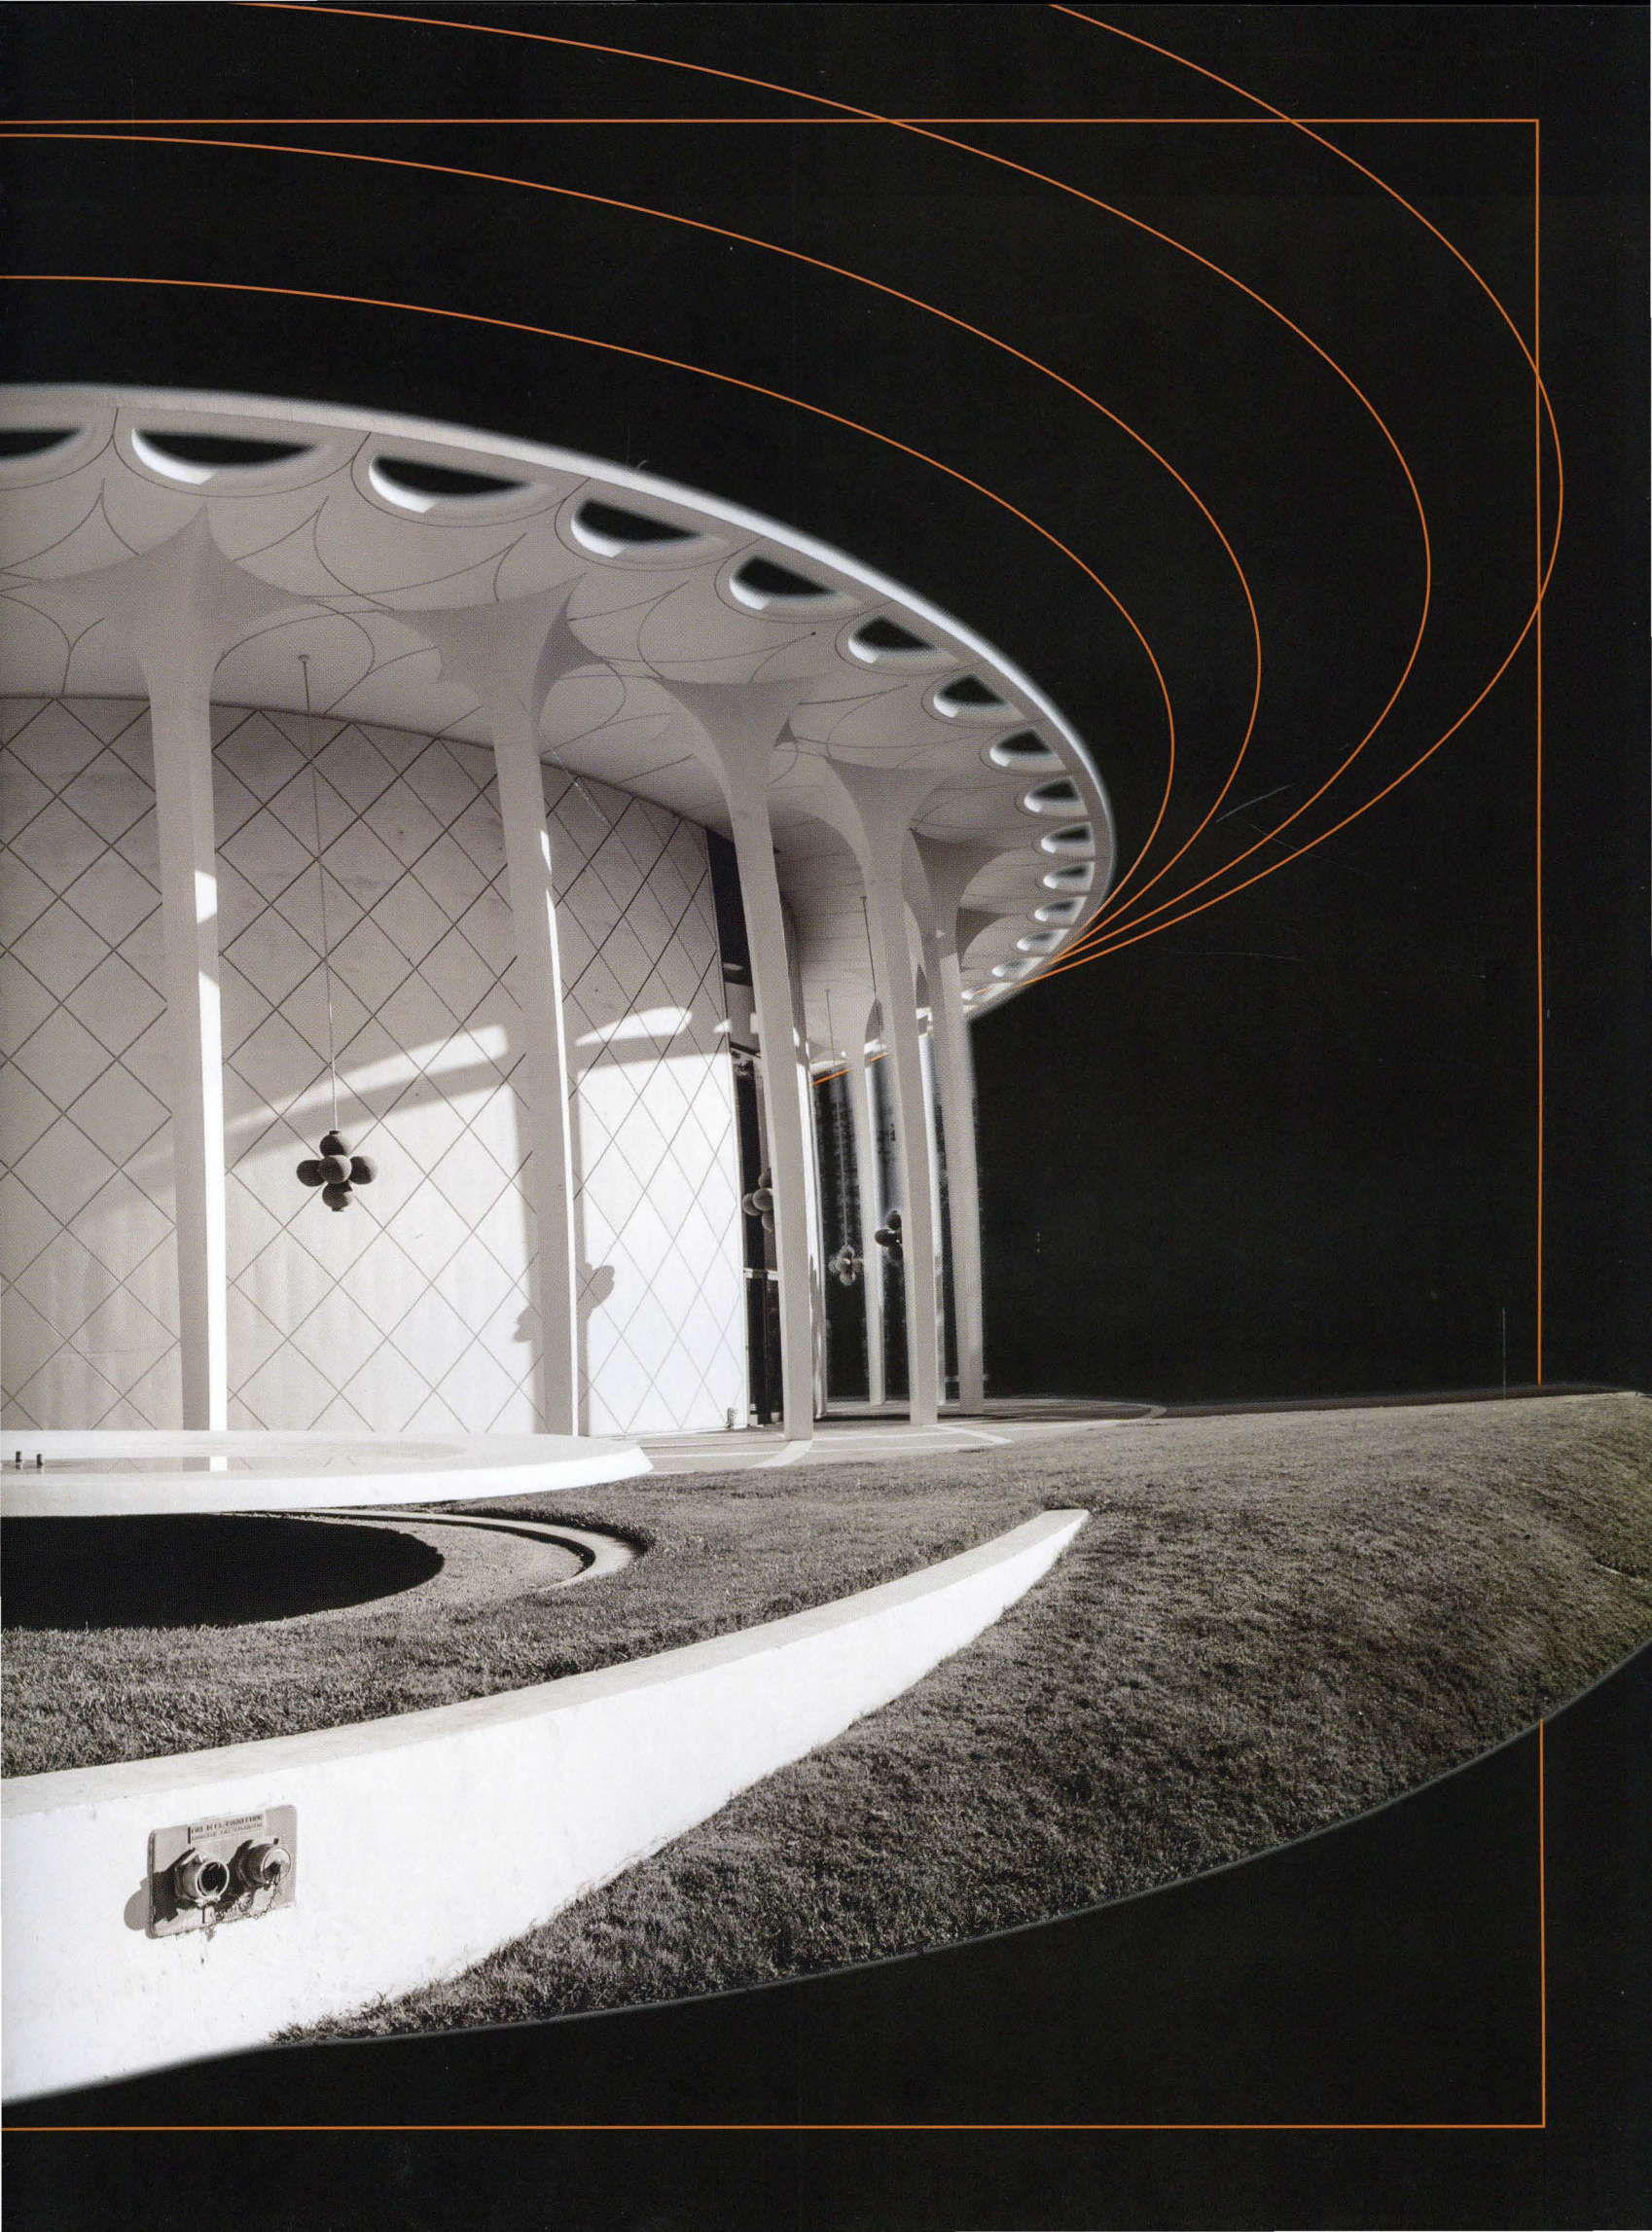

Caltech's PMA Department engages in some of the most exciting research in the world and at the institute. The physics department collaborates with NASA's JPL and has made leaps and bounds in studying solar power, black holes, interstellar space particles, and much more. Caltech professor and Nobel Laureate Ahmed Zewail saw huge success when he was named as one of 26 members of the UN Scientific Advisory Board. John H. Schwarz also brought Caltech pride when he received the Physics Frontiers Award. On the December 3rd broadcast of the Colbert Report, Stephen Colbert personally awarded Edward C. Stone the NASA Distinguished Public Service Medal. In addition, Steven Frautschi won the Richard Feynman Prize for Excellence in Teaching. ■

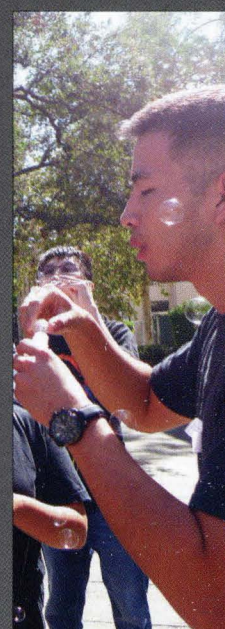

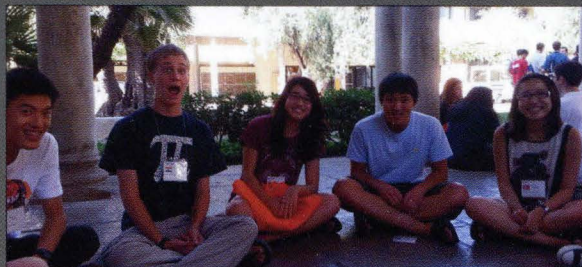

student life

ROTATION

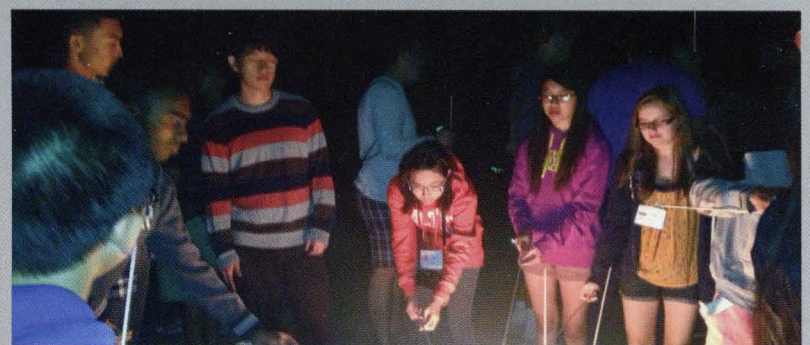

Frosh come, frosh go, but one tradition outlasts the rigors of time: Rotation, the “sorting hat” process that gives Caltech students the opportunity to have a welcoming and unique home upon arriving at Caltech. When pre-frosh arrive on campus, they are randomly sorted into a house that will provide them with a room during their temporary stay. Each pre-frosh then goes to a House dinner, House “study break”, and optional House event that provide a flavor of House culture. Pre-frosh get to talk to House members, participate in any activities the House may have, and tour the Houses. Rotation rules apply so that pre-frosh are allowed to fairly determine for themselves whether a house is a good “fit”, without any

external influences. Meanwhile, each House demonstrates what their community might offer. As the saying goes, all Houses are fine Houses. Although many people recite the saying jokingly, it is true. Indeed, every House is different. However, the stark differences in House personalities make Caltech the diverse community it is. During rotation, House members all gather to show their pride to the new, impressionable Beavers. Hence, Rotation also gives House members the chance to bond and celebrate their House culture before the rigorous academics of Caltech kick in. When the cannon fires to officially end rotation, pre-frosh officially transition to frosh and have a House to call home. ■

CALTECH CARNIVAL

FROSH CAMP

MOLE DAY

Groundhogs get their own day, and now moles do too! Here at Caltech, where we've only had a few history majors over the decades, science and math reign supreme. With numbers like Avogadro's, which combine the best of both worlds, it's pretty hard not to be excited. Some enthused students, including Jenny He '17, Nick Zolman '16, and Margaret Lee '16, celebrated the 23rd of October, or Mole Day, by digging holes in the ground. Why the 23rd of October, you ask? At 6:02 AM on 10/23, there's a resemblance to the number 6.02×10^{23} ; the near-perfect attendance to Ch1 lectures ensures that no explanation is necessary (thanks Nate Lewis!). The holes in the ground were ac-

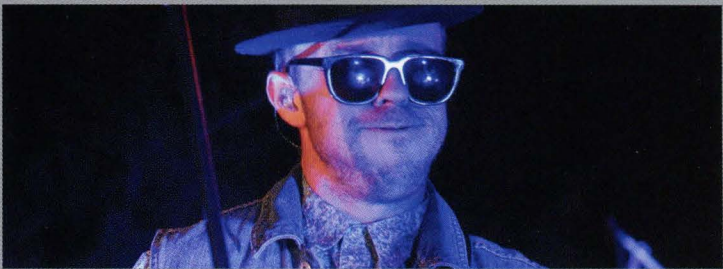

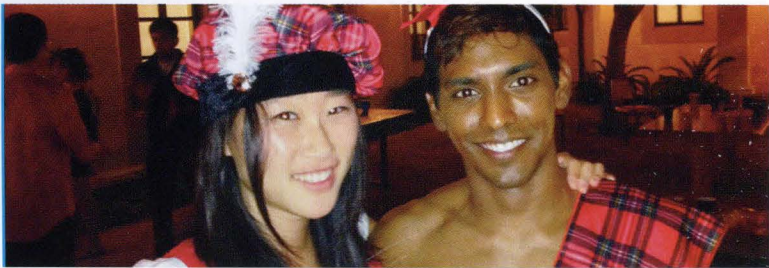

companied by stuffed animal moles holding signs that said "Happy Mole Day!", getting the entire campus in the spirit of celebrating. Starting around 3-4 AM, a group of about 10-12 students led by Julie Jester '14 met and began to work. 120 plush moles and 20 cubic meters of dirt were utilized to begin celebrations. Seven hours later, all of the moles had been planted, and Jaden Geller '17 leaped into the middle of the turtle pond to plant a mole. As Ellora Sarkar '16 said, this wondrous occasion is "to celebrate another nerdy number". It is a tradition at Caltech to celebrate mathematical and scientific ideas in truly fun ways-- just look at Pi Day! ■

PUMPKIN CARVING

HALLOWEEN

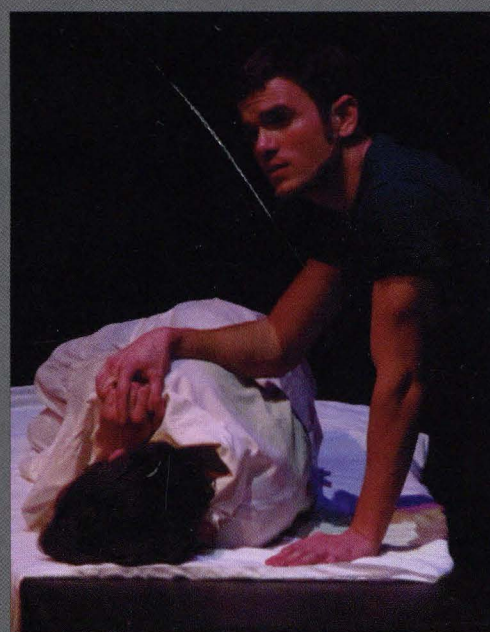

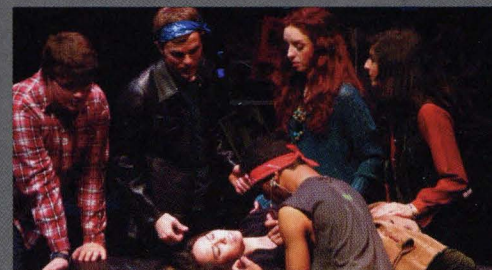

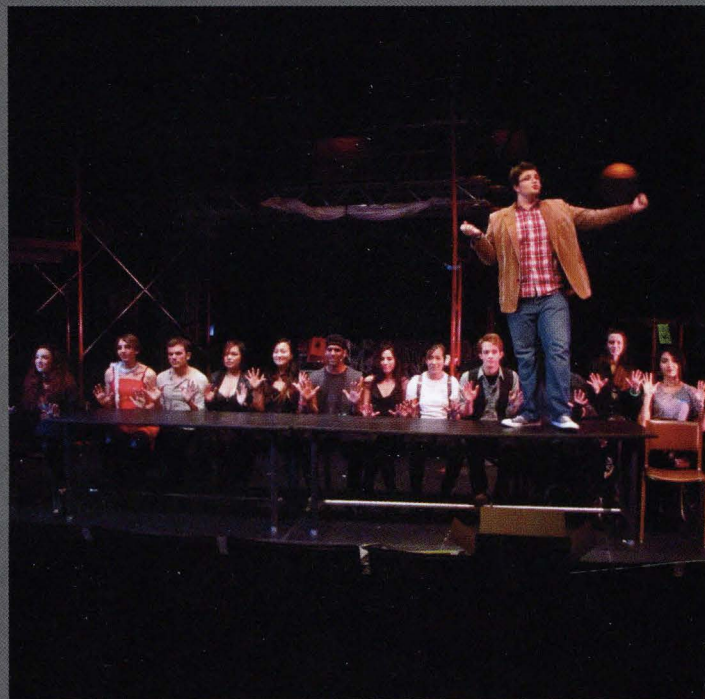

WALLPAPER CONCERT

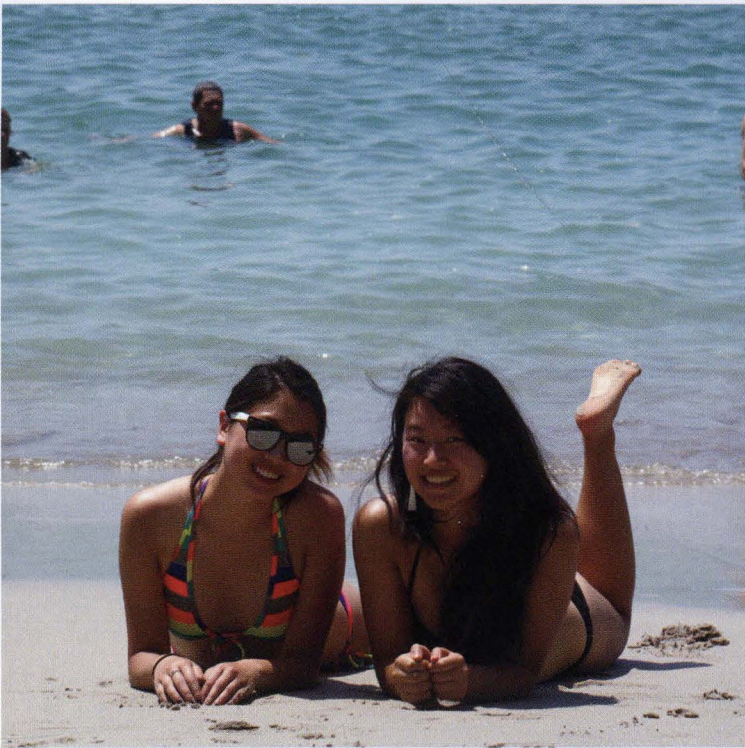

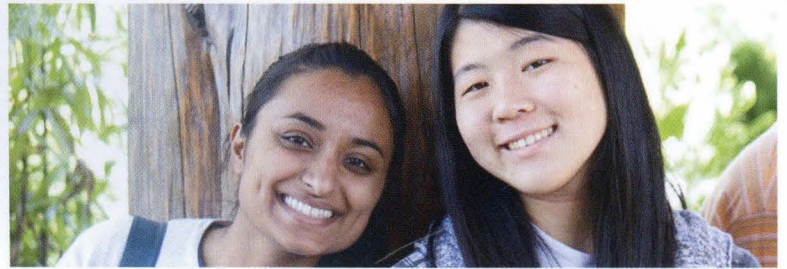

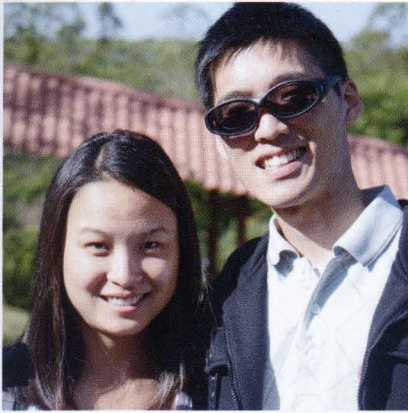

RENT

One of the first questions posed in the well-known musical *RENT* is “how do you measure the days in a life?” In seasons of love, of course! In late February, TACIT put on a production of *RENT*, which describes the lives of HIV-positive New Yorkers attempting to thrive as best they can. As Techers, we can definitely relate to trying to do well in a sometimes-hostile environment. That resonance might be why so many members of the Caltech community came out to see the production: over 800 tickets were sold. Caltech might be a small school, but the larger-than-life production required 2-3 hours of practice a day for 5-6 days a week in preparation. Peter Lommen, a freshman in Dabney

house, starred as the aspiring filmmaker Mark Cohen. Other Caltech undergraduates on stage included Rebecca Tang ‘16, Lucy Chen ‘17, Daniil Ilyin ‘17, Harrison Miller ‘15, and Daniel Gomez ‘16. Brian Brophy, a lecturer in Theater & Performing and Creative Arts at Caltech, produced the show; Brenda Varda directed the production. Jetson Leder-Luis, a Caltech senior, directed the music, featuring songs such as “Will you light my candle?” and “Tango Maureen.” Here’s to la vie bohème – “compassion, to fashion, to passion when it’s new; to Sontag, to Sondheim, to anything taboo” (and most importantly, dear Techer, to you!). ■

ALTERNATIVE SPRING BREAK

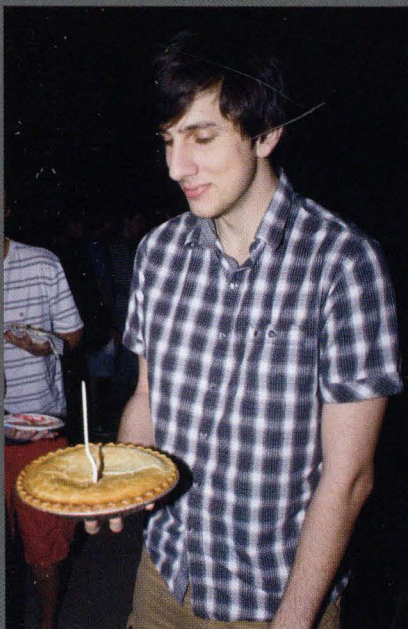

WINTER CARNIVAL

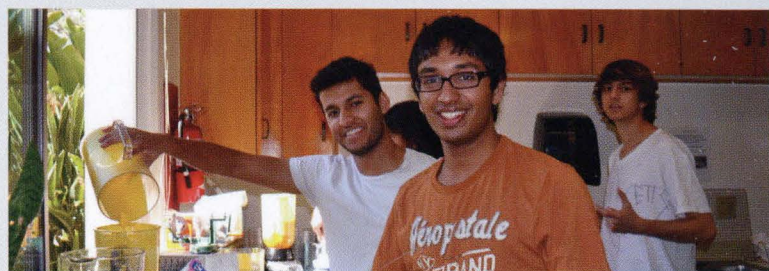

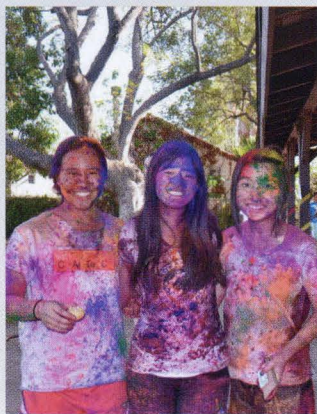

PI DAY

What better way is there to celebrate the glorious number pi than consuming mass amounts of pie at 3:14 AM? Pi day is loved by all students and faculty, but it raises an important question-- what exactly is pi? Well, to answer your question, pi is 3.14 1592653589793238462643383279 5028841971693993751058209749 4459230781640628620899862803 4825342117067982148086513282 306647093844609550582231725 3594081284811174502841027019 3852110555964462294895493038 1964428810975665933446128475 6482337867831652712019091456 4856692346034861045432664821 3393607260249141273724587006 6063155881748815209209628292 5409171536436789259036001133

HOLI

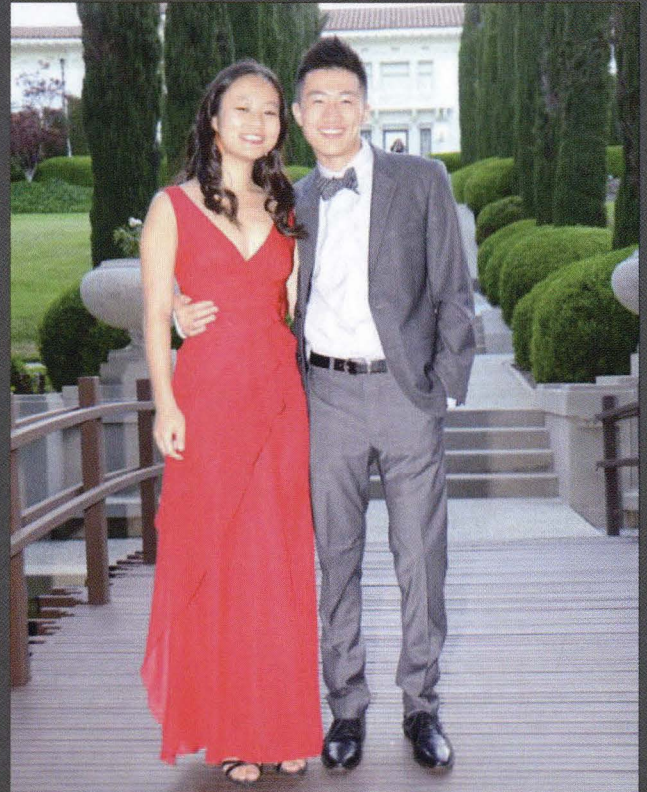

BE A KID AGAIN

ASCIT FORMAL

For those of us eager to party and dance while looking our best, ASCIT organizes and hosts ASCIT formal: a full-blown affair that allows girls to become princesses, guys to become Prince Charmings, and fanciness to flourish. Some girls band together and get ready, fixing hair and makeup, trying on dresses, doing nails, and shopping for perfectly matching shoes. Guys also dress up by donning tuxes, gelling back their hair, tying their ties, and getting prepared for a night to never forget. This year, the soiree was held at the Ambassador mansion. Transported to and from the formal via buses, guests had their picture taken almost immediately after entering and were all smiles before meeting up with friends and

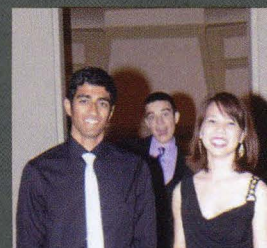

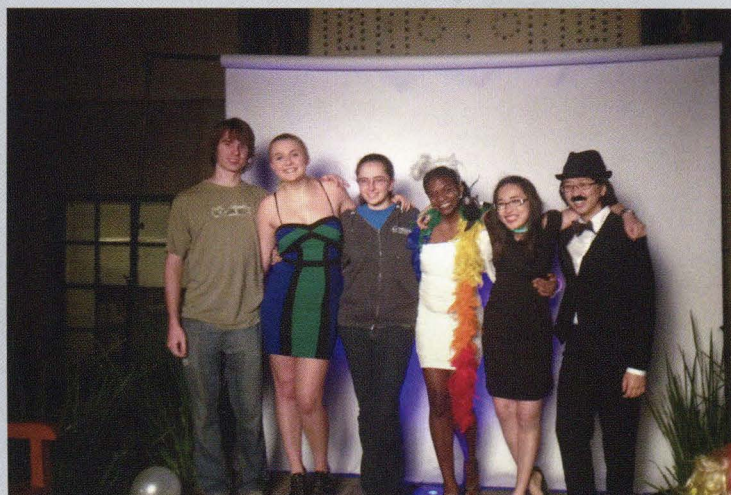

fist pumping the night away. In its own unique style, the party moved from garden to garden, bringing its guests with it; it was a “progressive party”. Towards the end of the night, the band and music headed indoors into the gorgeous mansion, where delicious food and drinks were served. All in all, the event had a really large turnout and was a huge success, thanks to the numerous hours of labor and ASCIT funding spent in preparation! Thanks to this formal, we are all left with wonderful memories and anticipation for the next formal. ■

GAYPRIL DRAG SHOW

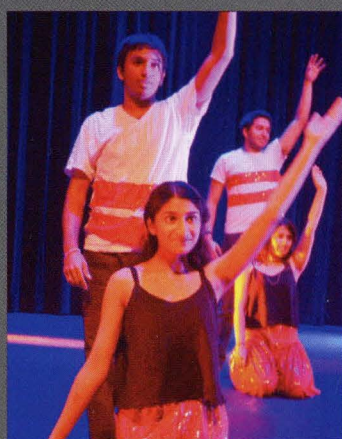

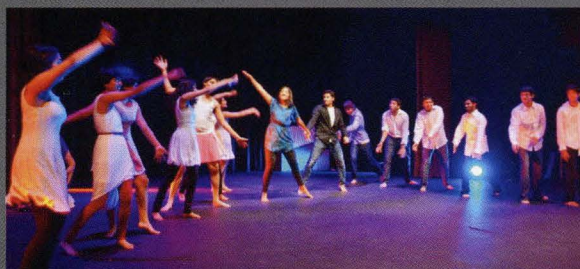

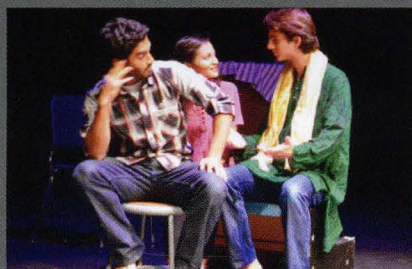

PRIDE PROM

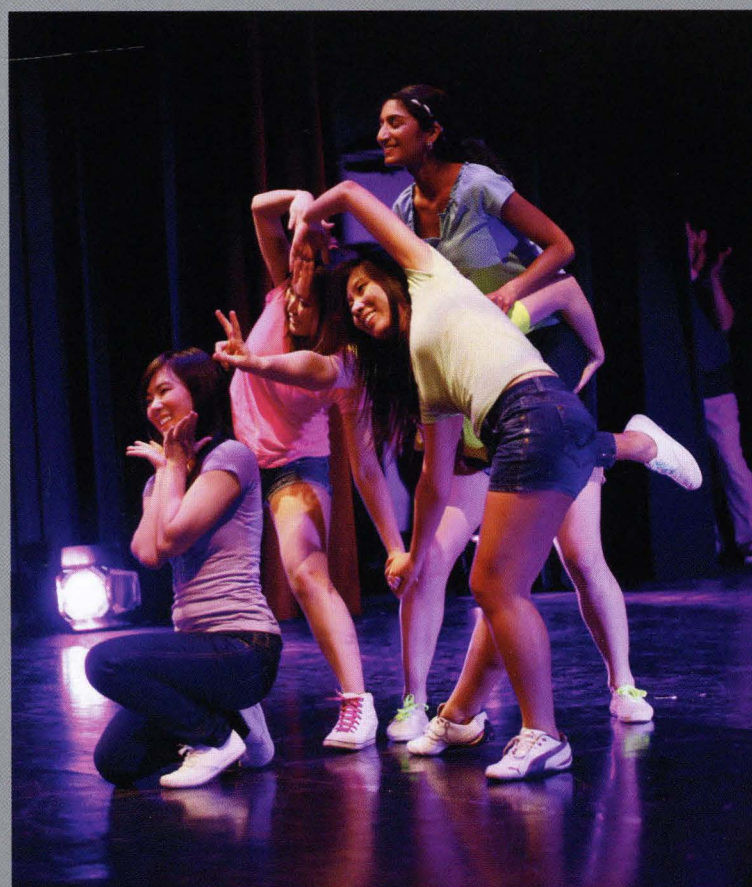

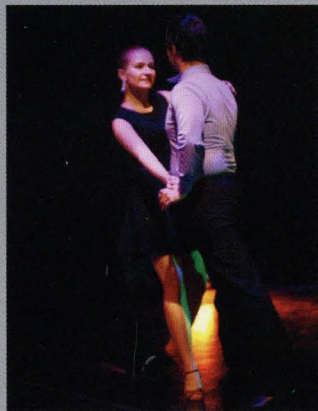

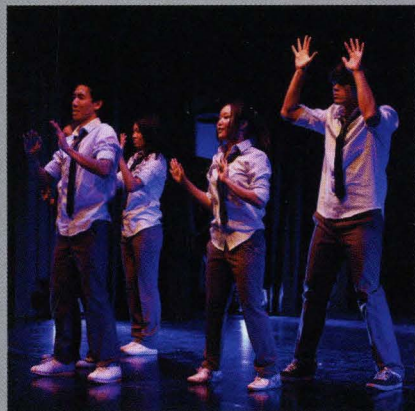

OASIS SHOW

We all need an oasis, whether it be music, dance, food, friends. An oasis might even take the form of a club on campus called OASIS, or the Organization of the Associated Students of the Indian Subcontinent. In OASIS, students try to preserve Indian culture on campus through events, dances, and celebrations (perhaps most importantly, the club provides Indian food for our consumption). One of the biggest events the club sponsored this year was the OASIS annual show; from traditional Indian prayers and classical music to a Bollywood-style skit about two sisters returning to India and finding love, Indian-American Caltech students found a way to share their heritage campus-wide

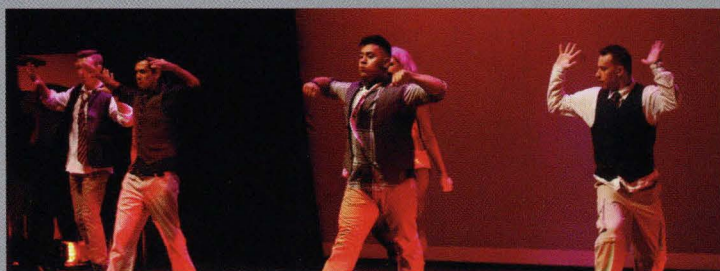

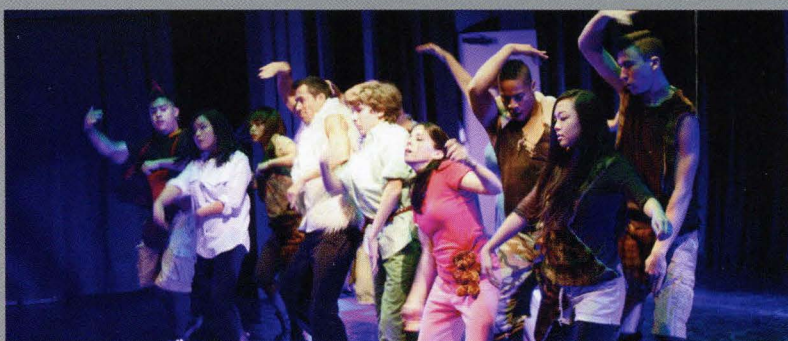

in a thoroughly entertaining way. Holi, the Indian festival of colors, signifies the return of spring and end of winter. Ellora Sarkar, a sophomore in Lloyd, was able to organize a holi-day to celebrate at Grant Park - colored powder was thrown all over and many white shirts were ruined during the festivities. Another huge aspect of Indian culture is dance. Throughout the year, OASIS sponsored many dance celebrations, where students around campus choreographed and performed dance numbers in classic Bollywood form. Maintaining tradition requires both adapting to the modern time and respectfully remembering. ■

DANCE SHOW

LOVE SUCKS + ACAPALOOZA + DYNAMIC EXPLOSION

DITCH DAY

Why are you awake and reading this? You should go to bed, because Ditch Day is tomorrow! So goes the saga of perhaps the most exciting day in a Caltech student's experience: Ditch Day, a fun-filled day where seniors ditch school and leave behind elaborate "stacks" that are composed of games, activities, food, bonding, and celebration. Admittedly, that's a lot of stuff to fit in a single day. Fortunately, seniors take it on themselves to create a "stack" that doesn't disappoint, featuring activities that range from jumping into the pool for clues to indoor skydiving. Lots of seniors view Ditch Day as a way to leave their mark on the school; the extremely individualized nature

of the day allows for creativity to bloom and for a legacy to grow. With the number of possibilities, all stacks are given the opportunity to be created equal.

Trisha Guchait, a senior from Fleming house, says "it feels pretty awesome to create something, to give back to the underclassmen and leave them with great memories."

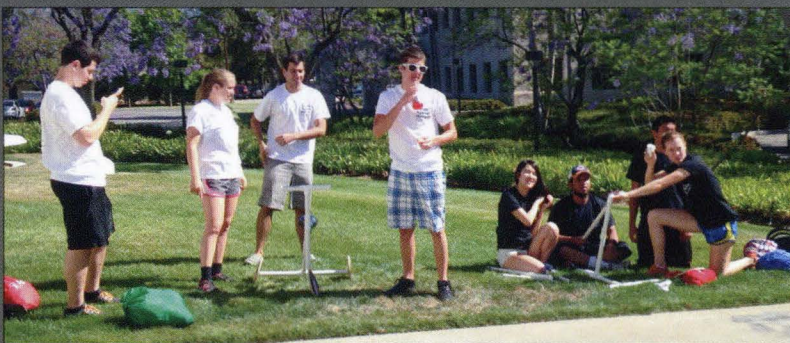

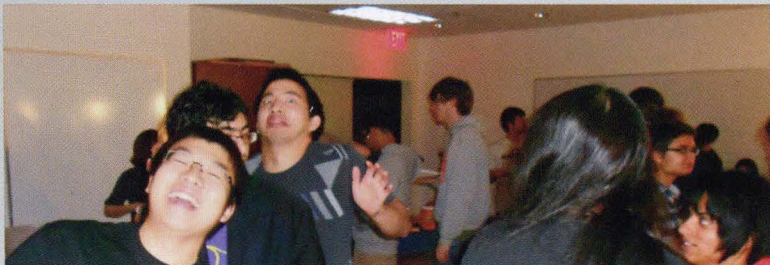

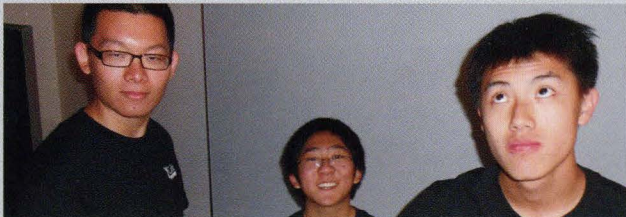

There are many reasons to love Ditch Day. Meghana Pagadala '16 claims that not having classes was the best part of Ditch Day; Monique Alkiewicz '16 loved spending those last few days with the graduating class. The timing of Ditch Day makes it a great time to thank the seniors for the hard work they put into Ditch Day, the memories they have created, and the friendships they have formed! ■

CALTECH Y

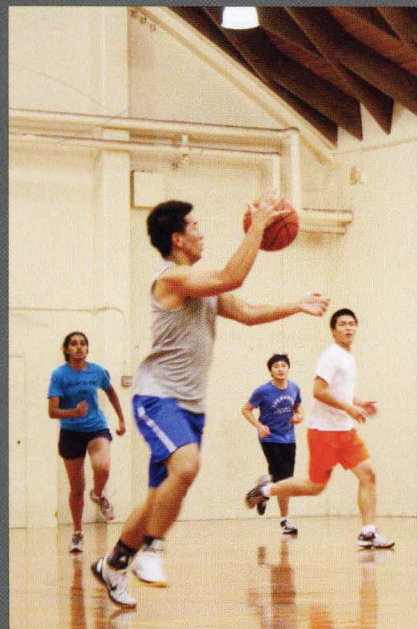

DECOMPRESSION

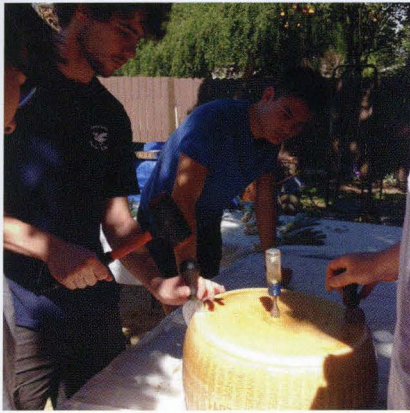

HOUSE SPORTS

The ancient Olympics in which each state valiantly fought for its name and honor united the city-states of ancient Greece. The equally skilled students at Caltech similarly defend the honor of their House, baring their colors and pride to fight for victory. Inter-house sports are an opportunity for bonding at several levels. Within the House, being part of an inter-house sport team is an opportunity to connect with other athletic members of the House. However, you don't have to be athletic to be part of the interhouse sport team. Many people just participate to take a break from a set, hang out with friends, or take a much needed walk to the far gym. Once at the game, there is no stopping

the fun and competition that bring the Houses together. Great friendships have been made through interhouse sports, and in that way, every House has won something. In terms of actually winning games, Fleming House reigned victorious in interhouse athletics this past year. It was only through their constant participation, teamwork, and insurmountable skill that they were able to come home as champions. Congrats Fleming House! Next year the competition should only get more intense, more crazy, and more fun. ■

a page for a day of a year in

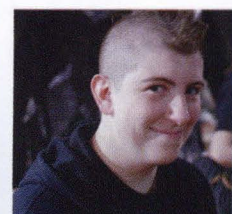

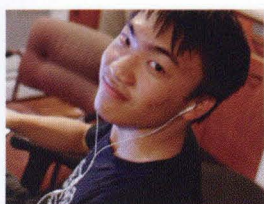

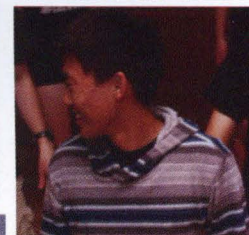

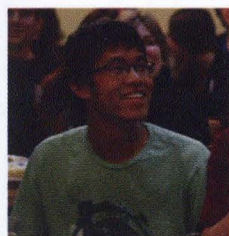

You hear a knock on your door. "Push!" you yell grumpily from your bed. You hear someone enter and leave before falling back asleep. When you regain consciousness a few hours later, you find breakfast in bed on your desk. A thought pops into your head as you eat: *Man. Picard, Andrew, Jeffro, and Emily^[1] are awesome.* ~ You make your way to the lounge. You pass the library and see Margaret, Talia, and Angie^[2] sorting through piles upon piles of books. *That place'll never stay clean,* you think. But you're happy that someone cares. On the wall, you see a sheet of paper. It's the result of Calli and Melissa's^[3] latest Alley Ordering. You glance at it before moving on. ~ In the courtyard, you stop and see a gravity well. One of the frosh talks excitedly. "Eric^[4] said that we could buy a helicopter if we find one for cheap enough." A few of the others eye her sheepishly. "C'mon guys, it's totally a great idea." Leslie^[5], sassy and quick, chimes in. "You know what would happen if the house had a helicopter? Someone, probably me, would hijack the helicopter and start shooting rockets at everyone." ~ The sound of the miter saw catches your attention. You turn, seeing Andre, Alex, and Talia^[6] as they work to fix one of the rarely kept nice things around the house. Eventually, you make your way to the lounge. While entering, you notice Keegan^[7] doing something completely innocuous. Nearby, Bella and Kate^[8] sit tired, as if they've had an unusually long day of work. As you relax on the couch, you check your

phone. There's an email from Justin^[9]. *Another small, proactive success,* you think while reading the email. *This is nice.* ~ The curtains to the dining hall open. It's dinnertime. While you pass one of the tables, you hear Alex^[10] attempting to rally people for an athletics event. "But exercise takes work!" someone complains. The kid's got a tough crowd, but you can't deny he's a trooper. As you sit, Harrison^[11] and Nima^[12] walk in, chattering loudly. A sad smore yells at them. "Fix ACM 95c, Harrison and Nima!" "Yeah, yeah, we're on it," one of them replies. It's another normal dinner. ~ The mugs ring. The call for announcements (and dancing, and magic tricks) is made. At some point, some subset of Moya, Iulia, Calli, Yanwen, Bella, Kit, and Jessica^[13] (you can't forget Jessica) get up with their cameras. You're a little confused at first, but then Jeffro (with his purple suit) and Kerry^[14] walk in. *Ah. It's time for a titillating sermon.* ~ A few more hours past. You notice as the sun sets... and again as it rises. It's not until after the Ride plays, after you have greeted the other late sleepers and early wakers, that you decide to head up to bed. You know you will only have a finite number of days in this place, and despite the stress, despite the pain that is Caltech, you can't help but to think -- today was a good day. 8 games for the Airbenders

20% of Techers bike to work

CALTECH AIRBENDERS

The Women's Soccer Club, a.k.a. the Caltech Airbenders, is the all women's team drawn from the Caltech community, playing in 7 v. 7 games with Pasadena Adult Soccer League.

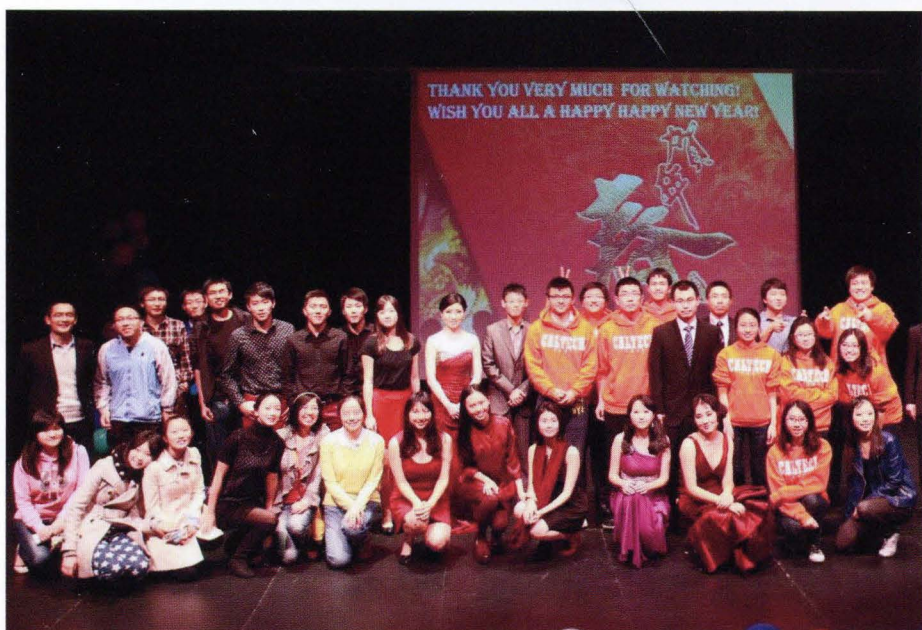

FRONT ROW. Clarmyra Hayes, Amanda Shelton, Trisha Roberson, Margaux Lopez **BACK ROW.** Marcella Gomez, Aileen Cheng, Giuliana Viglione, Jamie Rankin.

CALTECH BIKE LAB

Caltech Bike Lab is a bike cooperative run by volunteers at Caltech. The club teaches the Caltech community how to fix/maintain bikes, organizes classes on how to ride safely in the streets, hosts fun rides, teaches classes on bike repair, and participates in local Pasadena/LA bike community outreach to try to make the streets safer for everyone.

President: Daven Quinn **Vice President:** Jeff Prancevic **Treasurer:** Luca Malatesta **Secretary:** Margaret Ho **Shop Upkeep/Inventory:** Jeff Prancevic **Class Coordinator:** Jonathan Murphy **Rides Coordinator:** Daven Quinn **Current Office Hour Volunteers:** Ari Weinstein, Leon Mualem, Luca Malatesta, Jeff Prancevic, Margaret Ho, Sho Takatori, Chris McKenney, Reeve Dunne, Natalie Becerra, Jon Kindem.

CALTECH C Since 1985, the Caltech Chinese Association (Caltech C) has served generations of Chinese budding scientists at Caltech/JPL while promoting interaction and cultural exchange in the Caltech community at large.

PICTURED: Hang Yu, Haojiang Zhou, Wen Yan, Niangjun Chen, Shengxuan Ye, Taokun Zheng, Qiong Zhang, Shupin Mao, Danlei Yang, Lu Pan, Xiaoyue Ni, Dezhou Guo, Qin Chen, Shuai Wang, Yapeng Su, Peter Gao, Chen Zhang, Jun Chen, Yuling Zhang, Hao Zhang, Siying Peng, Dan Zhou, Jiyun Xiao, Wen Zhou, Pengchuang Zhang, Pengfei Liu.

3 colors of belts in SKA

5 performances for Dhamaka

CALTECH KARATE

The Caltech Karate Club, founded by Mr. Tsutomu Ohshima in 1957, is the 1st university karate club in the USA. Mr. Ohshima is widely regarded as one of the top Karate masters in the world. He was on the Caltech faculty for 37 years and directly taught those who now serve as the Club's teachers. The club organizes 3 practices per week.

PICTURED: Robert Johnson, Stephanie Tsuei, David Berry, Matthieu Clog, Charles Miller, Raffi Massabki, Derek Yee, Sijia Dong, Chris Finch.

NOT PICTURED: Michael Bateman, Ellen Price, Qunchao Sun, Ousmane Sy.

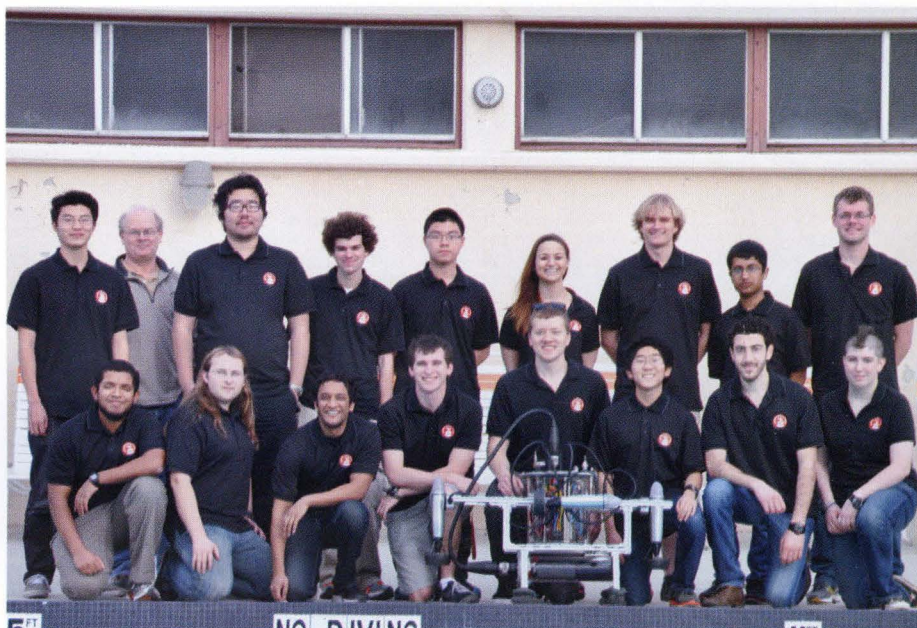

CALTECH ROBOTICS TEAM

The Caltech Robotics Team is a group of 30 undergraduates that has been working on an AUV named "Bruce" for the RoboSub competition in July 2014 over the past year.

FRONT ROW. Basith Fahumy, Greg Izatt, Srinivasa Bhattaru, David Flicker, Justin Koch, Tyler Okamoto, Torkom Pailevanian, Juliana Kew.

BACK ROW. Solomon Chang, Joel Burdick, Xi Xu, Edward Fouad, Chenchao Shou, Erin Evans, Michael Jenson, Kushal Agarwal, Jeff Picard.

DHAMAKA Dhamaka is Caltech's premier Bollywood Dance Team. From classical to hip hop to Bollywood, these dancers do it all. Members of Dhamaka are known for their strength, spunk, sass, and class.

FRONT ROW. Aashrita Mangu, Suchita Nety, Meera Reghunathan, Ellora Sarkar, Meghana Pagadala, Sumana Mahata, Anjali Premkumar.

BACK ROW. Anirudh Neti, Sarthak Sahu, Anand Poozhikunnel, Chinmay Nirkhe, Avishek Dutta, Nand Kishore, Ritwik Anand.

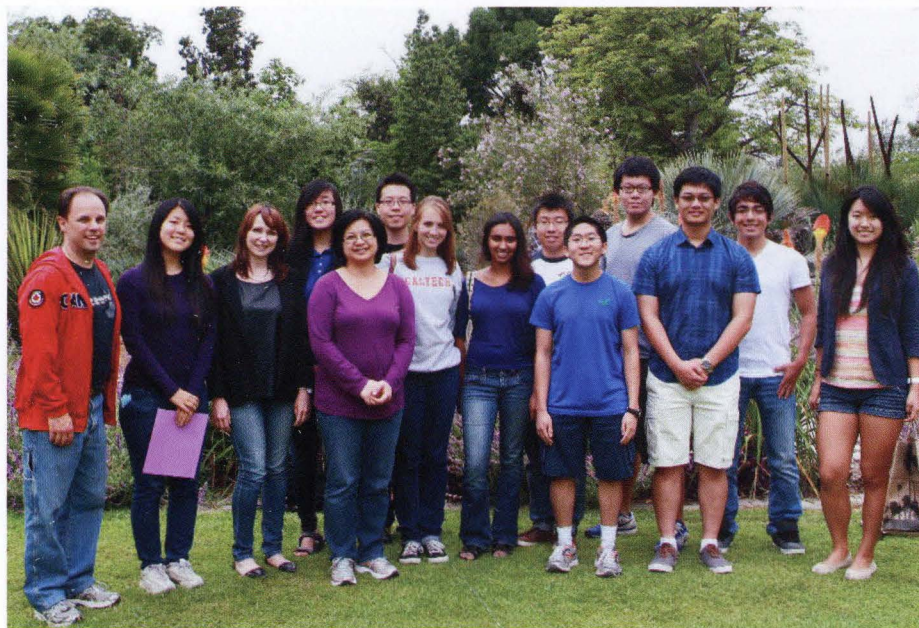

150 + volunteers for MADD

9 members of BoD

ASCIT BOD The main body of undergraduate student government is ASCIT, the Associated Students of the California Institute of Technology. ASCIT is governed by the nine elected members of the Board of Directors (BoD). The Directors set the budget, discuss and act on student concerns and issues, and represent the undergraduates to the faculty, administration, and other groups.

PICTURED: Connie Hsueh (Director of Operations), Monica Enlow (Treasurer), Michelle Tang (Social Director), Catherine Jamshidi (Secretary), Connor Coley (IHC Chair). **NOT PICTURED:** Malvika Verma (ARC Chair), Zach Rivkin (President)

CALTECH Y The Y enriches student life and challenges students to grow into responsible citizens. Founded in 1916, it seeks to broaden students' worldviews, raise social, ethical, and cultural awareness through teamwork, community engagement, activism, and leadership. Popular programs include Make a Difference Day, Alternative Spring Break, and Decompression.

PICTURED: Greg Fletcher (staff), Aileen Cheng ('16), Liz Jackman (staff), Wen Min Chen ('15), Athena Castro (staff), Peter Hung (Grad), Karsyn Bailey ('15), Aleena Patel ('15), Max Wang ('15), Tyler Okamoto ('17), Nelson Chou ('17), Anthony Chen ('14), Matthew Cedeno ('16), Phoebe Ann ('15). **NOT PICTURED:** Laura Santoso, Caroline Yu, Jocelyn Kishi, Jessica Yeung, Christine Chou, Xiaomi Du.

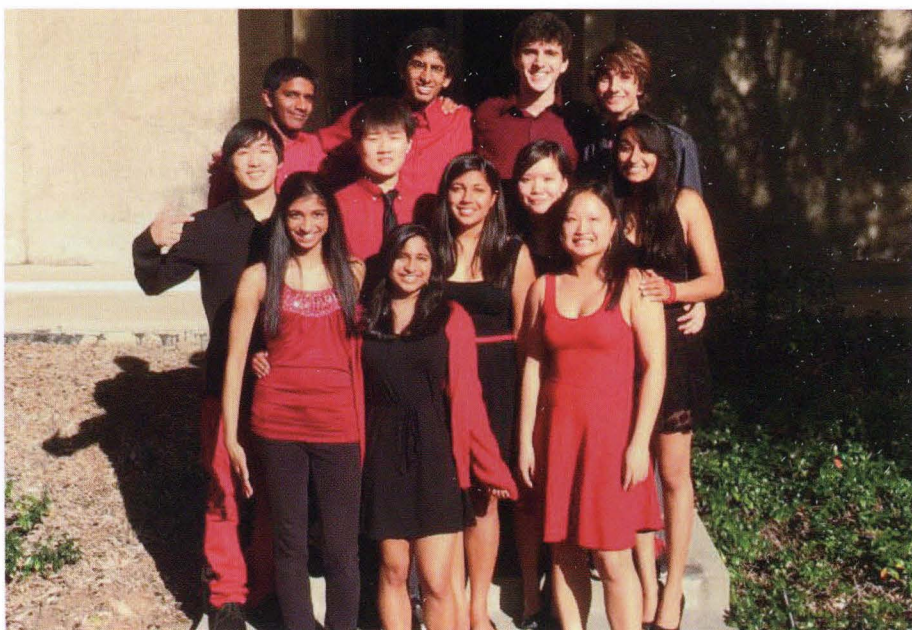

KEYTONES The Keytones are Caltech's only all-male a cappella group. They sing a mix of songs including pop, rock, doo-wop, and barbershop.

BACK ROW. Demetris Drakos, Matthew Dughi, Sirus Han, David Ding, Benjamin Cosman. **FRONT ROW.** Jalani Williams, Daniil Ilyin, Aniruddha Bapat, Jonathan Liu, Harrison Miller.

OUT OF CONTEXT

Out of Context is the oldest co-ed a cappella group at Caltech consisting of graduate and undergraduate students. They perform at various venues both at and away from Caltech. Their repertoire includes Ain't No Sunshine, Caltech Girl, Inside Out, Insomniac, Love Story, Mad About You, No Surprises, Oh Darling, Semi-Charmed Life, Shambala, Sk8er Boi, Still Alive, and more.

FRONT ROW. Anjali Premkumar, Ruchi Jahagirdar, Shalini Majumdar, Melissa Zhang. **SECOND ROW.** Eric Liu, James Lu, Linda Chio, Lasya Marla. **BACK ROW.** Vasant Iyer, Krishnan Chander, Ben Lieber, Daniel Gomez. **NOT PICTURED.** Gemma Mason, Kun Ho Kim, Gandalf Saxe.

FLUID DYNAMICS

Sometimes, Caltech's Fluid Dynamics builds rocket ships. Sometimes they build awesome laser guns! Sometimes, they just sit in front of whiteboards all day because Science is a cruel mistress. To escape from the clutches of Science, Fluid Dynamics sings. Check them out at www.fdacappella.com for videos and news updates!

MEMBERS. Kelvin Bates (Co-director, tenor), Jetson Leder-Luis (Co-director, baritone), Not Kevin Young (Business manager, tenor), Juliet Su (Business manager, mezzo), Alina Hwang (soprano), Casey Handmer (bass), Roel Rodriguez (bass), Peter Lommen (tenor), Graham Schmidt (tenor), Will Dooris (bass), Emily Partridge (alto), Catherine Pavlov (mezzo), Sanji Dewan (soprano), Jeff Sherman (tenor).

SWE

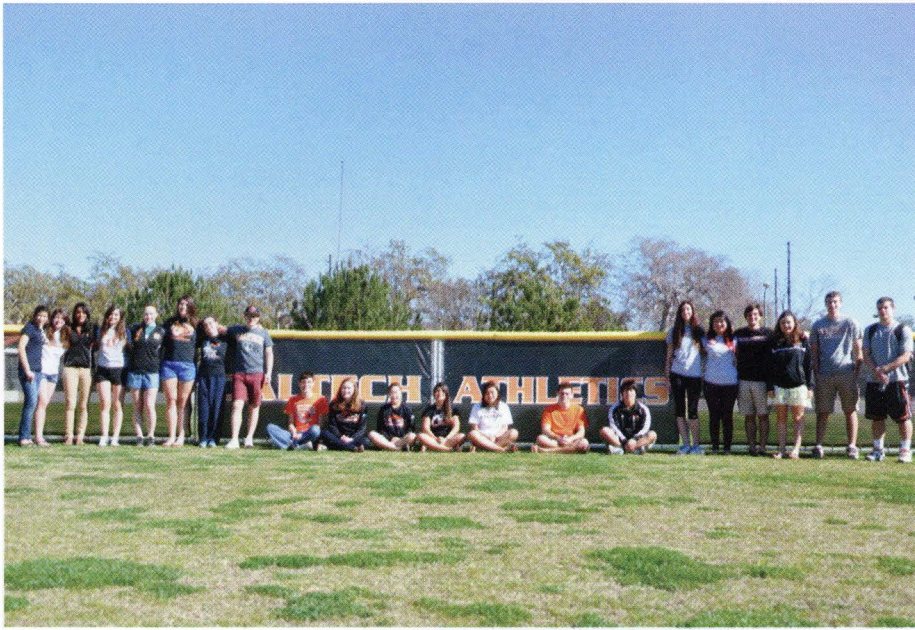

SWE promotes and supports women in engineering with outreach and professional development events, ranging from local to national, including dinners with professors, Dress for Success events, community outreach, receptions with industry (coinciding with the Career Fair), workshops, speakers, monthly meetings and more.

PICTURED: Kiara Simpao, Liz Beaver, Ratnalekha Viswanadham, Malvika Verma, Jacqueline Maslyn, Kayane Dingilian, Puikui Cheng, Hannah Walsh, Samriddhi Sharma, Allika Walvekar, Bhavana Rao, Meera Kumar, Deeksha Agrawal. **NOT PICTURED:** Moriah Bischann, Katherine Lai, Theresa Lee, Doreen Chan, Kelsey Spaur, Jen Caseres, Kexin Rong, Jessica Yeung, Nancy Wen, Samantha Piskiewicz, Connie Wang.

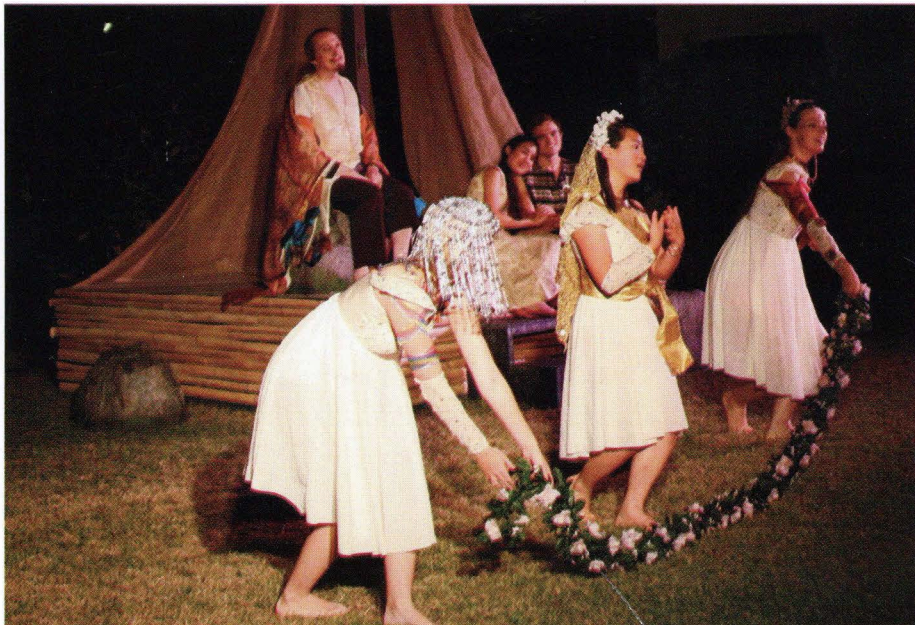

4 shows for EXPLiCIT per year

1 SAAC event per sport

SAAC The Student-Athlete Advisory Committee's purpose as a club is to increase visibility of intercollegiate athletics to the greater Caltech community as well as encourage community support in athletics.

MEMBERS. Parul Pubbi, Kelsey Spaur, Soumya Kannan, Alice Michel, Marlyn Moore, Paige Logan, Jon Schor, CJ Culpepper, Kristin Anderson, Esther Du, Valerie Pietrasz, Monica Li, Matt Lappin, Michael Zhang, Cat Jamshidi, Amy Hu, Marec Serlin, Alex Ilic, Albie Lavin, Bryan Joel.

EXPLiCIT Extracurricular Players at CIT works to foster involvement in theater, and to expand the application of theater across disciplines. We organize outings to local theatrical productions, have movie nights, aid TACIT on the winter musical, and produce a summer show (The Tempest, left).

MEMBERS. Allison Penn, Andre Ramos, Angela Gui, Bolton Bailey, Chinmay Nirkhe, Chris Dosen, Clake Esmerian, Dan Ilyin, Daniel Gomez, Edward Fouad, Elizabeth Ryan, Elizabeth Terlinden, Evan Davis, Harrison Miller, Jetson Leder-Luis, John Li, Juan Diego Palamino, Juliet Ye Su, Klavdia Zemlainova, Li Gu, Lilly Luo, Lucy Chen, Mary Do, Nikhita Poole, Pallavi, Peter Lommen, Raj Katti, Rebecca Tang, Sean McKenna, Stella Wang, Stone Jiang, Tara Henry, Zofii Kaczmarek.

ESW Engineers for a Sustainable World (ESW) works on projects related to sustainability and attends seminars such as the ESW National Conference. This year we built an RC controlled boat made from recycled materials and regularly held food waste audits in each house. We found that each day the houses combined produced more than 100 lb of food and hope to use this information to start a food donation program.

MEMBERS. Zofii Kaczmarek, Hima Hassenruck-Gudipati, Aaron Krupp, Jean-Alexandre Turban, Andrew, Lucas, Michael Grappone. **NOT PICTURED.** Aleena Patel, Josie Kishi, Catherine Pavlov.

IEEE IEEE Caltech strives to provide its members and the Electrical Engineering undergraduate population with opportunities beyond those offered in the classroom through announcements of opportunities and events where undergraduates and professors can build relationships in a more casual setting.

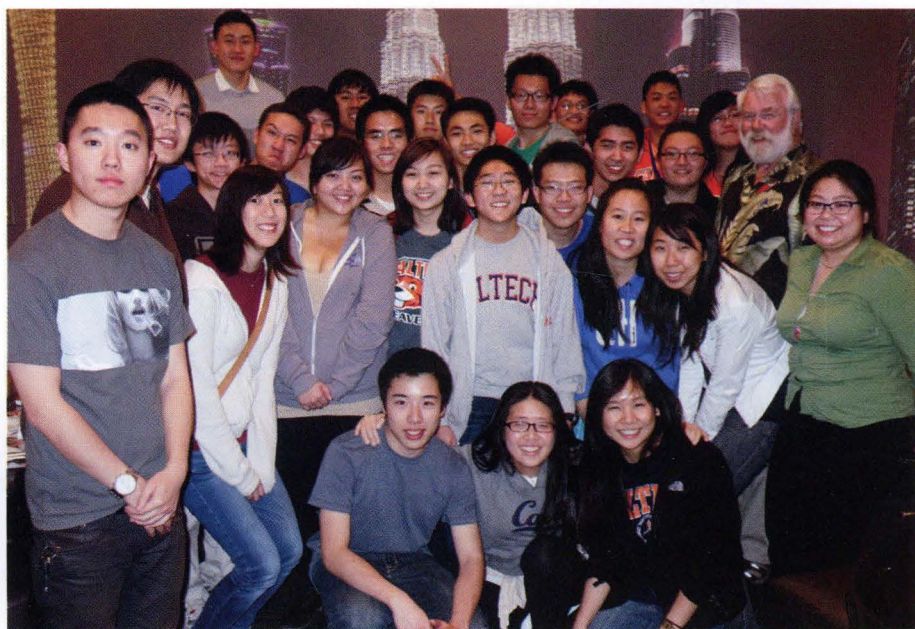

MEMBERS. Oliver Chen, Matt Conroy, Katherine Lai, Do Hee Kim, Matt Klucher, Angad Rekhi. **NOT PICTURED.** Aashrita Mangu.

CALTECH SCIENCE OLYMPIAD

The Science Olympiad club provides education outreach opportunities for members to help out with local Science Olympiad competitions as well as professional development opportunities to present at workshops.

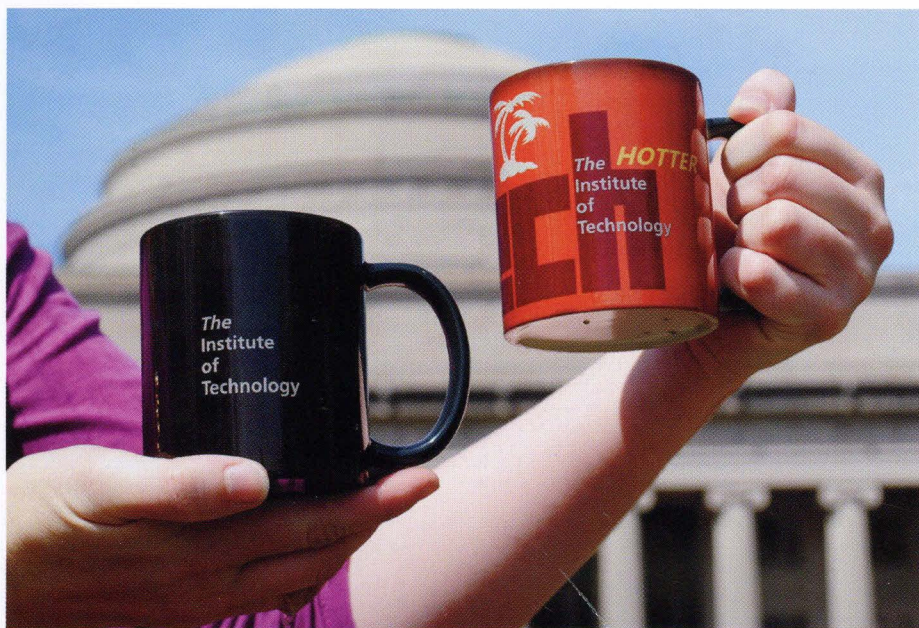

MEMBERS. Kushal Agarwal, Curie Ahn, Jeffrey An, Andy Bartlett, Joseph Berleant, Marcus Bintz, Sean Cao, Tracey Chan, Anthony Chen, Chien-Chang Chen, David Chen, Kevin Chen, Aileen Cheng, Nelson Chou, Anne Christian, John Christian, Sarah Del Ciello, David Ding, Sith Domrongkitchaiporn, Nick Dou, Rebecca Du, Isaac Fees, Betsy Fu, Amanda Gao, Chris Gardner, Angela Gong, Jeff Han, Casey Handmer, Jacob Hedelius, Kun Ho Kim, Stephanie Hong, Jessica Hsu, Rebecca Hu, Kenneth Hung, Peter Hung, Vasant Iyer, Julie Jester, Sean Keenan, Emil Khabiboulline, Ian Koss, Neil Kumar, Jessica Lam, Justin Leong, Jarvis Li, Lauren Li, Dennis Liao, Cindy Lin, Daisy Lin, Audrey Liu, Kimberly Liu, Daniil Lukin, Sumana Mahata, Chanukya Malla, Nailen Matschke, Blaine Matulevich, Emily Mazo, Wen Min Chen, Stephanie Moon, Xinyi Nan, Minh Nhat Le, Richard Norte, Tyler Okamoto, Bryce Oyang, Mike Qian, Gerri Roberts, Roel Rodriguez, Chris Roh, Mehmet Sencan, Neera Shah, Nehaly Shah, Jingwei Shi, Judy Shon, Emma Shupper, Julia Su, Alison Tan, Dylan Tozier, Ben Wang, Connie Wang, Melissa Wang, Michelle Wang, Stella Wang, Nick Weadock, Michelle Wong, Tina Xu, Cassidy Yang, Jessica Yeung, Patrick Yiu, Caroline Yu, Kristie Yu, Patrick Yu, Will Yu, Tony Zhang, Frank Zhou.

PRANK CLUB Prank Club's major event this year was the MIT prank. 13 members of Prank Club flew to Massachusetts in preparation for MIT's Campus Preview Weekend (CPW). Their mission: prove which institute is hot and which one is not. Their arsenal: 800 heat sensitive mugs that at first read "MIT The Institute of Technology" but under the influence of heat change to read "CALTECH The Hotter Institute of Technology."

FRONT ROW. Christina Meyer, Talia Minear, Gregory Izatt, Jesse Salomon, Nicholas Schiefer, Samantha Piskiewicz, Julia Jester, Grace Park. **BACK ROW.** Justin Koch, Michael Jenson, Jeffrey Picard, Jeffrey Rosenberg, Brandon Robinson.

Techers handed out the mugs to unsuspecting prefrash right outside of CPW's formal welcome event. However, the Caltech students were told they would need to stop handing out mugs unless they could prove they were a registered event. Prank Club President, Julie Jester stalled the admissions staff for 20 minutes with a fake story that their event was registered through the MIT Alumni Association. Jester called up Tom Mannion and casually asked him for the name of the official who sanctioned the mugs. Initially confused by the abrupt call, Mannion pulled through by questioning his class for a name of a member of MIT's Alumni Association. Despite MIT's best efforts, Caltech's prank went through beautifully.

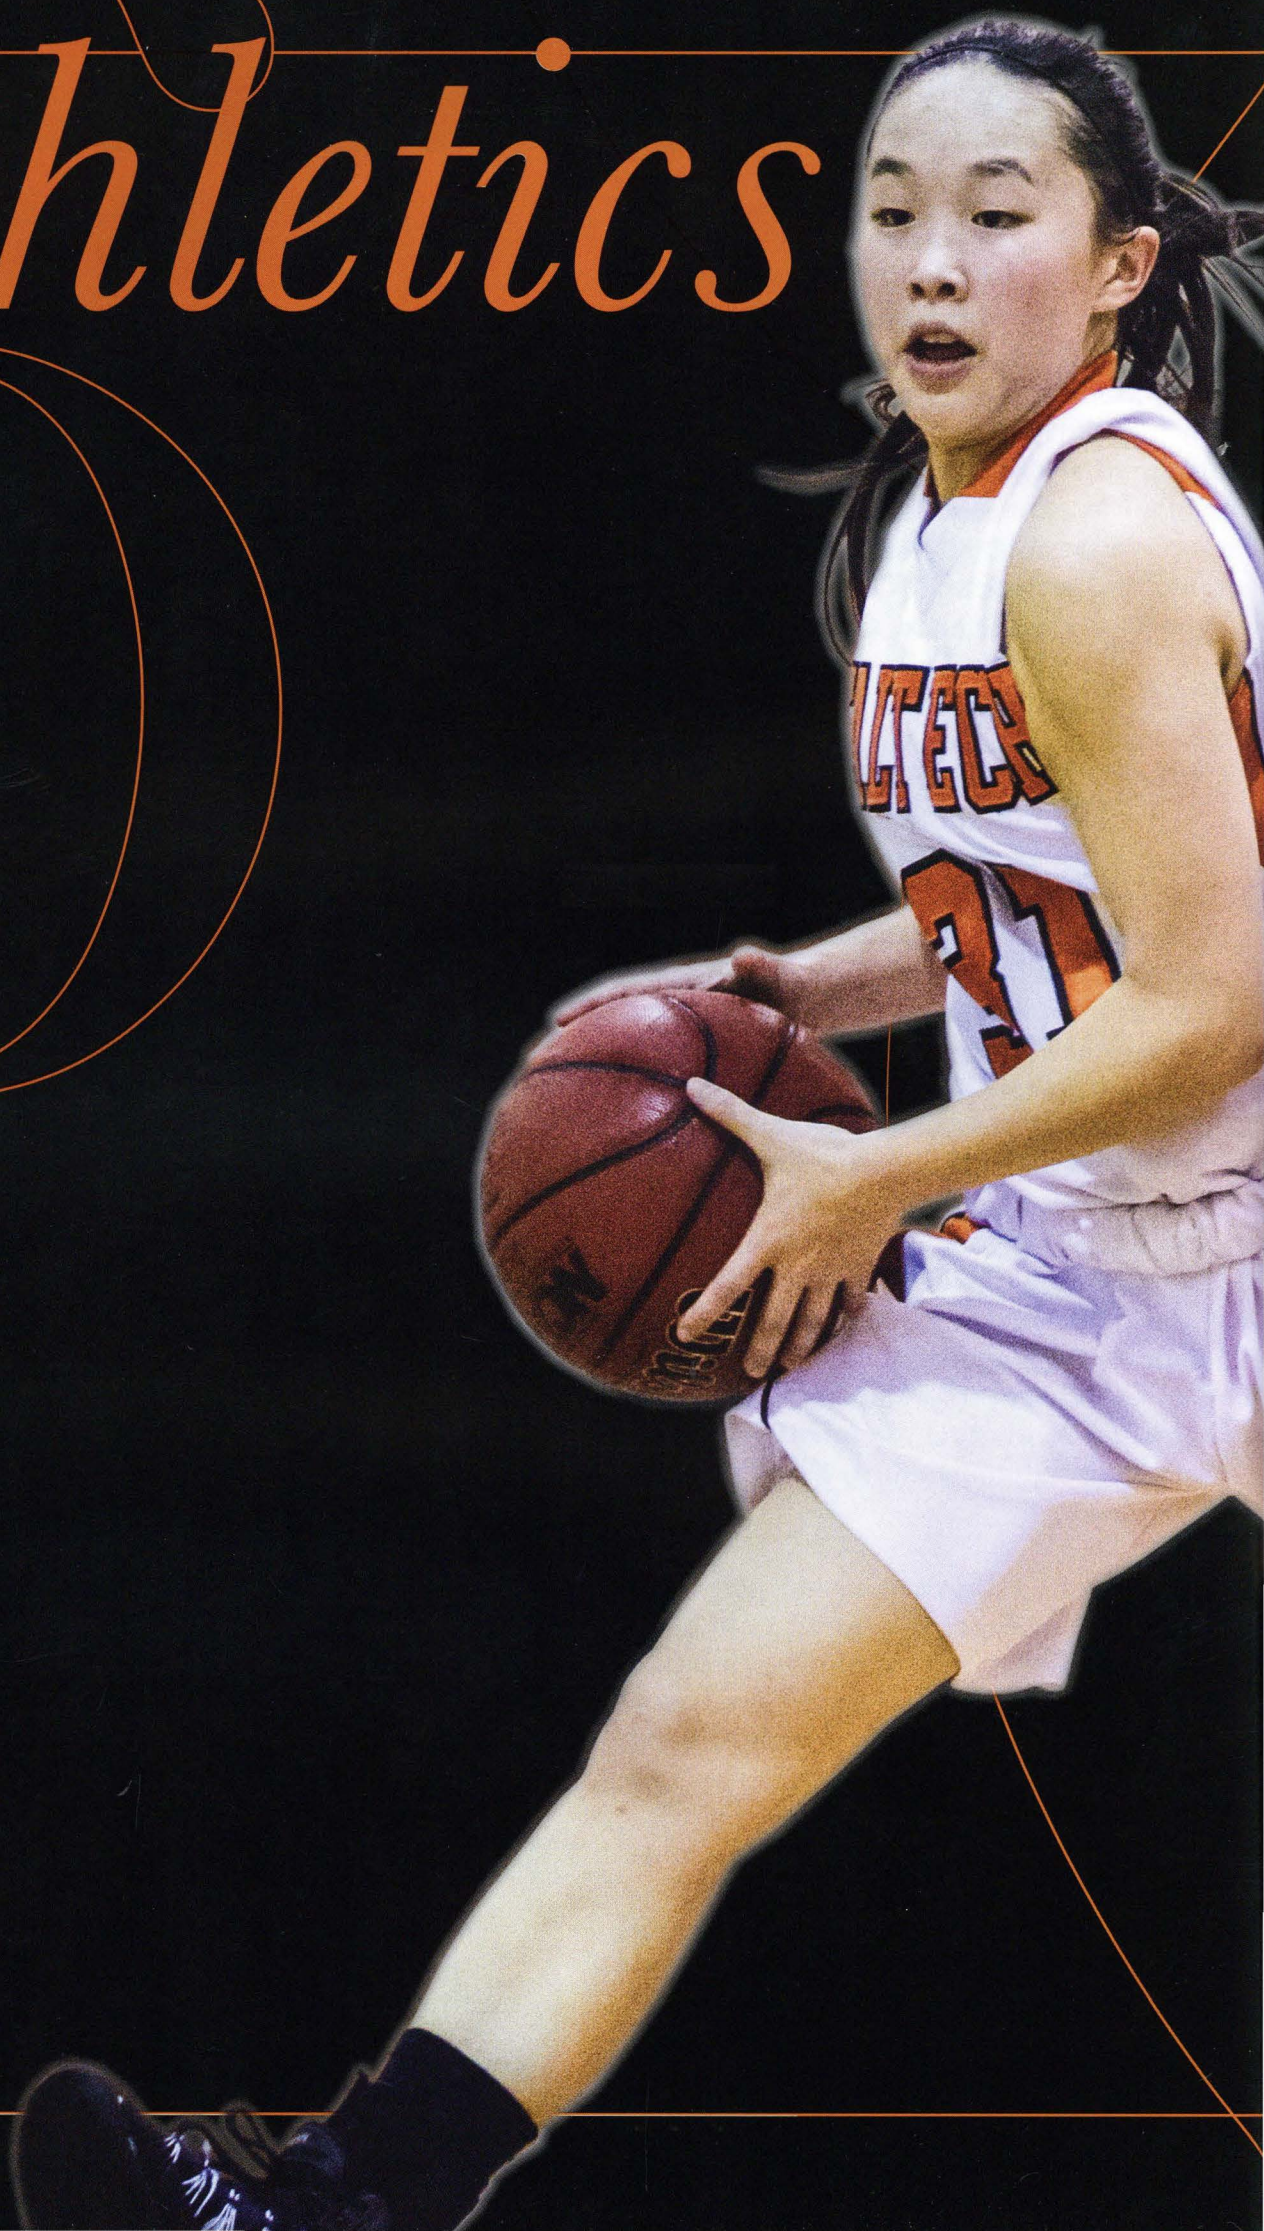

Earlier that year, Prank Club also organized the pranking of the Bowl Championship Series national title game at the Rose Bowl. Under cover of darkness, a group of Caltech students posted a 2,000 square-foot sign that spelled out Pasadena with letters 20 feet tall and 12 feet wide. The letters are in the uneven fashion identical to the world-famous Hollywood sign. Just before halftime, 6,300 orange lights illuminated the Pasadena sign to transform it to the word Caltech. This prank pays tribute to the old Hollywood and Rose Bowl pranks.

CLUBS NOT PICTURED

Academic and Research Committee (ARC), Active Minds at Caltech, Biology Undergraduate Student Advisory Committee, Black Ladies Association of Caltech, Black Students of the California Institute of Technology (BSCIT), Bridges at Caltech, CHMMC Management Club, Caltech Alpine Club, Caltech American Institute of Chemical Engineers (AIChE), Caltech Anime Society, Caltech Badminton Club, Caltech Ballet Club, Caltech Ballroom Dance Club, Caltech Bridge Club, Caltech Chemistry Club, Caltech Chess Club, Caltech Chinese Student Association (CCSA), Caltech Christian Fellowship (CCF), Caltech Club for Computer Science, Caltech Co-Ed Volleyball Club, Caltech Cricket Club, Caltech Dance Show Club, Caltech Dance Team, Caltech Dance Troupe, Caltech Entrepreneurship Club, Caltech Fencing Club, Caltech InnoWorks, Caltech Juggling Club, Caltech Korean Student Association, Caltech Lacrosse Club, Caltech Latino Association of Students in Engineering and Sciences (CLASES), Caltech Latter-Day Saint Student Association, Caltech League of Legends Club, Caltech Newman Center, Caltech Premedical Association (CPMA), Caltech Russian Club, Caltech Tai Chi Club, Caltech Tango Club, Caltech Triathlon Club, Caltech Ultimate Frisbee Club, Caltech Wine Club, Caltech Women's Softball Club, Club Latino, Conduct Review Committee (CRC), Corazon de Vida, Dance Dance Revolution Club, Engineers Without Borders Caltech Chapter, French Club, Hillel, InterAxon, Italian Club, Korean Campus Crusade for Christ (KCCC), Life Christian Fellowship, Magic: the Gathering Club, Muslim Student Association, Nerf Club, OASIS, Orienteering Club, PRISM, Photography Club, Physics Club, Puzzle Club, Quiz Bowl, Robogals, Rubik's Cube Club, S.P.E.C.T.R.E., Science & Engineering Policy at Caltech (SEPAC), Singapore Students Society (S³), Strategy Games Club, Strong Ales Club, Student Investment Fund (SIF), Students for the Exploration and Development of Space (SEDS), Techers for a Sustainable Future (TSF), The Feminist Club, The Injera Club

athletics

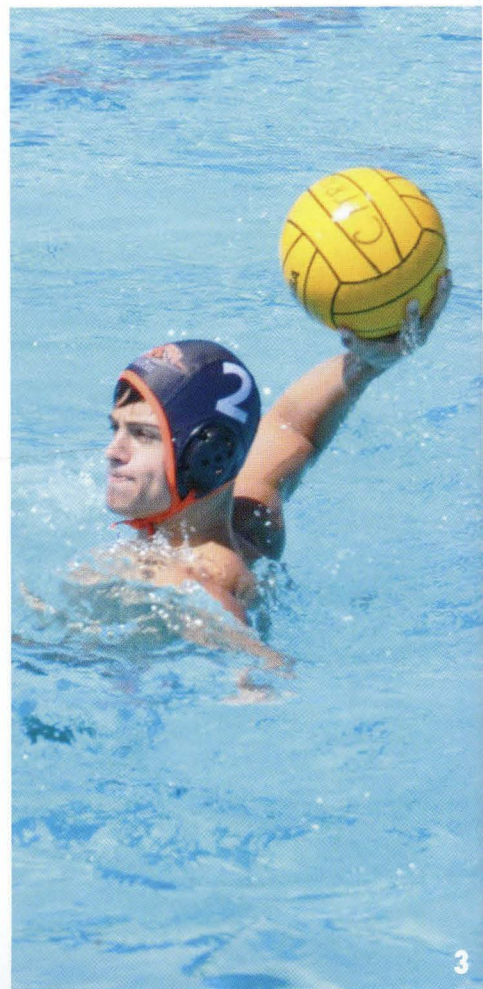

MEN'S WATER POLO

1. ROAR. Patric Eck '16 snarls as he faces down the opposing goalie. **2. AMOEBA.** Chris Bradley '17, Connor Lee '17 and Tomas Tussie '17 team up for some zone defense. **3. UPSLIDE.** Chris Bradley '17 fakes out the goalie on his way to a team-leading 67 goals.

THE TEAM. Coach Pat Beemer, Coach Grant Hollis, Ben Grabowski '15, Chris Bradley '17, Tomas Tussie '17, Patric Eck '16, CJ Culpepper '15, Jim Blackwood '16, Connor Lee '17, Matthew Lappin '15, Austin Mayron '15, Jerome Skelly '15, Galen Gao '16, Leon Ding '17, Parth Shah '17, Jordan Bonilla '17, Matthew Cedeno '16

BY THE NUMBERS

8 different players scored in the win over LA Trade Tech for a total of **14** goals

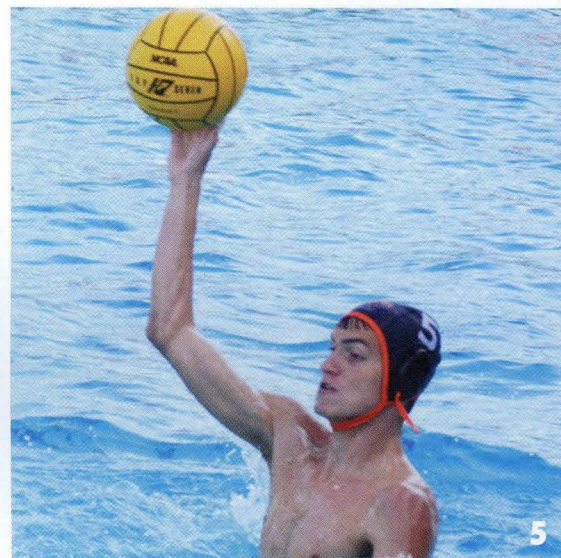

new record for number of saves in a single game set by Ben Grabowski

21

RISE ABOVE. Jim Blackwood '16 lifts himself out of the water to make a final attempt to score as the shot clock winds down.

4. INTIMIDATION FACTOR. Ben Grabowski '15 puts on his most menacing face as he jumps to make a block. Grabowski was named an ACWPC honorable mention All-American for his efforts this season. **5. ELASTIBOY.** CJ Culpepper '15 uses his long arms to pass around the defense.

SEASON SCORESHEET

YOU WANNA BE ON TOP? Paige Logan '14 towers above her competitors standing on the highest podium block. Logan won the shotput event at the SCIAC Championships with a season-best throw of 41'5", becoming the first Caltech female student-athlete to win an individual track and field title in 17 years. In addition, Logan finished third in the hammer throw, earning an all-conference spot.

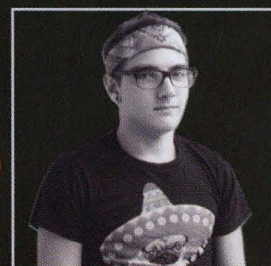

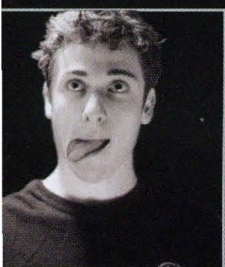

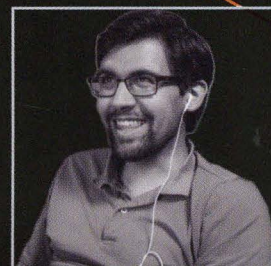

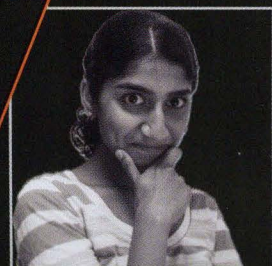

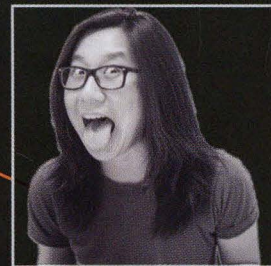

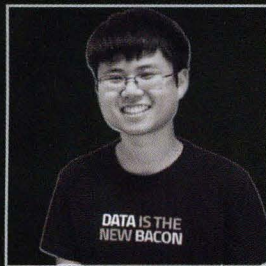

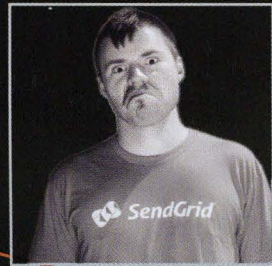

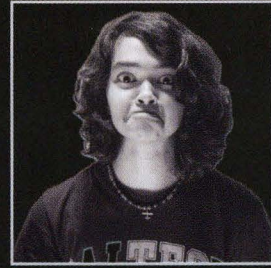

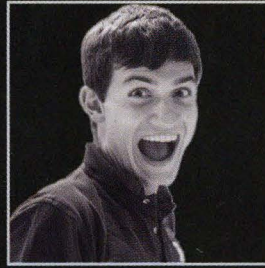

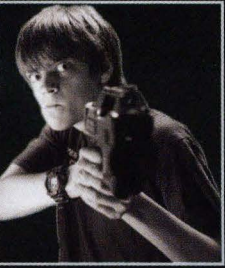

3

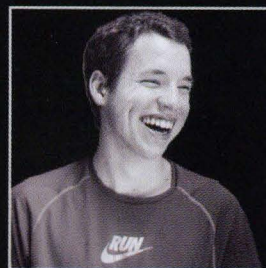

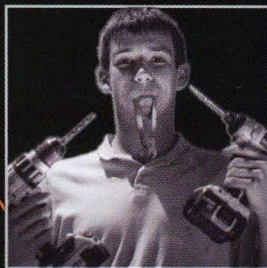

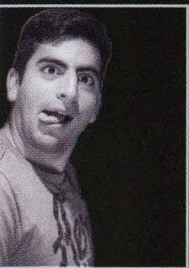

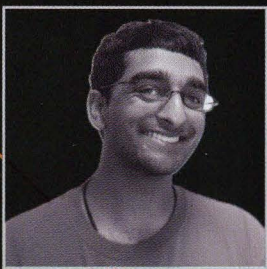

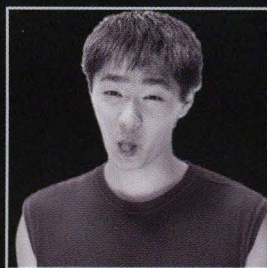

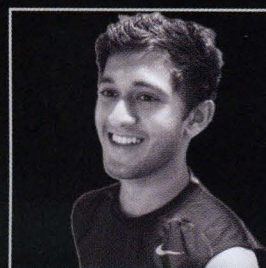

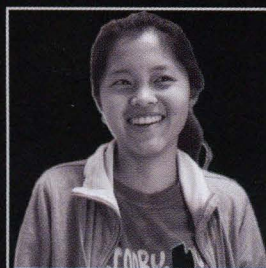

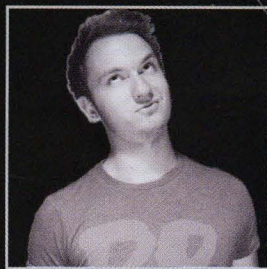

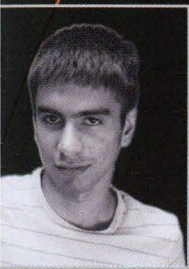

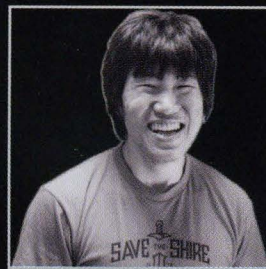

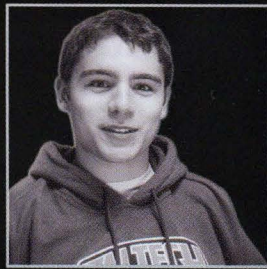

4

3. READY SET GO. Anand Poozhikunnel '17 reacts to the starting gunshot, jumping off for a speedy start. **4. PASS IT ON.** Eric Martin '15 clutches the baton, sprinting a relay leg for the Beavers. Martin earned all-conference honors in the 800 m race at the SCIAC Championships with the second-fastest time in school history.

**KALYN
CHANG**

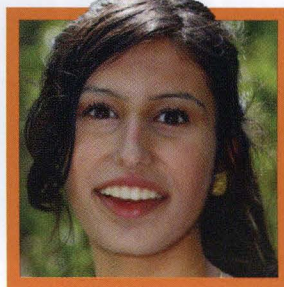

What surprised you the most about Caltech?

I was surprised most by how much diversity can exist amongst merely 1000 students.

How hard did you pass-fail?

Pass-Fail? I didn't know we had that. I always thought it was Pass-Pass. So, pretty hard.

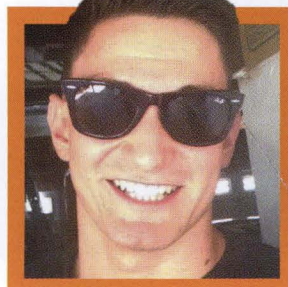

PARUL PUBBI

What surprised you the most about Caltech?

The thing that surprised me the most about Caltech was how easy it was to become extremely close with fellow students and to develop really strong friendships.

LUKE LANGO

What surprised you the most about Caltech?

I was pleasantly surprised by how social and fun people at Caltech are. I love hanging out in different houses and getting to know people.

What is your favorite CDS food item?

My favorite CDS food item is the spicy tuna on rice!

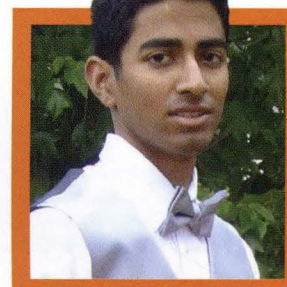

What surprised you the most about Caltech?

How kind everyone is! I knew about the house system, but I didn't realize upperclassmen would be so welcoming!

What is your favorite CDS food item?

Midnight madness crepes made by Professor Blake definitely count as CDS food, right?

BIANCA LEPE

How has sophomore year impacted you?

Having a class under me to introduce to the eccentric and sometimes stressful place that is Caltech has spurred me to take on more of a leadership role, both in my house and in the greater Caltech community. This has taught me to shoulder responsibility I previously did not believe I was capable of handling. I am hugely grateful to be at a small school like Tech, because it provides me the opportunity to take part in student government.

**RATNALEKHA
VISWANADHAM**

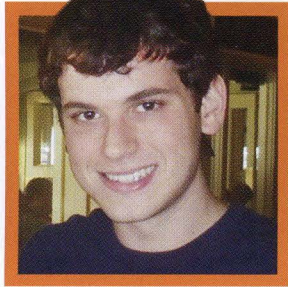

What is your favorite spot on campus?
Definitely the turtle pond. It's so peaceful!
What was your favorite class outside of your major so far?
E102
If you could rename Caltech, what would you name it?
Hogwarts? I'm not sure; I think the name is pretty fitting!

What is your favorite spot on campus?

Third floor lounge of Anenberg. The round sofas and floor-to-ceiling windows make it a great place to have a cup of coffee, work on my laptop, and enjoy the view of Avery.

What was your favorite class outside of your major so far?
Music history.

ERIC PELZ

REBECCA HU

What is your favorite spot on campus?
Millikan Bridge
What was your favorite class outside of your major so far?
CS1
If you could rename Caltech, what would you name it?
I wouldn't rename it.
Caltech fits well enough

What is your favorite spot on campus?

Gene pool at night

What was your favorite class outside of your major so far?

History of Jazz taught by

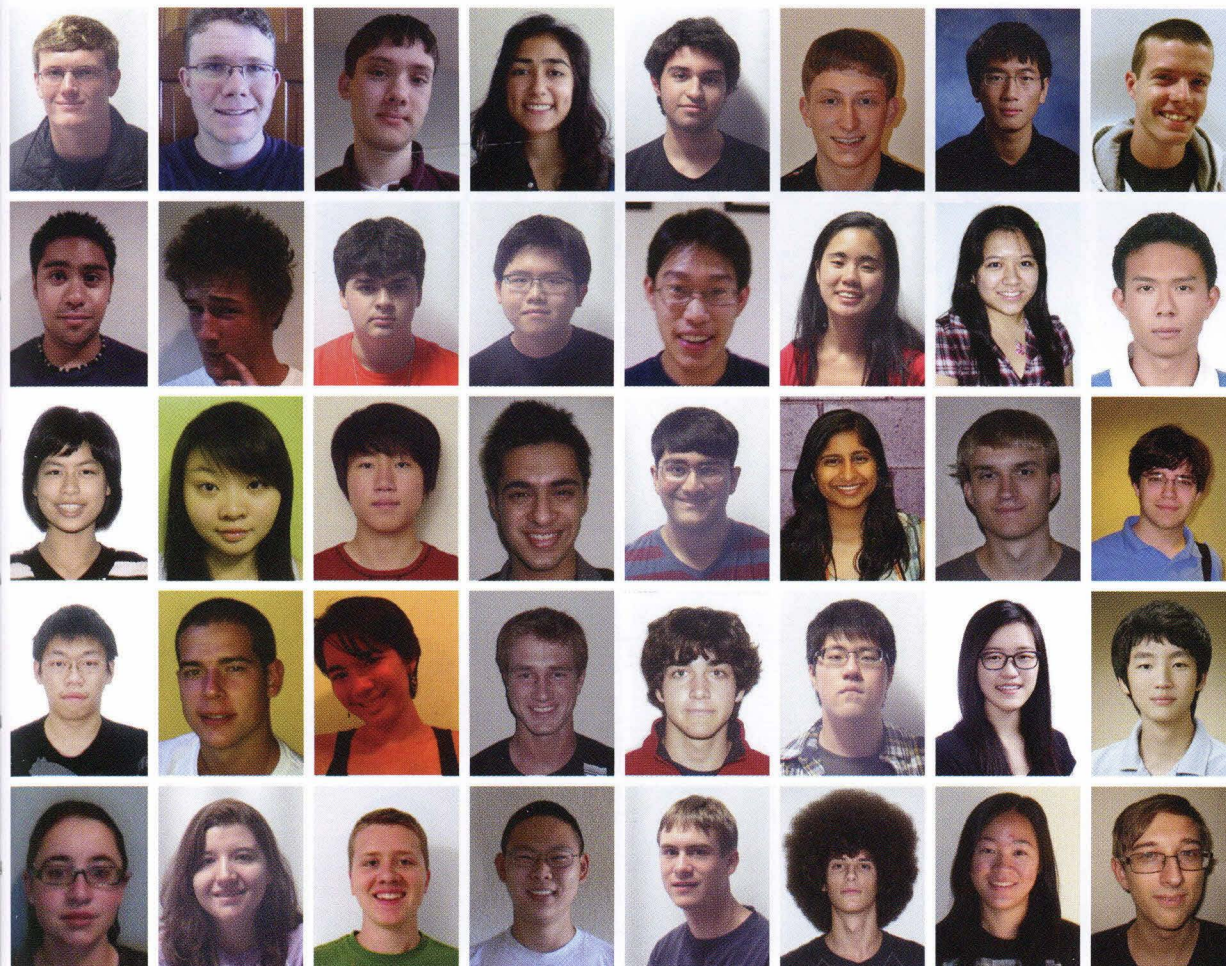

Tom Neenan

If you could rename Caltech, what would you name it?

Derek Zoolander Center for Kids who Can't Read Good and Want to Do Other Stuff Good Too

LISA LEE

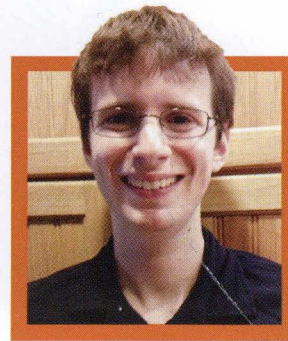

What was your favorite memory from senior year?
Definitely flying with an experiment aboard NASA's microgravity plane!
What will you miss about Caltech?
Good weather and the perks of a small school.

What was your favorite memory from senior year?
Watching Ditch Day play out after months of planning and countless hours of work.
What are your plans after graduation?
I'm in the Biochemistry and Biophysics PhD program at UNC Chapel Hill.

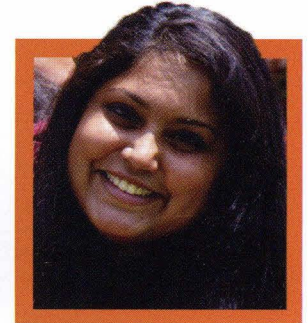

SAMANTHA
PISKIEWICZ

JEFF
SHERMAN

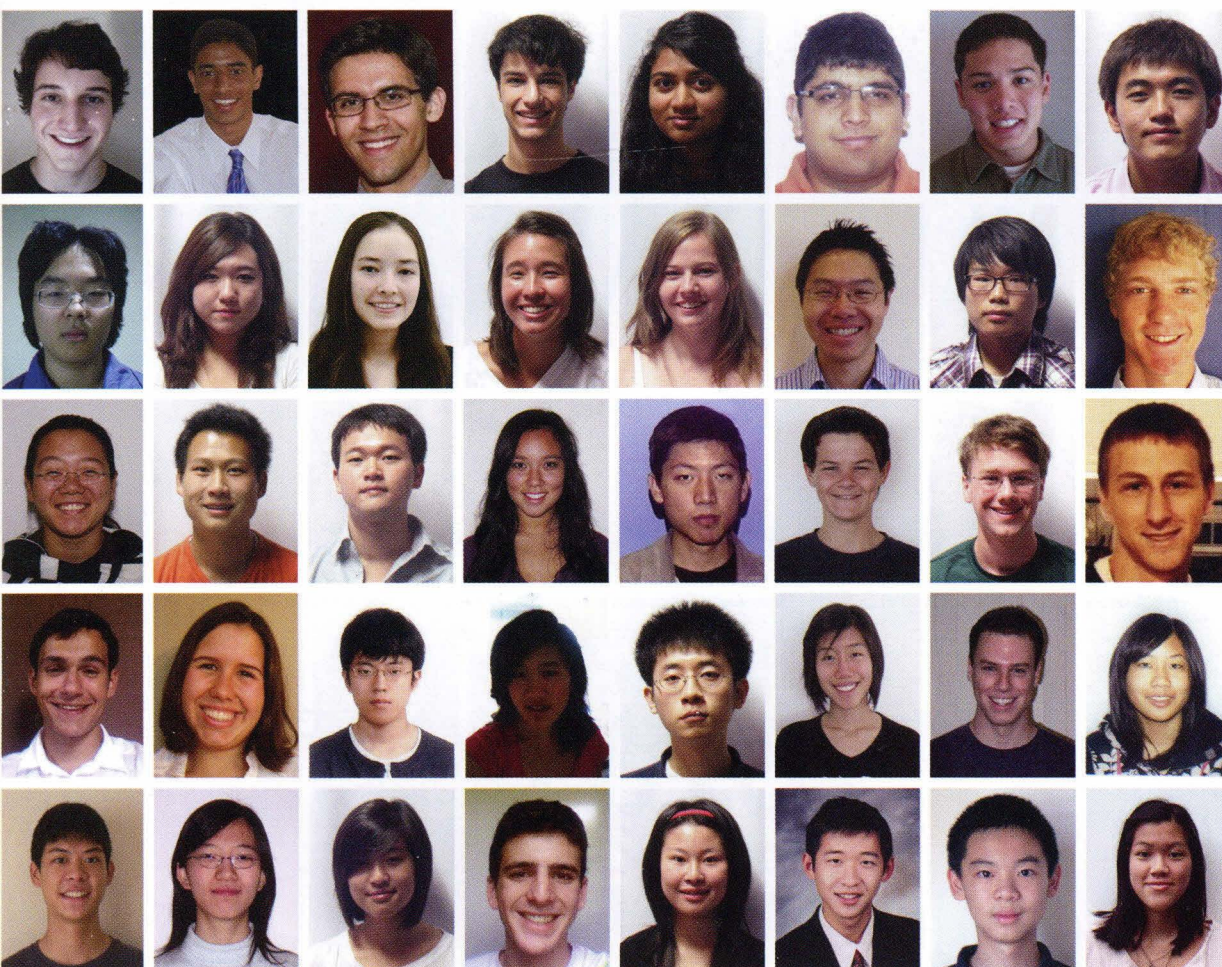

What was your favorite memory from senior year?
Getting detained by the LAPD and Bomb Squad during my stack
What will you miss about Caltech?
The people, the camaraderie, and generally the atmosphere of curiosity and creativity.

What was your favorite memory from senior year?
Probably a tie between seeing all our hard work for Ditch Day come through and hanging out with my water polo teammates.
What are your plans after graduation?
I will be going to UCSD School of Medicine.

CONGRATULATIONS TO THE GRADUATES OF 2014!

As a part of the Caltech family,
we wish the Class of 2014 a
successful and rewarding future!

www.cefcu.org • 800/592-3328

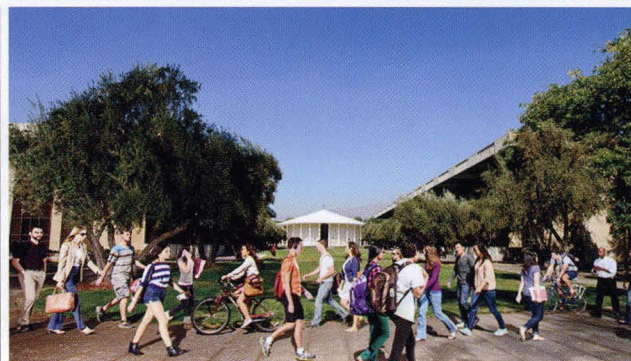

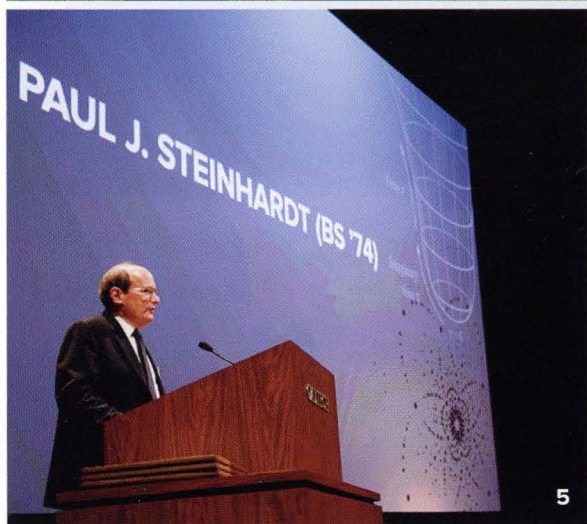

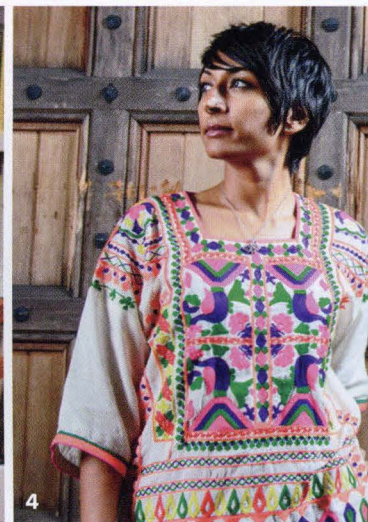

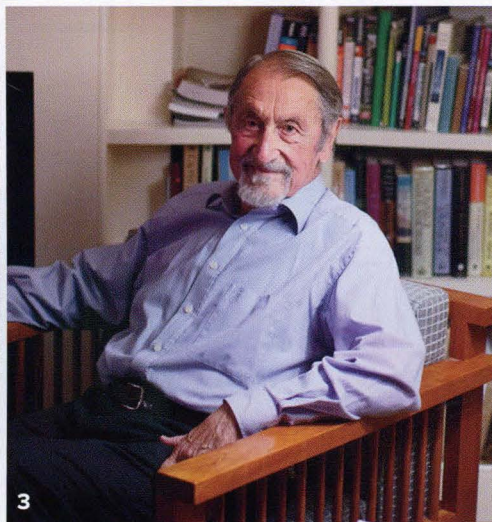

Where Your Membership Lasts a Lifetime!

Thanks to you, your immediate family is eligible to join CEFCU. Once they join, they too will be members for life and can pass on the benefits to their family.

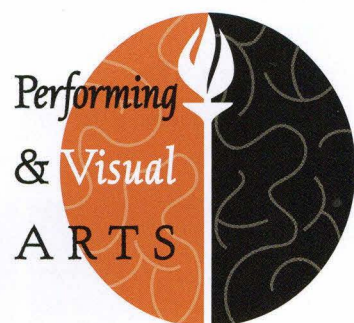

Your Caltech family is about to get a whole lot larger. Access a remarkable network of fellow alumni who take on enormous challenges with courage and creativity. Discover the Caltech Alumni Association.

OUR GREATEST DISCOVERY IS YOU

1. Cyrus Behroozi (BS '97), engineer with Google[x]'s Project Loon
2. Arati Prabhakar (PhD '85), director of DARPA
3. Martin Karplus (PhD '54), recipient, 2013 Nobel Prize in Chemistry
4. Iram Parveen Bilal (BS '04), film director
5. Paul Steinhardt (BS '74), theoretical physicist and 2014 Distinguished Alumnus
6. Michael Chwe (BS '85) author, *Jane Austen, Game Theorist*

alumni.caltech.edu/join

CONGRATULATIONS 2014 GRADS!

*May there always be time in your
life to enjoy the arts*

*- From the Music, Art, and
Theater department*

Congratulations & all the best to the
Class of 2014
from the Physics, Mathematics &
Astronomy Division

CONGRATULATIONS TO THE CLASS OF 2014!

FROM THE OFFICES OF THE PROVOST AND VICE PROVOSTS

2013-2014 IN REVIEW

Non-Discrimination Rocking the Nation

June 26, 2013

A Supreme Court decision strikes down DOMA, and gay marriages must be recognized by the federal government.

Curiosity Didn't Kill the Cat!

September 2013

The Curiosity Rover makes a big water discovery in Mars dirt.

Snapchat

2013

Snapchat becomes a huge success, updating its technology with new filters and increase its user base exponentially. Within two years, Snapchat has become an \$860 million company.

Beyoncé Drops It Like It's Hot

December 13, 2013

Beyoncé releases her secret album, giving her fans the best Christmas present ever.

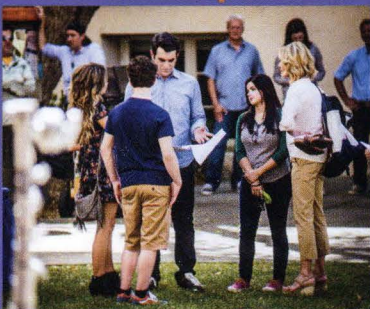

Diapers, Bottles, & a Crown

January 22, 2014

Prince George of Cambridge, the royal baby boy of Kate Middleton and Prince William, celebrates six months in this world.

A Prospective Student?

August 14, 2014

The cast of Modern Family visits Caltech's campus to film an episode of this award-winning show.

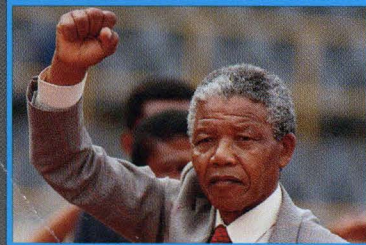

Obama Drama Llama

October 17, 2013

The U.S. government reopens after President Obama signs a bill ending the government shutdown.

A Day of Mourning

December 5, 2013

The world sees former South American president die at the age of 95. He will be missed.

The Era of Twerk

2013-2014

From Miley's famous VMA performance introducing this new dance move/exercise/ lifestyle to Nicki Minaj's music video for Anaconda, twerking has seen its fair share of fame and glory in the past year.

Hacktech

January 24-26, 2014

Coders and geniuses came out from all over the country to participate in the Caltech-hosted hackathon in Santa Monica. Kshitij Grover ('17) and Shubankar Jain ('17) were largely responsible for its success.

We're Yelling Tinder!

April 2014

Tinder has more than 10 million estimated active daily users!

In the Spur of the Moment

June 15, 2013

San Antonio Spurs defeat the Miami Heat to bring home their fifth NBA championship in the franchise's history. San Antonio's Kawhi Leonard was named the MVP.

Congratulates the Class of 2014

We hope these graduates the best as they continue their journeys after Caltech. They will always be part of the Beaver family.

Dear Staff,
Thank you so much for your
commitment and hard work!
Because of you, we were able
to produce an amazing year-
book and we couldn't have
done it without you. You are
rockstars!

Sincerely,
Meghana Pagadala
Editor-in-Chief
