Lasses swarm to Pasadena for Lost Weekend activities

World News
IKE, CONGRESS AND MONEY
Every so often Congress gets a wild look in its eyes and starts examining everything. This happens two or three times a year, it seems.

TAU BETA TECH HONORARY ELECTS OFFICERS, NEW MEMBERS
In its first meeting since the recent election of new members, the Tau Beta chapter of Tau Beta Pi, national engineering honorary, assembled at noon on Wednesday, May 8, at the training table, for the election of officers.
The new officers are: President, Phil Thacher, vice president, Dick Elliot, secretary, Frank Aibini, corresponding secretary, Tom Guncley and catalogue, Marial Thibault.

Sholtz wins 45th annual Conger prize
Kenneth Scholtz was the winner of the 45th annual Conger prize. The prize, $750, was presented to him at the annual banquet of the Caltech chapter of Tau Beta Pi, at which he also received the book prize, $50, for his prepared paper, "Peace Among Peoples." Second place went to Eugene Patapoff, recipient of the Hooker Scholarship, who won $25 for his speech, "The Future of the World." The judges for the contest were: Caltech professors Robert Tung, Weir, and mechanical engineer, Peter P. and Kent Church. Engineers for the Conger Peace Prize contest are: coins, 1957, one-ounce gold; $72,000,000,000 budget. How did it all get started this time? bushwhacking to cut a bit or in the end we would have a depression which would "curl your hair," and the President and each other to cut it, then Congress plunged in and began cutting. Now the judicial branch is to cut, if they have to run for reelection and have to keep the folks back home happy, it is the foreign aid department they don't elect anyone.

The program engineer at Caltech, "in dark pants and a bright yellow tie," would be told by the people to quit cutting foreign aid over Soviet maritons, but the people who encouraged Congress are Ike's whole program is endangerned because he can't get the budget. Congress has to cut the people over the budget after going to the people via radio and TV. Ike may lose control of the old party to the old guard wing and he will certainly lose any influence over Congress.

Richard Neville

DRILL TEAM TO TRY FOR "BEST IN WEST" AWARD
With minus bunched, uniforms pressed, hair combed, rifles cleaned, shoes shined, stomachs, in Caltech's winning AFROTC drill team will be in San Francisco May 17 to compete for the award of best drill team in the far west. Led by Clarke Bell, Craig Elliot and Barry Petshong, the 24-man detachment will spend Saturday in San Francisco while competing in this first inter-regional competition.

Caltech's team won the Southern California competition last May 19 at San Diego by edging out UCLA, San Diego State, Occidental and Arizona State, earning their fourth victory in the six years that the contests have been held. They were the only drill team using rifle manual of Airs in the competition.

Returning from San Francisco, the drill team will march on May 13 in the Long Beach Armed Forces Day parade, their third consecutive time.

Another BOTT event of importance will be the traditional Awards Ceremony, which will be held in Tournament Park Wednesday afternoon, May 15.

ANNOUNCEMENTS
ICE SKATING CLIN
An ice skating club for interested Techmen will meet every Sunday evening at 7:30 at the Pasadena Winter Garden located at Green and Arroyo. The cost will be $2.50 per couple, or $1.00 per person.

BLOODMOBILE
On May 23, from 12:00 until 5:30, the Bloodmobile will be on campus to accept blood donations. As in the past, representatives of the local house members and off-campus students are urged to participate. Contact the Personnel Office in Throop for the necessary forms and minor release slip if necessary.

Activities for the Week
FROSH GIVE "T" ANNUAL CLEANING
Due to the efforts of the freshmen class last Sunday, the "T" on the mountain northwest of the campus is again clean and clearly visible.

The freshmen, over 25 in number, left about 9 a.m. and traveled to the "T" in cars, except for those few who were forced to climb the mountain on foot due to the lack of mechanically sound engines. They worked several hours to remove the miscellaneous vegetation which had grown since last year.

T. P. I.

According to Dr. Fred Lindwall, the "T" was first laid out in 1917, when it stood for "Thruph, Halphscheig, Frotterm." The "T" has been cleaned and renewed by the freshmen annually ever since.

Chad Mai, Craig Elliot and Chad Deal. Clarke Bell present Southern California's AFROTC drill team championship trophy to Lt. Col. Johnston.

AROUND THE QUAD
INGERSOLL
Dr. Alfred C. Ingersoll, assistant professor of civil engineering at Caltech and president of Chi Epsilon, the National Civil Engineering Honor Fraternity, will go to Honolulu for the installation of a new chapter of the fraternity at the University of Hawaii on May 14.

ZWICKY
Dr. Fritz Zwicky, professor of astrophysics at Caltech, has been elected chairman of the board of trustees of the Pestalozzi Foundation of America. The Pestalozzi Foundation was established for the purpose of helping children in distress throughout the world; it has branches in 11 countries. Dr. Zwicky has been a trustee of the foundation for the past eight years.

FOLKBRIGHT SCHOLARSHIPS
Three students and one professor at Caltech have been awarded educational exchange grants under the Fulbright Act for the 1957-58 academic year. Those receiving the awards are: William Chapelle, who will work toward his master's degree at the University of Paris; William Heiser, who will work toward his master's degree in aeronautics at the Technical University, Braunschweig, Germany; Harrison Schmitt, a senior major in geology, who will study at the University of Gottingen, Germany and Dr. Lev- erett Davis, Jr., who will conduct physics research at the Max Planck Institute for Physics at Gottingen, Germany.

The Conger Peace Prize Contest has been an annual event at Caltech since 1912, when it was established by the Reverend Everett L. Conger, Ph. D., for the promotion of interest in world and industrial peace.

This Friday, May 17, marks the beginning of the 14th annual Lost Weekend. As in the past, residents of several student houses over the weekend will be available from home for an ASCUT social event, but Jorillo has stressed that the event will be worthwhile in its own right, and those who do not plan to attend the entire weekend are urged to attend the individual events.

Here's the time schedule for this year's Lost Weekend.

Friday, May 17
1:00-4:00 A.M.: The girls who are going to the "T" over the weekend will begin to arrive. Keys for the rooms will be available from the night watchman Milli McClure, who will be stationed in the arcade between Hickey and Fleming.

6:00 A.M.: A special meal will be served in the Throop House dining room to the officers and their dates. This meal, which is a traditional part of the weekend, will include the special kind of festivities. Attendance is not restricted to those whose classes have registered for it.

8:00-11:30 A.M.: ASCUT will present dancing to "The music of Conrad" for all on campus in a special outdoor ballroom set up on the Athenaeum lawn. George, whose orchestra plays arrangements by Billy May, is an RCA Victor recording orchestra, and his program will use the nucleus of Nelson Riddle's radio and television orchestra. A cocktail dress is the "in" dress for the evening of the women.

The party will be under way in Hickey Lounge.

(Continued on page 3)
Editorial

Hearty welcome to Lost Weekend guests

The California Tech is pleased to welcome the seventy young ladies who will be guests of the Caltech student body this week-end. We urge them to enjoy the many facilities available to them at Caltech and to make the most of the time they have here.

The staff of the Caltech Glee Club is extending a hearty welcome to the guests and wishing them a pleasant visit.

Caltech Glee Club outstanding at Festival

Last week the Caltech Glee Club brought immeasurable prestige to its college with an outstanding performance at the Southern California Glee Club Festival.

This annual affair was held at Pomona this year, and had the distinction of being a part of the academic program as well as a part of the athletic program. The regular meetings of the club were scheduled to coincide with the festival, and the Glee Club members were present at all of the events.

Caltech is the only college in California that requires participation in all extracurricular activities as a part of the academic program. This requirement is designed to give the students a well-rounded education.

LOST WEEKEND
(Continued from page 1)

Featuring-croquet, poker, craps, and black-jack, the Castro Party will welcome members for couples during the evening, and the couple which wins the most during the party will receive a very special "ASCIT Budget-size" purse for their efforts. Also featured will be a bonus-tonk piano player, to add atmosphere to the party.

10:30 Taking a break from dancing and gambling, couples will be serenaded by the Caltech Glee Club, which will perform on the lawn between Ricketts and Fleming.

2:30 This is the curfew time for the students staying in the student houses.

Saturday, May 18
7:15-9:00: A special student house breakfast will be served in Ricketts dining room.

11:00-11:30: Guided by maps available from First Rep Ford, couples will lead their dates to Little Corona, near Newport Beach, for a day in the sun. All the usual beach party activities will be enjoyed by the weekenders. Shower facilities are available at the Marine Lab at Corona Del Mar.

3:30: The traditional beach dinner consisting of ham, potato salad, hot buttered bread, milk, and cantaloupe sundaes, will be served. Afterwards the couples may bask in the last sunlight, and then return to the Marine Lab to shower and dress for the evening's dancing.

8:30-11:30: The ASCIT will present dancing to the music of Claude Davis and his band at the American Legion Hall in Newport Beach. The dress will be, as usual, light evening beachwear: white skirts and the like for the men and colored suntan suits and beach clothes for the dates. The dance will end in time for the gals to return to the student houses before the 2:30 deadline.

Sunday, May 19
10:00: Breakfast at Rand's in Glendale will round out the weekend for the couples. Tickets will be available from forti for $1.50.

Students discuss houses with architects, officials

Two houses will be built, with the possibility of adding a third if necessary to allow for housing 75% of the student body. The exterior of the houses will harmonize with the rest of the buildings on campus. They will be located immediately north of the Olive Walk, in the space now occupied by the temporary buildings and the tennis court parking lot.

Tentative plans for the new houses were presented to the meeting by the architects, and the various features of the projected arrangements were discussed at length. The plans showed several details which would be different from the present student house layout.

The kitchen would be ultra-modern and centrally located. It would serve the present student house layout. (Continued on page five.)

room. In much the same manner, as the present kitchen does, and in addition it would serve an adjusting cafeteria, which would replace the present coffee shop. The lounges would adjoin the...

...AMERICA'S FASTEST-GROWING CIGARETTE

by David Leman

Pair named for "Rivet"

Brad Efron and Marty Tangora will edit this term's "Hot Rivet" according to an announcement released this week.

Efron and Tangora were selected on the basis of experience and attitude, as the "Tech" management reviewed its efforts to produce Caltech's best "Hot Rivet" ever.

The "Hot Rivet" is a special issue of "The California Tech," concentrating on humor and travel toward the shady side. It has not been published in recent years in deference to "Farrago," but the demise of that combined literary-humor magazine has led to the reappearance of the "Hot Rivet."

Humorous stories, jokes, parodies and cartoons are in order, and material must be submitted soon. Final deadline is Sunday, May 26, ten days from today.
Renee Reifel is a secretary in the marketing department of Union Oil. She is also—one of our 5,906 employees who hold shares in the firm.

This entitled her (along with over 65,000 other people who own shares in Union Oil) to a report on the 66th year of business of the 47th largest industrial company in the country.

She wants to know what we did with the $401,518,000

We spent 73.1% of this—or $289,481,000—with over sixteen thousand other companies and individuals with whom we do business.

The more than 1000 tax collecting agencies took another 3.7% or $14,830,000. This does not include the $74,120,000 we collected from our customers as fuel taxes and turned over to governmental agencies.

Wages and other benefits for our workers and their families amounted to 15.7%, or $62,966,000 of our income.

The net profit

This left 8.5%—or $34,241,000—as net profit. Slightly more than half of these earnings—$18,261,315—were paid in cash dividends to Renee Reifel and our other 65,000 share owners. (Note that our share owners received only about three and a half million dollars more than the various tax agencies, which contributed nothing to the business.)

The balance of our net earnings—equal to 4.0% of our customers' dollars—we reinvested in the business to expand and modernize facilities.

It seems to us that this report does more than give an account of our stewardship to Renee Reifel and our other share owners.

It points up the broader base of ownership of American business. In the last four years, for example, the shareholders of all companies listed on the New York Stock Exchange increased by 33%. Union Oil did even better—41%.

This could happen only in a freely competitive economy that encourages and rewards individual effort.

The Sports Beat
by Steve Emanuel

The Interhouse Trophy race was to all intents and purposes concluded Tuesday as Ricketers beat Fleming in basketball. Fleming went into the basketball season with a 2-19 record, and after losing 85-35 to closing rival Daniel, a fact which causes the "Big Red" team no small amount of concern. They were beaten only once this season, by 6-4, in batting Throop, the remaining two games being decided by forfeit in which the Ricketers beat Blacker and last Friday had to finish ahead of 4-6, in batting Throop,..the remaining. Tech, 

with only one

In fielding, Bob Golden ac· Last Sunday the Caltech saH.

The team batted a fine 278. but day.

The team batted a fine 278. but day.

The freshwater baseball team ended its season last Friday with a 1-1 tie against a desperate Caltech team. The Beavers defeated L. A. Pacific College by defeating them last Wednesday, 2-1.

Redlands, seeking revenge for their earlier loss to Caltech (3-2), tied the score in the top of the 1st inning with a two-run home run. Unfortunately for the Beavers, the runs were unearned as the Cardinal's pitcher of the day, Bob Golden, walked a couple of runners before hitting a couple of batters. The Beavers then loaded the bases but failed to score. Redlands then added two more runs in the next two innings to take an early 4-1 lead over the Beavers. The Beavers threatened to come back in the 5th inning when they loaded the bases once again, but again failed to score, and the game ended with Redlands winning 4-2.

The fourth game of the series was played on Wednesday, with only one man (pitcher Sam Trotter) at his regular position, the Beavers defeated L. A. Pacific College, 1-0.

In the final game of the series, the Beavers defeated the Cardinal's 7-0. In the first inning, the Beavers scored three runs on a solo home run by John Walsh, the starter, for two hits in the 1st inning. Tech batters collected nine singles, with two doubles, one triple, and a home run. Two runs scored in the 3rd inning against Redlands in their other game, also.

On the preceding Wednesday, with only one man (pitcher Sam Trotter) at his regular position, the Beavers defeated L. A. Pacific College on one (1) hit.

In the final game of the series, the Beavers defeated the Cardinal's 7-0. In the first inning, the Beavers scored three runs on a solo home run by John Walsh, the starter, for two hits in the 1st inning. Tech batters collected nine singles, with two doubles, one triple, and a home run. Two runs scored in the 3rd inning against Redlands in their other game, also.

FLYING SAUCERS (page 3)

flares, and exothermic explosive and incendiary substances, and troubled out to the contraction. But no sooner did the party arrive than it met with unexpected opposition.

A few students of Claremont Men's College, with nothing constructive of their own to do, but firmly agreed by the tenets of their organization were gleefully implying anybody who would listen about how Caltech students were going to pull off some big car. Van Tassle, having to see threatened the digram on campus, moved into a ventur[e as the College, alerted his sound-trail, the local prefect of police.

So it was that late that evening some conventioners were engaged in a great game under the stars identifying flying objects, our merry band, composed of a group with their equipment and heading for a prearranged spot in the nearby woods. Van Tassle himself, with a very provocative "saucer" sighting to see the entire hill silhouetted against a bright glow. A spoke man for the pranksters said that the massed cover-up beside the thermite and sugar-nitrate mixture simulated a pretty fair space ship crash. At any rate, he said, the radioactive waste scattered around the area by the team who would visit the major university in Los Angeles, specifically as an underground, Sherry's interest seems to have altered a taid and now centers around raising a prodigious number of poobies.

Passing claims to the longest, prettiest curls on campus, Sherry presents a striking contrast to her short-promoted poobies. It is not necessary to point out that this is not the only striking contrast. In addition to her being gloriously unmarried, word (here) has it that she has no vicinity boy friends either. In addition to raising poobies and a large amount of attention, her other achievements include being able to look down on all souls of less than 5 ft. 4 in. and having a tred time of this stature in a mere 25 years.

As my reasons for prolonging the verity of the above, I timidly approached the question of what Sherry thinks of Techmen. As a native of Luke said that his built-in computer had told him that there was no reply to the Tech glamour and everything that she has done, making the case. Don't know how I could miss seeing such brilliant playing.

Mr. Bogdanovic was not guessing when he took the diamond from the cradle. When there are no other alternatives, he said, when his opponent has given any clue as to the distribution, the player who falls back on the odds will come out ahead of the guesser. That is unless you're Nick the Greek or if you've somebody like Walt's Uncle Sammy to tell you how to play it.

The results of the National Intercolligate Bridge Tournament for this year have arrived, and we wish to congratulate Frank Dean and Wally Bavor for coming in to win the championship on the north-west championship. Also congratulations are in order for Wayne Kregger and Pedro Bolasiti for winning the Caltech east-west pairs championship.
