Caltech Service League initiates annual membership campaign to finance program

According to Mrs. R. L. Moser, president of the Caltech Service League, the organization is in the midst of its annual membership drive prepared to begin in one of the usual campus institutes.

"The Caltech Service League is an organization of mothers—past, present and future—and students, members of the faculty and friends of the Institution whose purpose is to contribute in every way we can to the welfare and happiness of all students at Caltech." That can be seen from the list of the Service League's accomplishments during the past year.

Perhaps the most notable job was the initiation of a darkroom institute that of keeping the student health center up to date by providing equipment for the student's benefit and to encourage the growth of the future institution.

The Caltech Service League recently initiated a membership campaign to finance its programs. The campaign will run from November 1 to December 31, 1955, and will provide funds for various student organizations at Caltech. The campaign will be managed by the League's membership committee, which will be responsible for collecting donations from alumni, friends, and students.

The Caltech Service League has a long history of service to the Caltech community. It was established in 1912 and has been active ever since, providing funds for various student organizations and projects. The League has a strong tradition of volunteerism, and its members are committed to supporting the students and the institution.

Trophies to mudeo win TV show to feature Caltech; "Success Story" Friday night

Caltech will be featured on a special television program Sunday afternoon, November 20, on station WABC Channel 11, from 7:00 to 7:30 p.m. The program will provide information on the Caltech education and its campus life.

Sophomore penalized for throwing mud at judge: last point decisive in final score count

A freshman team won the annual Mudeo last Tuesday for the first time in four years, when a crucial sophomore fowl gave the margin of victory. The game was over as far as the freshman team was concerned when the second senior point was finished but they were disqualified because a disgruntled sophomore had thrown mud on a judge and the one point for the mudo team represented the final margin of victory.

As a reward for their victory, the freshman class will not have to share any of the cost for the third term freshman-Sophomore Dance.

The mud pit this year was dug south of the football field, according to R. R. Bloomer, who had been chosen as a teacher of the history class.

R. Von Hagen elected Caltech board member

Richard R. Von Hagen, President of the Los Angeles County, Ltd. of Los Angeles and a member of the California Institute of Associates since 1947, has been elected a member of the Caltech Board of Directors.

Mr. Von Hagen received his Bachelor of Arts degree from the University of California at Los Angeles in 1951 and was graduated from the Law School of the University of California at Berkeley in 1954. He is currently employed by the firm of Price, Waterhouse & Co., Los Angeles.

Caltech to give blood Monday

The Red Cross Bloodmobile will be on campus from 10:00 to 5:00 next Monday afternoon, November 21, to collect blood for the Red Cross in its fight to save lives.

Men in the Student House are urged to contact any of these men, the personal office, or to come directly to the bloodmobile Monday.

Any undergraduate interested should see Craig Elliott in 22 Room Office to inquire about the bloodmobile, or to arrange for a blood donation.

Caltech Service League raises $3,000 for darkroom

The Caltech Service League recently initiated a membership campaign to finance its programs. The campaign will run from November 1 to December 31, 1955, and will provide funds for various student organizations at Caltech. The campaign will be managed by the League's membership committee, which will be responsible for collecting donations from alumni, friends, and students.

The Caltech Service League has a long history of service to the Caltech community. It was established in 1912 and has been active ever since, providing funds for various student organizations and projects. The League has a strong tradition of volunteerism, and its members are committed to supporting the students and the institution.

When the moon's shining bright
And the party's just right...
To top off the night--have a CAMEL!

Man, that's pure pleasure!

It's a psychological fact: Please helps your disposition. If you're a smoker, remember—more people get more pure pleasure from Camel's than from any other cigarette!

No other cigarette is so rich-tasting, yet so mild!
Conferences on foreign affairs to be held soon

Tech students interested in international relations will have an opportunity to attend three conferences on international topics this winter and next spring. On December 27-28 the Pacific Coast Regional Conference on the United Nations will be held in San Francisco at the YMCA Hotel. The Council for the UN is sponsoring the event, which comprises addresses, briefing sessions, discussion groups, panels and films. The conference will attempt to answer questions as to the nature of the UN, how it works, what it has accomplished, and what the US policy should be toward it.

A National Student Associations-sponsored Student Relations Seminar will take place February 17-19 at Mills College. The Sixth Annual Model United Nations will be held in Corvallis, Oregon, April 4-7. Caltech has applied to represent Israel, Iran, Turkey, or Indonesia.

Students interested in these conferences may contact ASUC secretary Tom Bergeman in 20 Ricketts.

Y members are to plan for Asilomar

A planning session for this year's Asilomar conference will be held next Monday at 7:30 p.m. in the Y lounge. Tapes and slides from previous conferences will be shown and last year's Caltech delegation will be on hand to answer questions.

Delegates to the conference, which is to be held December 26 to January 1, are members of student Y's in California, Arizona, Nevada, and Hawaii. The 40 delegates meet for a week of social, intellectual and spiritual programs, at the Asilomar camp grounds on the Monterey Peninsula.

Interested students are asked to contact the Y office regarding scholarships to the Asilomar conference. Details of the week's program are also available from the Y office.

Sec's at Tech

by Karl Klaue

We were walking six abreast near East Bridge, on our way to Metaphysics 227.81, and so engrossed were we with texts and for manipulating our respective slide rules that we naturally failed to notice the lovely young lady rapidly approaching us. However her sharp cries of pain as we bowed her over into the lie plant made us look up, and after retrieving our books and slide rules, we offered to help her to her feet. Closer inspection revealed that the young lady was really quite charming, and as we just happened to have our camera in our briefcase, we requested her to submit to having her picture taken, to which request she gracefully acceded.

Before we go any further into our stirring saga, however, we should like to present Miss Suzanne Durnell, a five-foot two-inch brunette who insists her eyes are aquamarine coloured. Suzanne is employed in the General Library where she functions as an "assistant cataloger."

In reply to our question, Suzanne told us that she came to California in 1951 from Springfield, Missouri, where twenty years ago, she was born, and that she is a relative newcomer, having started on campus last January.

In response to our further questioning, Suzanne commented:

"Well, like Doris (referring to Doris Fullmudder whom we interviewed previously), I went to Mount San Antonio College where I majored in liberal arts. I also took eight years of voice lessons, but unfortunately, I don't get too many opportunities to sing." Suzanne also revealed that she enjoys swimming, horseback riding and dancing.

We pressed Miss Durnell for her future plans, and she replied:

"I like my work here, and I plan to remain here until around April, then I hope to get a job as an airline hostess."

Naturally it was impossible to leave without obtaining Suzanne's permission to film her. Suzanne acquiesced.

"They are very brilliant, but they should be more well-rounded... more cultured." To Suzanne's comment we could only add, "bravo!"

Pre-registration is set for week of November 21-25

Tech undergraduates may pick up pre-registration slips for the second term from Monday, November 21 until November 25 in 119A Throop. The slips must be returned November 25 or before.

Freshmen have been assigned to sections, and will be assigned to option consultants until May. Upperclassmen have been assigned to sections and advisors. Their pre-registration slips must be signed by the advisor.

Any student wishing to change a course or section should see Mrs. Duft in 119A Throop. Anyone not returning second term should also leave this information in 119A Throop.

Registration will be held on January 3, 1956, from 8:30 to 3:30. No undergraduate student previously in attendance will be permitted to register without filling out a pre-registration card.

Reed

Have you heard about the new collegiate parlor game? No, what's that? "Button, button, here comes the house mother."

Why do more college men and women smoke VICEROYS than any other filter cigarette?

Because only Viceroy gives you 20,000 filter traps in every filter tip, made from a pure natural substance—cellulose—found in delicious fruits and other edibles!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
2. The Viceroy filter wasn’t just whipped up and rushed to the market to meet the new and growing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
3. Smokers en masse report that filtered Viceroy’s have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
4. Viceroy draws so easily that you wouldn’t know, without looking, that it even had a filter tip. . . . and Viceroy costs only a penny or two more than cigarettes without filters!

That’s why more college men and women smoke VICEROYS than any other filter cigarette . . . that’s why VICEROY is the largest-selling filter cigarette in the world!

20,000 Tiny Filter Traps... plus that Real Tobacco Taste
Merle Wolverton

From the good earth, the good life

"It seems to me one of the reasons we live so much better in this country is because we farm so much better."

In Russia, I read somewhere recently, 60% of the population has to farm to feed the country.

In America only about 14% of us are farmers. But that 14% grows more than all of us can eat, and we eat mighty high on the hog.

Now I'm sure one big reason for the farmer's efficiency in this country is the help he gets from industry. Take my case.

Right now, at their own expense, they're testing four different plant foods on five acres of my beets just to find out which will give me best yield.

"As a result of help like this, my beet crop's on the way to being the biggest and healthiest yet. As a result of help like this, farming's a good business and a good life—and you and I continue to eat high on the hog!"

Merle Wolverton: "14% of the population grows more than all of us can eat?"

We are pleased by Mr. Wolverton's enthusiasm for Brea's service. Because helping America grow is the big job of our subsidiary, Brea Chemicals.

Modern synthetic ammonia is not only increasing crop yields: it is also rejuvenating soil that was literally "worn out." As a result, one acre today produces what two acres did 15 years ago.

Economists and farm experts rank this accomplishment—along with modern farm tools —as the foremost answer to the world's food supply problem.

This is another example of how free men, freely competing, can do the job better.

Your comments are invited. Write: The President, Union Oil Company, Union Oil Bldg., Los Angeles 17, Calif.
Booters drop Hens, 3 - 2

Last Saturday, in a bitterly contested match, the Caltech Varsity soccer team defeated Pomona 3-2. Playing here at Tournament Park the battle raged into two overtimes before the issue was settled. This is the second bittter pill swallowed by Pomona in recent weeks, for this same Caltech squad upset the Sagehens in a surprise victory midway in the season.

Pomona scored first on a lone goal in the first half, Steffanson matched it for Tech with a penalty kick in the third quarter, and Tenn put the team in front with a goal in the fourth. Pomona tied the score in the closing moments, and the game went into overtime. The first period netted no further score, and with only one minute to go in the final period, Norton scored the final point to end it all.

The J.V.'s lost to Thatcher at Qui, but the 7-2 score hardly reflects the calibre of Tech play. This is the first instance where the team has really worked as a unit, maintaining control of the ball throughout the entire game.

Caltech mistakes costly, alert Oxy gains 35-7 win

Caltech's varsity football team unveiled its new double wing offense for the Occidental Tigers Saturday, but the Beaver preparation went for naught as the alert Oxy squad took advantage of Tech mistakes to score a 35-7 victory.

Late in the first period Chuck Malone fumbled on the Tech 18-yard line where the Tigers recovered Jack Kemp. Oxy quarterback, snatched over from the one yard line six plays later for the game's first score.

In the second quarter Oxy took the ball at midfield after the turnover. Fullback Don Lyon cashing in, cashing in the drive with a one-yard plunge. Midway in the third quarter the Bengals recovered another Tech fumble, this time on the Beaver 45, and pushed across their third TD.

After the following kickoff, Tech's attack finally got rolling, and the Beavers drove 66 yards in just six plays, with Don Stocking rambing the final 16 on a reverse off the double wing. Chuck Malone kicked the extra point to make it 21-7, Oxy, the fourth quarter began.

Midway in the final period Tiger halfback Chasney Pa scored the third TD on a touchdown on a 25 yard sweep, and after an ensuing kickoff Tech was unable to move, so Van Kirk stepped back to punt for the Beavers. Bengal end Darrel Forrest broke through to block the kick, and guard Don Bruner poked the ball in midair, and rambled 37 yards to score the final TD of the game.

Harriers top Poets

Fred Wittlief led Caltech's varsity cross country squad to a decisive 16 point victory over Whittier last Friday. Tech took the first four places, and six of the first seven, as the whole Beaver team beat Whittier's second man. Don Lewis was second, Tom Moore a strong third, Dan Wulf fourth, Dave Younkin sixth, and Reid Saunders seventh.

Interhouse sports

Interhouse Basketball ended in a three-way tie for top honors between Dalney, Flemming and Throop. They each finished with three won and one lost records.

Sheets had sole possession of fourth place with one win and three losses. Winters-Blacker trailed the rest of the field with four losses.

Throop club won its final two games by scores of 47-39 against Bickets and an emphatic 69-53 trouncing of Blacker, to finish in a tie for top honors.

Flemming cooled off a hot Bicketts team in the second half and made up an eight point deficit to win by 48-38.

Dalney gained a tie for top spot by besting Blacker 55-22 in its final scheduled game.

COLLEGE SMOKERS PREFER LUCKIES!:

- Luckies lead all other brands, regular or king size, among 30,075 college students questioned coast to coast. The number-one reason: Lucky% taste better.

LUCKIES TASTE BETTER - Cleaner, Fresher, Smoother!
The Wild One for instance. Re­
alizing the need for originality in
modern jazz, Rogers has never
came to experiment with devices
which have their origin in
classical music in order to
produce an art form of lasting
value. Moreover, as a trumpet
player, Rogers, with his precise
and tasteful solos, is one of the
best spokesperson for his own Type
of music.

In light of the abilities Messrs.
Rogers and Previn and the other
well-known figures appearing
with them, one would expect
something unusual to ensue, and
sure enough, something does. To
begin with, the composition-ar
rangement pattern utilized is
different, at the very least.
On the first side, Rogers leads off
three different standard songs,
via his arrangements of them.
Following each of these, Previn
presents an original instrumen­
tal, based on the same chords,
but with, of course, numerous
variations. On the second side of
the record, this procedure is
reversed.
