Sajdera Leads Rowdies To Fifth Straight Sing Victory

Ricketts House made it five years in a row by winning the Interhouse Sing again last Thursday. Their score of 276 out of 300 points gave them the victory.

Ricketts' 276 point score was just enough to give them second place. Fulbright collected 293 points for their second one-point boost in as many years. Fleming's 217 was good for fourth place.

Tech's renowned Gloe Club tugged off the evening with their first concert before the student body this year.

Freshmen Stan Sajdera earned himself a job for the next three years by leading the Rowdies to their win. Bob Johnson directed Blacker while Al Forsythe led the Darby.

Fleming's director, Ted Oakberg, contributed his talents also to the Gloe club's quartets. Ron Arps, Urban Kern and Joe Linge, completed the group.

 climax of the affair came when the announcement of Ricketts' victory was made and the victory carried triumphantly on a celebration that lasted many hours.

AC5 Picks New Officers

New officers were elected by the AC5 branch of the American Chemical Society at a meeting on March 6. The new officers are: President, Gary Zimmermann; Vice-President, Arnold Goldsmith; Jim Farnen; Treasurer, Phil Brooks; Senior Representative, Bob Harmon; Junior Representative, Pete Roney.

Freshmen are invited to the next meeting which will be held shortly after freshmen choose their options third term. A Sophomore representative will be elected at that time.

Applications Due April 7 For ExComm, Big T, Tech Posts

The ASCIT Board of Directors will accept applications for positions on the newly-created Executive Committee, as well as for the Editor and Business Manager of the Big T and Business Manager of the California Tech until April 7. Students to fill the positions will be named by the BOD on April 14.

Executive Committee candidates are asked to submit written applications to Mr. Noel Geofrey (G box in Ricketts). All interested in the positions should apply to Dave Spencer (K box in Fleming). No restriction has been made concerning the number of applications nor the number of positions for which one person may apply.

Every candidate for an ExComm position will be interviewed individually by the existing ExComm members (ASCIT President, Vice-President, Treasurer and Secretary), following the receipt of his application. The interviews cannot be scheduled to be interviewed by a committee consisting of the present office holders, the ASCIT business manager, and other members of the BOD.

Other appointee offices will be filled by the Executive Committee after a similar application-interview process later in the spring term. These include Election Committee Chairman, Editor of the Little T, Head YeI Leader, Chairman of the ASCIT Photo Division, Chairman of the Facets, and Counselors for Freshman House.

TBPi Names New Members

The California Beta Chapter of Tau Beta Pi, the sole national engineering honor society on campus, held its semiannual initiation and banquet last Sunday and initiated the following men as new members: Berkin Chang, Bill Klemmet, Wolfgang Krueger, Dov Rech, Rob Harmon, Dick Johnson, Walt Johnson and Bob Lange.

TBPi Beta, FL, which can select scientists as well as engineers at Caltech, chooses its members on the basis of high scholastic standing, character and extracurriculum interest.

Indian's Vice President Tops Y Leaders Program

Radhakrishnan Schedules 3-Day Visit; Plans Philosophical, Political Addresses

Dr. Sarvepalli Radhakrishnan, Vice-President of India and noted philosopher, will visit Caltech on April 2, 3 and 4 as the highlight of this year's 'Leaders of America' Program which will include two major addresses, will be built around the two areas with which he is most concerned, philosophy and politics.

The two addresses, to be delivered Wednesday and Thursday evening, April 2 and 3, will probably center around India's role in international affairs and Indian philosophy and religion, respectively. The remainder of his stay at Tech will probably include visits to the Athenaeum and numerous smaller sessions at which students will be able to talk informally with him.

One unusual feature of his visit will be one or more special meetings with a group of ten students who will be chosen before he arrives to read one or more pertinent books on Hinduism over summer vacation. Those interested should sign up at the Y office. A number of such books are on reserve in the Y office.

Radhakrishnan is one of India's most erudite and distinguished international figures. While he may be remembered for his effects on the world and his political activities, he was ranked by Dr. Phillips Talbot, American University's Field Staff Director, as the third or fourth most influential man in the Indian political hierarchy. His principal task as Vice-President is to oversee the National Policy of the Indian legislature, although he is also known to be a close advisor to Prime Minister Nehru.

Previous to his election as Vice-President, Dr. Radhakrishnan, who has served as India's first Ambassador to the Soviet Union for three years (1948-52), from 1949 to 1949 he served as leader of the

Announcements

WHO CALLS?

The Institute telephone staff informed the California Tech that night line extensions are being used for person-to-person toll calls to the campus of the Associated Colleges in Claremont. No extension number or name is being given to the operator, and the Institute cannot transfer the charges. To call these requests that the person making the calls identify himself.

LOST WEEKEND

ASCIT Social Chairman Ken Ditwiddie announced the date of the Los Weekied on May 15. A part of the activities will include an annual Spring Concert by the Caltech Gloe Club.

PROM

The annual Junior-Junior Prom will be held concurrently with the Frosh-Soph Ball on May 17, announced junior junior president Jerry Arseyon.

STAFF

Openings still remain on the Tech staff in the fields of news and sportswriting. See Mike Miller, Ricketts' 9.

Norman Vincent Efron

Spiritual Counselor Puts In Final Word

By Paul Efron

I almost hate to mention this, but next week is finals time again. Second term finals are particularly charming to quote a poet undergrund. The year's at the spring; And day's at the morn; Morning at seven; The hillside's dew-dew-dew; The lark's on the wing; The snail's on the thorn; Finals tomorrow; I wish I were dead; This is really a wrong attitude. Unless you're one of those rare people who can bocamte at will, you have to take finals. Face up to it, old fellow, Finals news week. There, that wasn't so bad, was it? Finals next week. Ho! Ho! Ho!

One of the big causes of finals anxiety (Cramps Final, to use the medical term) is the mystery surrounding the final. Because the subject of finals, not the finals themselves, though this meaning has significance, too, Norman Vincent Peale doesn't offer any handy pamphlets on "How to Pray Your Way to Intellectual Conquest," Arthur Murray doesn't advertise a "Magic Step for Finals," with little black feet and white rock and ribbons. Even the Reader's Digest fails to print an article for "How I Finished My Wave From Spinal Menigitis To the Presidency of My Club Stamp." The whole subject is a saddly neglected one.

So, anyway, cheer up, cheer up. To quote another old proverb, "Look to your left, look to your right. Both of you guys want to cut your throat next week. By Paul Efron

RADHAKRISHNAN: 3-DAY VISIT

Dr. Sarvepalli Radhakrishnan, Vice-President of India and noted philosopher, will visit Caltech on April 2, 3 and 4 as the highlight of this year’s Leaders of America Program, which will include two major addresses, as built around the two areas with which he is most concerned, philosophy and politics.

The two addresses, to be delivered Wednesday and Thursday evening, April 2 and 3, will probably center around India’s role in international affairs and Indian philosophy and religion, respectively. Tech Reporter Visits MIT
A Report on Student Life, Academics at Mass Tech

By Dave Leeson
The Massachusetts Institute of Technology resembles Caltech in many ways. But just as the name, we found last week in a visit to the Bay Area, that student life and student government are strikingly similar, as are their athletic and study attitudes. There are some large differences, however, in size and in community prestige, as well as in overall size and in the number of undergraduate programs.

Student Government
The MIT student government is headed by the Institute Committee (InstComm), which is composed of 11 (recently 20) elected officers, and the Executive Committee, which closely resembles our recently established EdComm. The InstComm represents the 3700 undergraduates, among them 70 women comprising the minority of women students.

Welcome to the last meeting of the outgoing InstComm, which meets every Thursday, and later had coffee with several of the incoming members, among them outgoing president Arnie Amstutz and newly-elected president Gerry Stephenson.

$40,000 Budget
The student government has a large number of committees, among them an activities board, a finance committee, the dormitory committee, and the Student Committee on Educational Policies. The yearly budget is in the neighborhood of $40,000, which is received from the Institute out of tuition payments. The majority of the officers are Econ and Business Administration majors. The MIT student body maintains as office, complete with secretary, and has had one for quite some time.

300-Mass Dorms
The dormitories are divided into the dormitories and in a large number of fraternities. The dormitories consist of about 500 men, with about 100 on each floor. Each dorm has an administration much as our student house with executive committees. The dormitories are open to all classes. Their large size eliminates the need of the dormitory staff to be found in our houses, according to a number of men, which of course includes us. The fraternities make up the remainder of the student body, and the intense rivalry is absent, perhaps due to the large number of groups.

The Freshman Class
The campus layout is considered

WHAT'S A CLOWN WHO SMOKE LUCKIES?

BOO-BOOS are a clown's best friend. The clown in question has a penchant for shining his shoes with woolen underwear and diving into sponges. But he makes no mistake when it comes to choosing a cigarette. He picks the one that tastes best. He puts his money on the only one that's all fine, light, good-tasting tobacco, toasted to taste even better. He selects (The response is unbearable). Lucky Strike! All of which makes him a Brainy Zany! Quit clowning yourself right now!

STUDENTS MAKE $25
Do you like to make quick money? Here's your easy money—start Blacklking! We'll pay 55c for every Blacklker you sell. Don't need to keep records, you can buy the Blacklker, you can buy the Blacklker, and you can never get used. Blacklkers are simple friends with the names of a few names. Both must have the same name of names. (Don't do drawings.) Send your Blacklkers with your name, address, college, and school to Happy Joe, Lucky Strike Co., Happy Joe, Lucky Strike Co., Happy Joe, Lucky Strike Co., Happy Joe, Lucky Strike Co., Happy Joe, Lucky Strike Co.
Secretary's Report

BOD Meeting—March 10

SELECTION OF EXCOM MEMBERS AND OTHER APPROPRIATE OFFICERS

The new appointed officers will be filled according to the procedure described on page 1 of this issue. It was felt that ten applications and personal interviews with the candidates would allow for more efficient selection. Recommendations will be made to the BOD as a whole by committees composed of past office-holders and indicated ASCIT officers. For example, the applicants for Head Yell Leader and the ASCIT Athletic Manager and Activities Chairman; applicants for California Tech Business Manager will be considered by the Tech editor and the ASCIT Business Manager.

JUNIOR-SENIOR PROM

Date: May 17. Place: Ambassador Hotel.

BUDGET

Organizations subsidized by ASCIT should attempt to submit their proposed budgets for the ensuing year by the first BOD meeting of spring term, i.e., April 7.

Tom Jovic
ASCIT Secretary

News

Soviet Proposal Rejected

Russia's well-publicized proposal for a plenipotentiary foreign ministers' meeting was found so restricted that both President Eisenhower and Secretary of State Dulles felt there was no hope of progress at such a discussion. Russia had requested that the ministers not only the members, place, time and agenda for the conference; she made no allowance for a full discussion and settlement of issues.

Britain agreed with the United States on the rejection of the Soviet proposals. Russian proposals were simultaneously squelched on another front as West Germany refused to consider a peace treaty without unification with East Germany.

French African Plan Failed

Premier Gaillard of France succeeded in passing a bill through the National Assembly which would provide economic and military integration for North Africa even though the Algerian rebels had already rejected the idea.

The bill needs the support of Algeria, Tunisia and Morocco, who appreciate the offer of a share in Sahara oil development but will not act while France fights in Algeria.

Guailard had just previously won a vote to increase the military budget for Algeria and cut it elsewhere.

Meanwhile, President Bourguiba of Tunisia continued to demand complete withdrawal of French troops from the country despite the mediation efforts of Great Britain and the United States. Bourguiba himself is pro-West, but many of his people are attracted to Nasser and his nationalism.

Arab Republics

President Nasser appointed an Egyptian-dominated cabinet in Cairo and then proceeded to launch a propaganda attack against King Saud of Saudi Arabia. India holds the key to power between Nasser's United Arab Republic and Pilсуд's Arab Federation and was accused of plotting Nasser's assassination.

"With this filter—if you were thirsty enough
YOU COULD DRINK THE OCEAN DRY!"

But professor... I thought sea water had to be distilled.

Not any more, this filter has ion-exchange action that takes out salt. It can save lives—irrigate deserts!

Amazing! There are thousands more filter traps in Viceroy's...

Yes, more than 20,000 thousands and thousands more than other leading brands!

Light one! Discover as I have—Viceroy gives you more of what you change to a filter for!

Viceroy is the world's largest selling filter tip cigarette.

Later... in the laboratory

It's an important advance in filtration, 6017 this Viceroy filter, that's why I smoke Viceroy's...

Viceroy gives you more of what you change to a filter for.

Our microscope will show you...

Viceroy gives you more of what you change to a filter for!
Thincclads Host Poets In Conference Opener

Tech's tracksters open their conference schedule Saturday, favored to defeat the Whittier Poets.

Whittier, led by Vince Asaro in the weights, will join Chapman for a 2 p.m. invasion of Tournament Park, but the Beavers are favored to win both of their dual meets in the "triple dual" affair.

"Triple Dual"

The "triple dual" meet calls for separate scoring for each pair of teams, as if each pair were engaged in a dual meet. Thus a relay win for Tech will count 5 points against Whittier and another five points against Chapman.

Asaro is expected to take firsts in the shot and discus on the basis of a similar performance at the Conference Relays. Dick Van Kirk is carrying most of Caltech's hopes, being entered in the broad jump, 100-yard dash, high hurdles, 220, mile relay and possibly the high jump.

Ed Krebhiel and Ron Forbes will give the Beavers additional strength in the sprint, hurdles and relay, and Lanny Purnell and Lanny Lewyn are expected to finish one-two in the javelin.

"Good Ol' Gordie" Barienbrock is favored in the high jump.

Injuries

Steve Alrens, an Occidental transfer, looks strong in the 880, and will run a relay lap if a bad leg muscle holds up. Tony Leonard has rejuvinated his knee and may not make this week's half-mile.

A highlight of the meet will be the Whittier freshman team, which is setting the conference on fire. Their relay team defeated every varsity entry in the Conference Relays.

Pit and Paddock

The Sports Car Club of America and the California Sports Car Club have finally gotten together and announced a joint schedule of races for the rest of 1958 in Southern California. Last year there were a few conflicting dates and many races were too close together.

April 12-13 SCCA, Palm Springs May 31-June 1 CSCC, Santa Barbara June 28-29 CSCC, Riverside

July 12-13 SCCA, Del Mar Aug. 30-31 CSCC, Santa Barbara Sept. 18-19 SCCA, Del Mar Nov. 14 SCCA, Palm Springs National Dec. CSCC, Riverside It will be noticed that no races at Paramount Ranch and no SCCA Nationals at Riverside are scheduled. Last year there were only three events through which West Coast drivers could get points toward National standing without traveling great distances. It looks like this condition will be even worse this year.

The 1958 Grand Prix season looks good, with Ferrari, Lotus, Cooper, Vanwall, BRM, and sow Aston-Martin competing officially, as usual. Many of the great names are using the opportunities offered by private owners. Firestone will be making Grand Prix tires this coming season. Some cars, notably the 4.5 Maserati and the G. P. Ferrari, handle much better on Firestone tires, according to reports.

The organizers in Watkins Glen, New York, have filed with the FIA to run a Formula I race late this year. The organizers at Riverside Raceway are also planning a Formula I race as soon as possible.

The CSCC has decided to make the use of roll bars mandatory on all cars after regulations on roll bars are published, which should be soon.

FIFTH SCHEDULE

THE NEWS

(Continued from page 8)

"Well, that was today. Tomorrow will be different. As you can see, I take a job from the beginning and follow it through. Often I have a lot of jobs in various stages at the same time. I think most engineers would agree that keeps work interesting."

Keith Lynn is one of many young engineers who are finding rewarding careers in the Bell Telephone Companies. Find out about opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

Friday, March 13, 1958

VIRGINIA CITY TELEPHONE COMPANY

(Continued from page 8)

The Democrats and the President sponsored several anti-recession bills as unemployment hit five million—the highest since depression years.

One recent proposal calls for more speed in previously approved public works. A proposed bill asks for another billion to complete the highway program as originally scheduled. Both Congress and the Federal Reserve Board are trying to encourage more bank loans.

President Eisenhower disparages most "pump priming" schemes, but he is still asking for new reclamation bills and a special government unemployment benefit program which will go beyond that offered by the states.

KEITH LYNN, S.E.E., PURDUE, ‘52, INVITES YOU TO

"Spend a day with me at work"

"I’m an Equipment Engineer for Illinois Bell Telephone Company in Chicago. Speaking personally, I find Bell Telephone engineering darned interesting and very rewarding. But judge for yourself."

"8:30 a.m. We start at my desk. I’m studying recommendations for installing additional dial telephone facilities at the central office in suburban Glenview. This is the beginning of an interesting new engineering assignment."

"10:20 a.m. I discuss a proposed layout for the additional central office equipment with Supervising Engineer Sam P. Ablin. I’ll want to inspect the installation area this afternoon, so I telephone the garage and order a car."

"2:00 p.m. After lunch I drive out to the Glenview office. Here, in the frame room, I’m checking floor space required by the proposed equipment. Believe me, the voice of our business is growing, every square foot counts."

"11:00 a.m. At an interdepartmental conference I help plan procedures for another job that I’ve been assigned. Working closely with other departments of the company broadens your experience and know-how tremendously."

"2:10 p.m. Then I drive over to the office at nearby Skokie where a recent engineering assignment of mine is in its final stages. Here I’m suggesting a modification to the usual provision for the installation of the telegraph circuit.
